FARM NOTES How To FEED Horses -Some one says that more horses are annually killed or injured by over-feeding and by injudicious feeding than by starva-tion or most other causes. In horses we can detect as many different temperaments and dispositions as in men though but few horse owners take this fact into mature consideration in the management of their horses, particularly in that part of it relating to food and feeding. Some horses are natural gluttons, and they must be seen to carefully, or they will, at times, be apt told by Yerkes, with this difference—to seriously injure themselves by feedthe positions were changed. A physician was called who ordered the limb to be poulticed, and he gave me medicine internally, without benefit. I then got a bottle of St. Jacobs Oil, which cursd me. It acted like magic."

—Mr. Lorenzo Buck, Bancroft, Shiawassee Co., Mich., says: "I had chronic rhenmatism for years, contracted during the
war. After sitting or lying down, at times, I could not get up, from stiffness and pains. At work my strength would give out, then I would pass through a sickness of several weeks. I had to walk with a cane and was at one time so iii I could not lie down without terrible pains in back and limbs. I tried St. Jacobs Oil: next morning got up out of bed without assistance. Nearly all diseases of lone standing have heir origin in the unnatural and unhealth-ondition of the blood, or as this condition i very properly denominated, impure blood. In flammations of long standing, rheumatic pains ingering and scrotulas diseases and all skin diseases, such as eruptions, pimples, and otches, are all caused by impurities in the lood. If the blood flows through the vessels n pure, fresh and powerful stream, it carries to very part of the body and to every organ new and fresh vitality and carries the waste matter tway from them. The chief care of parents who are destrous of promoting the physical well-being of their children should therefore be to guard the tender bodies of their children against susceptibility to the attack of germs of all kinds of diseases through impure blood.
