- Father, I scare eld dare to pray, So clear I see, now it is done. That I have wasted half my day, And left my work but just begun.
- So clear I see that things I thought Were right or harmless were a sin; o clear I see that I have sought, Unconscious, selfish aims to win;
- So clear I see that I have hurt
 The souls I might have helped to save,
 That I have slothful been, inert,

CLOISONNE EMAIL.

Novelties in art work have of late been most scarce; diligent seeking for such has only been rewarded by disappointment managers of art societies have been in despair, anateur workers have had to fall back on some of the minor arts introduced long ago. Now, from Berlin, comes a new process for the articles large and small, useful and ornamental, to wake us from our lethargy. Vases, plaques, flower-pots can be easily made into things of beauty old furniture can be renewed and prettily decorated with imitation Wedgewood plaques. OF IT!

FLORIDAP THE FLORIDA REAL ESTATE JOURNAL, ARCADIA, FLA.

The seed is planted when you feel "run-down" and "used-up." Malarial, typhoid or bilious fevers spring from it-all sorts of diseases. Don't take any risk. Dr. Pierce's Golden Medical Discovery invigorates the system and repels disease. It starts the torpid liver into healthful action, purifies and enriches the blood, and restores health and vigor. As an appetizing, restorative tonic, it sets at work all the processes of digestion and nutrition, and builds up flesh and strength. For all diseases that come from a disordered liver and impure blood, skin, scalp and scrofulous affections, it's the only remedy that's guaranteed. If it doesn't benefit or cure in every case, you have your money back.

You pay only for the good you The worst cases yield to the mild, soothing, cleansing and heal-

Whole libraries have been written about Malacia and maiarial diseases by the learned men of all nations. How far the physicians may offer from me another in their views on other subjects, they all agree on this that the scat of Malaria in the blood and that it particularly affects the mill. Malaria may occur anywhere; but it is especially previous in damp and low lying regions with heavy soil. If even is very seldom in more here Europe, but it prevails in North America, Central America and South America particularly in such parts of this continent which have a most and warm chimate. Malaria is not a contagions disease in the usual acceptation of the term. Even in those countries in which it appears in an enterme form it can be guarded against by a rational mode of fixing and the observance of the most common rules of health. Among these the most important are moderation in eating and a rinking and avoiding the damp night air. One of the most important are mederation for the preservation of health is perfect digistion and meaninection with the a free circulation of the hood and a rapid removal of all waste matter from the body.
