The liver, the kidneys, the heart, the lungs and the shomach are the most important organs accessary for the preservation of life. It is ondition as possible. But while the heart, the longs and the stomach in an ordinary constitu-ted person can endure a pretty severe abuse without stopping in their work, the liver is a very sensitive or no. The least interruption in its activity is noticed at once in a most disagrecable manner, perious com plications may arise therefrom, for which the physicians have invented a large number of long Latin names, and which, if not attended to prometly, are followed by long and painful diseases and frequently by feath. Ordinary people asually cass all these diseases under the general name of liver complaint. Their symptoms can be susily recognized. A rellow color of the kin, particularly of the white of the eye, disagreeably bitter bullous tasts in the mouth, a thickly-coated tongue, loss of appe-tite, a distike for meats, combined with headcite, a distile for meats, combined with headiche, light attacks of fever, etc. these are unailing signs that the liver is out of order. As
one as one or more of these symptoms appear
t is necessary, in order to present a serious
suckness, to remove from the liver all superlaws blie and all waste matter, to premote
the free corolation of the blood, and to gently
stimulate the capricious appetite. There is no
better remody to accomplish this purpose than
St. Ber and Vegetable Pills, which have been
justify celebrated for a long time. They are
prepared exclusively from the best medicinal
