**Cholera.**

The steam ship Moravia arrived in New York harbor on the last day of August with cholera aboard. She left Hamburg for New York on the 18th of August. On that very day Cholera broke out in Hamburg. It is remarkable that the disease should make such rapid strides on the voyage. There were 22 deaths on board the ship during the voyage all the deaths were children excepting two grown persons. The passengers last night were transferred to Hoffman's Island a little strip of sand above the water and kept from washing away by a slope wall. The passengers will be required to stay there until the expiration of 10 days after the last case of cholera has disappeared. The Island will accommodate 900 emigrants.

The New York authorities immediately made a raid on the fruit stands where unripe fruit is sold. The news of the arrival of cholera almost caused a panic in New York.

The pestilence is beyond control in some places in Europe in one town over 400 victims awaited burial at one and the same time. They could not bury the unfortunate people in graves, they dug trenches and laid the bodies side by side and covered them with quick lime mixed with earth.

**A Pest Among Cattle.**

Some of the farmers in this county are experiencing a good deal of trouble with their cattle at present. There is a swarm of small flies, about half the size of a common fly, gathers on the head of the horns and in the course of a few days will eat their way into the head of the cattle which is sure death to them. Wm. Heffner, of near McConnellstown, lost a valuable cow last week by these pests and he fears he will lose more if some remedy is not soon discovered that will kill the flies. Farmers in Penn township also experience the same trouble. Huntingdon Journal.

**Society Reorganized.**

The Crescent Literary Society of Millintown, has organized after its summer recess and will hold regular meetings during the coming year at the public school building of this place. The question: "Resolved: That the signs of the times indicate the downfall of this Republic," will be debated on Friday evening next and promises to be very interesting. All persons interested in literary work are invited to attend.

**Chicken Weather Sign.**

An old weather sign says—when chickens begin to shed their feathers from the tail first, the fall season will be a long and pleasant one and farmers need not be in a hurry about seedling—when chickens begin to shed their feathers from the head first the fall will be a short and unfavorable one and farmers should watch what comes soon as they possibly can. The chickens this season began to shed their feathers from the tail first.

**Pennsylvania Railroad to the G. A. R. Encampment at Washington during September.**

Undoubtedly the most interesting encampment of G. A. R. men ever held will convene at Washington during September. The interest manifested in the encampment has been national, and the Government and local authorities in the National City are making elaborate preparations for entertaining the old soldiers.

The Pennsylvania Railroad Company will sell excursion tickets from all stations on its lines to Washington, from September 13th to 20th, inclusive, at a rate of a single fare for the round trip. These tickets will be valid to stop off at Baltimore and Philadelphia in each direction within limit. A stop over privilege will also be allowed at Harrisburg and other points south of Washington on foreign roads' issue of tickets from the West.

The Pennsylvania Railroad Company has also issued one of the most comprehensive guides as yet compiled of the National Capital.

**For a Time.**

I will now reduce the price of my \$3.00 cabinet photograph to \$1.50 per dozen.

This reduction will continue as long as there is sufficient trade to warrant these prices and no longer. This gallery is filled with all the latest improvements usually kept in the first class gallery, such as Fine Scenic Backdrops, Beautiful Dramas and Fine Accessories, that would do credit to the large cities.

We propose during this reduction to let our work speak for itself and have no hesitancy in saying that taking into consideration the quality of work, these will be the cheapest cabinet photographs ever made in Juniata county. Respectfully, JOSEPH HESS, Millintown, Pa., Jan. 22nd, 1892.

**The Place to Buy.**

**Look to the Fire Plugs.**

When water is turned into the pipes each fire plug should be tested. The City Fathers will doubtless look to that matter.

**Bitten by a snake.**

While stepping from the back door of her residence on Friday evening, Mrs. William Ely, of Standing Stone avenue, was bitten on the right ankle by a blowing viper. The snake was concealed in the grass and was not seen until she stepped upon it. Mrs. Ely's ankle began to swell at once, and applications of sweet oil and ointments were promptly administered, which reduced the swelling and probably saved her life. The lady is now out of danger.
