The Mugwump organs have an unpleasant job on hand in attempting to refute the showing made by Commissioner of Labor Peck in his report on the effect of the tariff on labor and wages in the State of New York. The general conclusion arrived at by the Mugwumps is, that since it has been shown by investigation that wages have increased and that production has increased and that strikes have lessened in New York since the McKinley law passed, the tariff has nothing to do with it. That is a beautiful whimsical and complete Mugwump argument and leaves nothing more to be said.

It is a good thing to clean all unclean places as a help to prevent cholera, but the place to keep clean and healthy is the stomach and bowels. With a healthy digestion you are proof against cholera. With an unhealthy digestion you are liable to become its victim at any time or in any place this year.

Newton Hamilton Watchman—A couple of our nimrods know what it is to hunt and trespass upon a man's land that has notices posted, but it is not necessary to post notices to bring and sustain an action for trespass. Huntingdon Journal.—On Sunday morning last John Shewalter, a well known citizen of Penn township, was found dead in bed. He had not been ill and his death is attributed to heart failure. He was aged about 60 years. \* \* \* The Pennsylvania railroad, on Saturday last, suspended almost two thousand laborers in their employ between Harrisburg and Altoona. Eight hundred of these men were suspended from the Altoona shops. \* \* \* It is unlawful to build blinds for the purpose of shooting wild turkeys. That old practice is still carried on in some of the rural districts of this county. It should be remembered that every blind built for that purpose subjects the offender to a fine of \$25.

From the Perry County Democrat:—Thirty-one baby coaches, each with a baby in, formed a novel procession on the streets of Newport Tuesday evening of last week. \* \* \* A little daughter of Lawrence Zeis, who lives at Richmond Furnace, was bitten on the toe by a copperhead snake the other day. She immediately sat down and sucked the toe, thus probably saving her life. \* \* \* A one four-months-old colt, belonging to Mr. Moses Trostle, of Madison township, met death Sunday last week in a horrible manner. It attempted to jump over a pale fence and one of the pickets on the fence ran into the colt's abdomen tearing out its intestines. To end the animal's suffering it was knocked on the head with an axe and killed. Mr. Trostle has been unfortunate with his horse stock. Last spring he lost a valuable bay mare with colt, from the effects of colic.

For a Time. I will now reduce the price of my \$3.00 cabinet photograph to \$1.50 per dozen.

This reduction will continue as long as there is sufficient trade to warrant these prices and no longer. This gallery is filled with all the latest improvements usually kept in a first class gallery, such as Fine scenic Backgrounds, Beautiful Drama peries and Fine Accessories, that would do credit to the large cities. We propose to speak for itself and let our own hesitancy in saying that taking into consideration the quality of work, these will be the cheapest cabinet photographs ever made in Juniata county. Respectfully, JOSEPH HESS, Mifflintown, Pa., Jan. 22nd, 1892.

Twenty Thousand.

About twenty thousand cans of fruit were put up in the cannery last week.

For Hay Fever.

A wash made of witch hazel and cocaine and applied to the nasal passages, is a magic cure for hay fever. Begin treating when you first discover the disease.

Both Appeal.

The effort to make the Thompson-town bridge a public bridge has thus far proven itself unsatisfactory. The voters placed the sum to be paid by the tax payers of the county at \$15,000. The bridge owners say that is not enough, and the County Commissioners say it is too much hence both parties appeal.

Hydrants.

A nice lot of hydrants, iron pipes and chain pumps, just received. I am prepared to fit up and place in position pipe hydrants, tanks, and all necessary appliances for conducting water. Charges moderate. Work guaranteed. Call on or address, F. W. Noble, Mifflintown Pa.

Cholera in Winter.

Dr. Sayre, of New York, says there is no belief more erroneous than the one that frost kills cholera. "The cholera has never made worse ravages on earth than in Russia in mid winter, when the temperature was much lower than we ever have it here. It is folly to think that frost will check it."

Killed by Cars.

William Kennedy of Milford township was killed by cars last Friday evening. He had been to see his neighbor Casner and was on his way home and was struck on Weller's crossing below Patterson, by the bumper of a car that was being run back from Port Royal. He was knocked clear off the track and was dead when taken to his home a short distance from where he was killed. He was aged about 69 years and leaves a wife and three children.

Look out for Him.

A man was arrested in Milton last week who may make his appearance here, and will be well for everybody to be on the lookout for him. He bought five cent's worth of caramel at a drug store, moving it with a quantity of water, had a fluid that resembled extract of vanilla so closely that he readily succeeded in deceiving a number of people with it. He was arrested, fined and released. If he comes here don't let him swindle you.—Lewisburg News.

Congressman Yonabated.

Mr. Gillan the first nominee of the democracy of this congressional district declined the nomination. The conference was re convened at Lewis-town last Friday and nominated W. W. Trout, editor of the Lewis-town Free Press by acclamation. There is no announcement that Trout has accepted, but if the doge Mason will have more trouble to run the race than if Gillan had remained in the field. The editors in the district will be slow about training their guns on a fellow editor.

A Cow in a Well.

"Which of you shall have an ass or an ox fallen into a pit and will not straightway pull him out on the day the Sabbath day?"

A cow belonging to Mr. C. Fred Fletcher on Sunday broke through the floor of cistern at the Crowell shops in Greenacastle and fell to the bottom a distance of about 15 feet. The cistern contained water to the depth of about 2 feet. When discovered the cow was standing up apparently unhurt. A posse of men were summoned, chief of whom was neighbor Abraham L. Grove, and under his skillful management assisted by Mr. Lee Green, with stout rope, block and tackle the cow was lifted out speedily and successfully and walked off to her home as though nothing had befallen her. How the animal escaped serious injury seems almost miraculous.—Chambersburg Reporter.

There Four Times.

When horse thief Walker was taken to the penitentiary last week, it was learned that he had been there four times and that he had in those terms served a period of 15 years. He is 46 years of age, and when the present term expires he will be 54 years old. He stated to Sheriff Lapp's assistants that his skillful management, aided by Mr. Lee Green, with stout rope, block and tackle the cow was lifted out speedily and successfully and walked off to her home as though nothing had befallen her. How the animal escaped serious injury seems almost miraculous.—Chambersburg Reporter.
