Burglars entered the office of the Tuscarora Valley Railroad, at Port Royal on Sunday night and blew the front of the safe out and stole seventy some dollars that had been placed in the safe for safe keeping. A safe these days seems to be no protection against the arts of safe burglars. They are good to keep papers in, and about as good a way as any to keep them from being destroyed is to leave them unlocked with a card tied to the door to read something like this: "This safe is unlocked. It contains papers valuable only to its owners. Look in and be convinced. It is a rare art for a thief to disturb papers when he knows they contain no money. If a man has a safe to keep money in, the only safe way to keep the safe from being blown into a state of worthlessness is to employ a watchman to take care of the safe. He should be instructed to promptly shoot the first thief that sets foot on the premises."
