The water company shut off the water on Monday morning to make repairs. If they had thought of the fact, that Monday is wash day with most families, they would have selected a later day in the week for the shut off and repairs. If the water company get the women after them, they will hear about themselves.

Ex-Sheriff Jamison of Fayette township, was in town on Saturday. He is always interesting and links the past with the present, and has not lost interest in the affairs of today because he is one of the few living representatives of the active life of a former generation. Long may he live to visit the county seat where he spent many days earlier in life.

Women who were expecting water on try to wash with on Monday morning, gave the water company hail Columbia for stopping the water supply on wash day. If the company could be put in petticoats, a few months it would give them an everlasting forethought of the requirements of wash day. It will not do for the company to fall out with the women.

An intelligent foreigner is said to have expressed himself after the following fashion on the absurdities of the English language: "When I discovered that if I was quick, I was fast; if I spent freely, I was fast, and that not to eat was to fast, I was discouraged; but when I came across Boy's of sentence, The first one won one one dollar prize, I was tempted to give up English and learn some other language."

Between showers the little industrious English sparrow, builds nests in the water spouts on house roofs. Last week the sparrow came in for a great deal of denunciation on the part of the house owner whose roof or rain-spout was caused to overflow and make things unpleasant about the house where the water fell, and in some cases water was in that way run into cellars. The man who brought the sparrow to America from Europe, also came with a good round denunciation for the introduction of such a troublesome bird.

Samuel McMeen died at the home of his son-in-law Abram Moist near this town, about 6 o'clock on the evening of the 2nd inst., aged 78 years. The past six months the infirmity of age told on him, and his mind of late kept him indoors most of the time but he was not considered in a dangerous state of health. On the evening mentioned his daughter Mrs. Moist heard a peculiar noise come from his throat and hastened from an adjoining room to where he sat in a rocking chair. He was then dying. She called Mr. Moist to attend to a doctor, but Mr. McMeen said the boy was half way to the doctor's office. Interment in Cedar grave-yard at the Diven farm.

Obituary.

Solomon Manbeck a prominent citizen of Walker township, died on the 28th of April at his home near Thompsonstown, after a lingering disease of the liver and kidneys, contracted through a fall about a year previous. He was buried in the Union graveyard at Locust Run on Sabbath following. His remains were followed to their last resting place by a large concourse of mourning friends, who assembled for many years on a similar occasion in that locality. Rev. Mr. Sieber of Bloomfield delivered a lengthy and very impressive oration in which he recalled from a long and intimate acquaintance many of the sterling qualities and excellent virtues of the deceased. The deceased was simply a farmer but a man of most extraordinary foresight and discretion—a large and commanding intellect, conservative in all its actions, and devoted to doing good through all his years, finishing a beautiful career in the 63 years of his earthly pilgrimage. In demeanor he was quiet and unassuming but exerting a silent influence and always for good that was altogether wonderful. He filled important trusts with great satisfaction to the public, was liberal in a good cause, kind to the poor, and ever ready to sympathize when misfortune overtook his fellow man. He was a model husband, a wise father, a kind neighbor, a good citizen,—a Christian.

No farther seek his merits to disclose, O draw his frailties from their dread abode, There they alike in trembling hope repose, The bosom of his Father and his God." S.

75 Cents.

Seventy-five cents a pair for Ladies' a calf every day work shoes, at Heck's shoe store.

Adulterated Coffee.

Coffee drinkers will be interested in the results of the government investigation into the adulteration of that household article. Thirty samples of "pure" coffee were brought from as many different stores. Only three were unadulterated, but all were sold at first-class prices as the genuine article. The adulteration consists principally of an artificial coffee bean, molded by machinery so carefully that it is almost impossible to detect the fraud by the eye. This artificial product has little or no taste or odor and simply makes bulk and weight. One sample of "Rio" bought at 25 cents a pound contained no coffee at all. These investigations show that nine-tenths of the coffee sold by grocers is adulterated.

PHOTOGRAPHS.

ANOTHER TIME FOR ANY LENGTH OF TIME, WHILE WE ARE IN THE PICTURE BUSINESS.

We will continue making our fine Cabinet Photographs as low as \$1.50 per dozen. These pictures are mounted on elegant card enameled on back and face, with picture with a high Polish finish superior in quality to the Aristo Photo I have been taking the last year. However all those wishing the Aristo picture, I will still make them at the same price, \$1.50 per dozen.

The extensive patronage and the many testimonials of the appreciation of our work, we have received the last year, gives us the courage to go on with these low prices, and we propose making Mifflintown headquarters for the finest Photographs for the money that can be obtained anywhere, adding all the time new and costly accessories of the very latest designs giving our trade the benefit of that which would cost \$3.00 in the city, for \$1.50 in Mifflintown. We can make pictures for \$1.00 per dozen such as are made by all traveling photographers, but we prefer giving our patrons a much better picture for very little more money. Thanking our patrons for their liberal patronage we solicit a continuance of the same.

Respectfully,
JOSEPH HESS,
Mifflintown, Pa, March 9, 1893.

Committee Meeting.

The Republican county committee met in the Jacobs House on Saturday afternoon, and fixed Saturday, June 10 as the day for the holding of the Primary Election, and Monday, June 12, as the time for the meeting of the return judges to count the votes polled and announce the result.

On the question of the nomination of a candidate for State Supreme Judge the committee passed the following:
Republicans have with great unanimity presented Hon. John Stewart, President Judge of that county as their choice for the nomination for Justice of the Supreme Court at the ensuing Republican State Convention, which presentation has been unanimously seconded by the Republican county convention of Bedford; the Republican county committee of Juniata in regular meeting assembled, take pleasure in unanimously endorsing Judge Stewart as a candidate for said office, and so far as it can speak for the Republicans of the County, heartily commends his candidacy to the earnest and active support of our delegate to the Republican State Convention, Theodore A. Meminger, in the full confidence and belief that such support will be cordially satisfied and endorsed by the Republicans of Juniata.

Pennsylvania's Wheat Yield.

Pennsylvania does not raise more wheat than her people consume. She has a population of about 5,000,000, which on an average require five bushels of wheat for each person, one year, multiply the 5 million people by five bushels required to bread each one and we have a required wheat yield of 25 million bushels. The state Board of Agriculture puts the wheat acreage this year at 1,300,000, which will require an average of over 19 bushels an acre to produce enough bread for the people of Pennsylvania.

Plenty of Fish.

The fishermen of the Susquehanna are wondering how it is that the shad which are planted in that river by the Government Fish Commission grow up into herring. Below Havre de Grace on last Wednesday 400,000 herring were caught at one haul of the seine, the seine being about three quarters of a mile long. It took all day to land the fish. At another fishing haul 50,000 herring were taken at a single haul. This is like a return to an earlier day when

herring were so plentiful at the head of the Chesapeake that they were spread over the land for fertilizing purposes.—Philadelphia Inquirer.
