Navigators tell us about the rivers, and deo Amazon and the Danube and the Mississippi have been explored, but who can tall the depth or length of the great river of sorrow made up of tears and blood rolling through all lands and all ages, bearing the wreak of families and of communities and of empires -foaming, writhing, boiling with the source les of 6000 years? Etna and Cotoparl and Vesuvius have been desoribed, but who has over skotched the volcano of suffering reach-ing up from its depths the lava and the scoria and pouring them down the sides to whelm ing up from its depths the lava and the scoria and pouring them down the sides to whelm the nations? I heard an echo of my text in a very dark I heard an echo of my text in a very dark hour, when my father lay dying, and the old sountry minister said to him, "Mr. Taimage, how do you feel now as you are about to pass the Jordan of death?" He replied—and it was the last thing he ever said—"I feel well ; I feel very well ; all is well," lifting his hand in a benediction, a speechless benediction, which I pray God may go down through all the generations. It is well of course it was a subnoise making."

Again, this woman of my bext was great in her application to domestic duties. Every pleture is a home pleture, whether she is entertaining an Elisha, or whether she is giv-ing careful attention to her sick boy, or whether she is appealing for the restoration of her property every ploture in her case is a home ploture. I remember when Kossuth was in this ountry there were some ladies who got eputations by presenting him very grace-ally with bouquets of flowers on public oc-asions, but what was all that compared with the work of the plain Hungarian mother who gave to truth and civilization and the cause of universal liberty a Kossuth? Yes, this oman of my text was great in her simplicity. When the prophet wanted to reward her for her hospitality by asking some prefer-ment from the king, what did she say? She leclined it. "I am satisfied with my lot. All I want is my family and my friends around ma. I dwell among my own people." Oh, what a rebuke to the strife for precedence in all ages! A commercial traveler writes to the St. Louis Globe-Democrat: to the strile for precedence in all ages! Now many there are who want to get great architecture and homes furnished with all art, all painting, all statuary, who have not enough taste to distinguish between gothic and byzantine, and who could not tell a blotter in a hotel writing room once saved me from very considerable loss. As a general rale the blotter in a writing room is so dirty and covered up with ink marks that the whole presents and byzantine, and who could not tell a figure in plaster of Paris from Palmer's "White Captive," and would not know a boy's penciling from Bierstalt's "Yosemite"--men who buy large libraries by the square foot, huying these libraries when they have hardly enough education to pick out the day of the almanne! Oh, how many there are striving to have things as well as their neighbors, or the appearance of an Egyptian almainse! Oh, how inary there are striving to have things as well as their neighbors, or better than their neighbors, and in the strug-gle vast fortunes are exhausted and business firms thrown into bankruptcy, and men of reputed honesty rush into astounding for-sectes. Of course I say nothing against redinement or culture. Splendor of abode, sumpteous-ness of diet, larishness in art, neatness in ap-parel—there is nothing against them in the Bible or out of the Hible. God does not want us to prefer much lovel to English cot-tares, or untanned sheepskin to French want us to preter mud novel to English cot-tage, or untanned sheepskin to Franch broadeloth, or husks to pineapple, or the clumsiness of a boor to the manners of a gentleman.
