ermons are occasionaly preached.

The mosque is usually surrounded by a high stone wall, and the entrance gate, as Mr. Pool observes in his "Studies in Mohammedanism," "is sations with any one dear to her, she always on the latch, and there are no locks, bars or bolts. A mosque is meant for the worship of God, and it would be regarded by the Mohammedans as a very sad thing indeed if one of the faithful, rich or poor, were unphle, night or day, to obtain admittatice

Beyond the boundary wall is the courtyard, in the centre of which is a great tank or reservoir, and at the far sgine. nd stands the house of prayer. Certain ablations must be performed at the tank before the house of praver is ntered. It is written in the Koran, 'O true believers, when ye prepare vourselves to pray, rub your heads and ands unto the elbows, and your feet to be up to the ankles." Where no water is to be had, sand or fine dust may be

used as a substitute. struction and the inspiration of the It is in the courtyard that public worship is held in warm weather, and in India this is always common, the ourtyard being regarded as little less sacred than the mosque itself. Moimmedans are very jealous of the inrusion of Christians into their places estional organisations and her return of worship, and only of late years has t been possible for any but the faithul themselves to pass over the threshold of a mosque. Even now their presence is always disliked, and, not nirequently, resented. The shoes must be removed, and felt shippers drawn

A stranger on entering will scarcely fail to notice three or four peculiar and striking features. The first is the extreme plainness of the interior walls. There may be a sentence or two from Mission. She had light brown hair, i he Koran, but no ornament, as such, complexion of the most erquisite pink s permitted. This was a point upon and white, and sh. always wore a pilwhich Mohammed was very strict: no grim dress of silver gray cashmere, pictures, no statues, no representawith mull kerchief, cuffs and aprona tions of any living creatures. The It may have been the glowing roses in stone or marble floor of the morque is her cheeks, the rippling sunlight in usually bare, but sometimes covered her hair, the sympathy in her voice with plain mats. Again it will be noticed that there are no seats; nor, as a rule, is there any description of furniture beyond the pulpit and the reading desk, which contains a copy of the Scriptures. A noticeable feature is the and formed themselves into the first tiche in the wall opposite to the en-This niche ''s an indication traitich. that in that direction lies Meccs, the accred city of the Mohammedans.
