It is the gold bugs who want all bonds payable in gold that are trying to down silver so that their gold bonds may be all the more valuable. It is they who have given silver a bad name. A writer on gypsies says: Gypsies have no religion, and some of them have such an aversion to churches that they never pass by one without a muttered curse. In European countries they never suffer themselves to be buried in a church-yard, but whenever allowed they bury their dead in out-of-the-way places. This antipathy to churches and religious forms is supposed by some persons to have originated from their persecution by the priesthood in the middle ages, but whatever its origin, it is a fixed fact.

Mrs. Jacob Will planted a piece of ground, 11 by 14 feet in circumference, the past summer and as the season passed along she kept cutting the cucumbers taken from the patch. The last of the cucumbers were picked a few days ago, and when compared with the previous number aggregated 950. That was great cucumber farming and it will prove a difficult thing to equal. The ground was kept watered during the dry part of the summer. If 950 cucumbers can be raised in a piece of ground, 11 feet wide by 14 feet long how many can be raised on an acre of ground.

"Mattie Sides, a Columbia County girl, finished washing dishes in very hot water, and to arrange something thrust her right arm into the job. The cool atmosphere suddenly paralyzed her arm which fell helplessly to her side and in a few minutes her hand became cramped and the arm swelled to twice its normal size. The paralysis then passed from the arm into the neck and face, producing something similar to lock-jaw, from which she suffered excruciating pains. A physician was summoned, but remedies were of no avail. Finally hot irons were applied and gave relief."

Newport News.—The barn on the farm of Wm. Bothwell, in Penn Twp., was destroyed by fire early Wednesday morning of last week. Every thing was burned, including all this year's crop, excepting one wagon and the live stock, belonging to Abram Kreiger, the tenant. A new addition to the barn had just been completed the day before the fire. There is a small amount of insurance. The fire is thought to have been of incendiary origin. \* \* \* Yesterday noon two young men attempted to jump aboard a freight train a short distance above Newport station, when one of them slipped and fell beneath the wheels. Both legs were crushed, the left one at the knee and the right one between the knee and ankle. He was brought to the station and Drs. Orris and Eby decided that amputation of both legs would be necessary. They had accomplished the taking off of the left leg at the thigh, and they deferred the other, and only waited until he died, which was about three o'clock. From papers on his person it was learned that his name was Gottlob Graver. A letter written in German was addressed to Miss Barbara Kaufman, Eibingen Balingen, Wurtemberg, Germany. The letter was dated Philadelphia, and his address in that city was 3243 Salmon street, Port Richmond. Other papers were also written in German, and indicated that the deceased was religiously inclined. There was a tuft of lady's hair among his effects, and a photograph of a young man, which was taken by C. Oswald, Ludwigsburg, Bucknang, Germany. A slip of paper also bore the address of

Miss Dora Fisher, N. W. Cor. Bellmont Av. and Conshohocken street, West Philadelphia. The deceased was pretty well dressed, and is believed to have been a morocco leather finisher. The remains were taken care of by Post Director John Froelich, who ordered W. H. Hopple to bury them.
