Don't call a murderer a crank. Call him just what he is—a murderer. Justice is half disarmed in court when the criminal is made to appear to be a crank, for the general understanding of the word crank is a person of unsound mind on some one or a half dozen subjects, and to create the impression in the mind of a jury that a prisoner in court is a crank, goes a great way in the direction of securing a verdict of acquittal, for cranks are not considered responsible for what they say or do as are people of sound well-balanced minds.

The Cleveland administration has learned nothing by the late defeat. It is determined to reduce the tariff, which will require other things to be taxed to make up for the loss of revenue on a reduced tariff. There will be nothing left of the democracy in the northern States if the Cleveland administration keeps on with the work it has mapped out.

Corn banking is about over, and all other out door work done on the farm is about closed, which gives the farmers four to five months of comparative leisure to attend stock at their farms, sit behind the stove with an occasional day at hauling, and wood cutting, and many days for driving to town and other things. Taking the year through farmers have a good time. There is only one thing about the life of a farmer that is waiting to make it the choice life of the world, and that is the work is not suitable to the wearing of nice clothes, while a work. The eyes of the people have been cultivated to be so excited and lulled as to fine clothes that they make people unhappy unless they can be dressed while at work. People throw away many comforts to gratify the lust of the eye.

Let me say to the young people of this vicinity, who have lately started out in the Christian work, that I believe that we are too easily discouraged.

I know that non-professors point the finger of scorn at us. I know that they try to snub us under with their folly. If we lead prayer-meeting on time; if we talk to any sinner about his soul's salvation, or about his father's spiritual welfare, they will "oh!" that fellow doesn't amount to anything. And it crushes our thoughts out of existence. Let us stand up and be men and women. Let us do what is right, be it ever so humble. Let us remember this thought: "Two things observe with care. Of whom you speak. To whom you speak. And how and when and where."—Miles.
