Subject: "The Bread Question."

TEXT: "Ye have the poor always will ou."--Matthew xxvi., 11.

Who said that? The Christ who nev Who said that? The Christ who never owned anything during His earthly star, His eradle and His grave were borrowed. Every fig He ate was from some one else's tree. Every drop of water He drank was from some one else's well. To pay His personal tax, which was very small, only 31% cents, He had to perform a miracle and make a fish pay it. All the heights and depths and lenghts and broadths of poverty Christ meas-ured in His earthly experience, and when He comes to speak of destinution He always speaks sympathetically, and what He said then is as true now—"Ye have the poor al-ways with you." ways with you.

For 6000 years the bread question has been For 6000 years the bread question has been the netive and absorbing question. Witness the people trowding up to Joseph's store-house in E syst. Witness the famine in Sa-maria and Jerusalem. Witness the 7000 hun-gry people for whom Christ multipiled the loaves. Witness the uncounted millions of people now living, who, I believe, have never yet had one full meal of healthful and nutritious food in all their lives. Think of the 354 great famines in England. Think of the 25,000,000 people under the hoof of hunger year before last in Russia. The fail-ure of the Nile to overflow for saven years nutritions food in all their lives. Think of the 35,000,000 people under the hoof of hunger year before last in Bussia. The fall-ure of the Nile to overflow for soven years in the eleventh contury left those regions depopulated. Plague of insents in Eagland. Plague of rats in Mafras Presidency. Plague of mise in Easex. Plague of locats in China. Plague of crassino Mafras Presidency. Plague of mise in Easex. Plague of locats in China. Plague of grasshoppers in America. Devastation wrought by drought, by deluge, by frost, by war, by hurridane, by earthquake, by comets flying too near the earth, by change in the management of National finances, by balaful causes innumerable. I proceed to give you three or four reasons why my text is markedly and graphically true in this your 1994.

The first reason we have always the poor with us is because of the perpetual overhaul-ing of the tariff question, or, as I shall call it, the tariffic controversy. There is a need for such a word, and so I take the responsi-bility of manufacturing it. There are millions of people who are expecting that the present Congress of the United States will do something one way or the other to end this disssion, but it will never end. When was five years of age, I remem-r hearing my father and his neighburs in vehement discussion of this very question. It was high tariff or low tariff or no tariff at all. When your great-grandchild ties at ninety years of age, it will probably he from over-exertion in discussing the tariff. On the day the world is destroyed, there will be three men standing on the post-office steps-one a high tariff man, another a low tariff man, and the other a free trade man—each one red in the face from excited argument on this sub-ext. Other questions may get quieted, the Mormon question, the silver question, the pension question, the civil service question, All questions of annexation may come to peaceful settlement by the annexation of islinds two weeks' voyage away and the heat of their volcances conveyed through pip's under the sea made useful in warming our continent, or annexation of the moon, de-throning the queen of night, who is said to be dissolute, and bringing the lunar populations under the influence of our free institu-tions ; yea, all other questions, National and International, may be settled, but this traffic puestion never. It will not only never be ettled, but it can never be moderately quiet or more than three years at a time, each party getting into power taking one of the

boty and y getting into power taking one of the party getting into power taking one of the lour years to fix it up, and then the next party will fix it down. Our finances cannot get well because of too many dostors. It is with side Nations as with side individuals. Here is a man terribly disordered as to his body. A doctor is called in, and he admin-baters a febrifuge, a spoonful every hour. But recovery is postponed, and the anxiet. Temes ber a lact that no one emphasizes-fact, pevertheless, upon which I want to fact, pevertheless, upon which I want to that the weight of an oternily of tonnage-that the best way of insuring yourself and rour children and your grandshildren usinst poverty and all other troubles is by islping others. I am an agent of the eldest nsurance company that was ever established. It is nearly 3800 years old. If has the ad-santage of all the other plans of insur-ince-whole life polley, endowment, ont life and survivorship polleies, seending and descending scales of pre-nium and tontine-and it pays up while you give to a bareloot, every silek of yood or hump of coal you give to a freless word or hump of medicine you give to a hor invalid, every star of hope you make to while over unfortunate maternity, every while you give to a barelos But you know and I know many who have But yon know and I know many who have competent incomes, and could provide some-what for the future, who live up to every idollar, and when they die their chil-dren go to the posthcuss or on the street. By the time the wife gets the husband buried, she is in dobt to the under-taker and gravedigger for that which she can never pay. While the man lived he had his wine parties and fairly stunk with tobacco, and then expired, leaving his family upon the charities of the world. Do not send for me to come and conduct the obsequies and read over such a carcass the beautiful lingy. "Blessel are the dead who die in the Lord," for, instead of that, I will turn over the leaves of the Bible to I Timothy v., 18, where it says: "If any pro-vide not for his own, and especially for phose of his own house, he hath denied the

Timothy v., 19, where it says: "If any pro-vide not for his own, and especially for hose of his own house, he hafh denied the faith, and is worse than an infidel," or I will turn to Jeremiah xxii., 19, where it says, "He shall be burled with the burial of an nas, drawn and cast forth beyond the gates of Jerusalem." I cannot imagine any more unfair or meaner thing than for a man to get his sins pardoned at the last minute, and then go to heaven, and live in a mansion, and go riding shout in a golden charico over the golden streets, while his wife and children, whom he might have provided for, are begging for cold vietuals at the basement door of an earthy city. It seems to me there ought to be a poorhouse somewhere on the outskitts of heaven, where those guilty of such fur-providence should be keep for arkinde on this soup and gristic instead of sitting down at the King's banquet. It is said that the church is a divine institution, and I beleve it. Just As out of erd good often comes so out of the doctrine of probabilities, calculated by Profes for Hughes and Pro essor Pascal for games of chance, came the calculated by Profes for Hughes and Pro essor Pascal for games of the or Hughes and Pro essor Pascal for games of the or Hughes and Pro essor Pascal for games of chance, came the calculations of the profile of hughement and will be handed you billities of human ilfe as used by life insursommodated. That will be given you in the iny of judgment and will be handed you by the right hand, the pierced hand of our bord Himself, and all you do in the right pirit for the poor is payment on the pre-num of that like insurance policy. I read rou a paragraph of that policy : "Then shall he King any unto them on His right hand, Come, ye blessed of My Father, for I was ungered, an' ye gave Me meat ; I was stranger, and ye gave Me drink ; I was a stranger, and ye took Me in ; naked and ye clothed Me." billies of human life as used by life insur-ance companies, and no business on earth is more stable or honorable, and no mightier mercy for the human race has been born since Christ was born. Bored beyond endurance for my signature to papers of all sorts, there is one style of paper that I always sign with a feeling of gladness and triumph, and that is a paper which the life insurance company requires from the dergyman after a decease in his concretention. In order to the payment

requires from the dergyman after a decass in his congregation, in order to the payment of the policy to the bereft household. I al-ways write my name then so they can read it. I cannot help but say to miyself "Good for that man to have looked after his wife and children after earthly departure. May he have one of the best seats in heaven!" Young man! The day before or the day after you get married In various colors of ink other life insur-In various colors of the other the insur-unce policies are written. This one I have ust shown you is written in only one kind of ink, and that red ink, the blood of the ross. Blessed be God, that is a paid up anliev, naid for by the pangs of the Son of solicy, prid for by the panes of the Son of lol, and all we add to it in the way of our own good deeds will augment the sum of ternal felicities. In the list great earthquake lise cites will be prostrated, and as a unsequence all banks will forever suspend ifference between a queen and a pauper. I have known men who have had an in exument. In the last conflagration the fire neurance companies of the earth will fail, for how could they make appraisement of the loss on a universal fire? Then all the inhabitants of the round world will surrender their mortal existence, and how could life insurance companies by for depopulated hemispheres? But our coloridal life insurance will not be earmed by that continental wreak, or that hemispheric accident, or that planetary estastrophe. Blow it out like a candle -the moonday sun! Tear it form the wornout unboostery -the last suncomment. In the last conflagration the fire orne of \$3000, \$4000, \$5000 a year, who did of leave one farthing to the survivin not leave one farthing to the survivir nousehold. Now, that man's death is a d ileation, an outrage, a swindle. He did not the he absconded. There are 100,000 people n America to-day a-bungered through the n of improvidence. "But," say some, "are tome is so small I cannot afford to pay the raintum on a life insurance." Are you sur-sont that? If you are sure, then you hav right to depend on the promision Jeremia x. 11, "Leave thy fatherless children, J will preserve them alive, and let tuy willow rust in Me."
