

REPUBLICAN TICKET.
STATE
Congressman at Large.
Hon. GALUSHA A. GROW.

HON. GALUSHA A. GROW.

FALL IN, fall in good people into line, and vote for Grow for Congressman at Large.

The American System of Tariff should be so high, that all internal taxes could be abolished.

The three living Governors of Ohio, who are such poor managers that they cannot pay their debts are Ex-Governor Campbell, ex-Governor Foster, and the present Governor, Wm. McKinley.

The Democrats in Congress were so elated over the passage of the Wilson tariff bill in the Lower House last week that a number of the unscrupulous placed Wilson on their shoulders and carried him around the House. Wilson is a small man in size being 5 feet high and weighs about 100 pounds.

The sensation last week in government circles, among nations, was the brave act of Rear Admiral A. E. K. Bannan, commander of the five American war ships in the harbor of Rio De Janeiro, Brazil, to clear the decks for battle, in case Da Gama, the commander of the Brazilian rebel fleet in that harbor should continue to fire blank shots, at American merchant ships that wanted to unload their goods on the wharf in the harbor. The American war ship De Troit was ordered to fire a musket shot, which she did, into the stern post of the rebel war ship Guanabara and that was enough. The American merchant ships were permitted to go to the wharf and unload. The rebellion in Brazil has been going on five months. It looks as if the British favor the rebels.

The Democracy used to roundly abuse the bloated bondholder, though they well knew that the bonds of the government were issued to get money with which to pay for putting down the slaveholders rebellion that was run by the leaders of the Democracy. The Republican administrations began to pay that debt, and kept paying every year as long as they were in power. But now, the Democratic Cleveland party are in power, and instead of paying off the debt, they have so wrecked the business of the country that they cannot raise money enough to meet the expenses of the Government, and are compelled to sell bonds to get money enough to run the Government. They are not talking about bloated bondholders now. The democracy are the first cause of the issue of the bonds they denounced, and they are the cause of the issue of the proposed new issue.

The political earthquake has begun to rumble in New York City in the stronghold of Democracy where last week a Republican Congressman was elected in the 14th Congressional District. It is the beginning of the end of the Democracy party for the people will not support men who are pledged to carry out a tariff policy that destroys the business of the country for the benefit of men whose business is to import goods from foreign countries. The 14th Congressional District is located entirely in New York City. In 1892 the Democrats in the district elected their member to Congress by 8,225 majority. The election on Tuesday the 30th of January was a fill vacancy. A Republican was elected by one thousand majority which is a loss of two thousand votes in the District since 1892. But Cleveland and his leaders were not profited by that election for two days later, on the 1st of February, the Democratic Lower House of Congress passed the Wilson low tariff bill, which will depress business a great deal more. Vote for Grow for Congressman at Large.

The South Runs the Democracy. The Southern whip was cracked in the Lower House of Congress on the 1st inst., so vigorously that the Wilson business-wrecking tariff bill passed on a vote of 204 for the bill, and 140 against the bill. The northern Democrats in Congress now are as big to day as were the Democrats before the war. Look at the situation. Carlisle from rebellion at the head of the finances of the country. Chap

from rebellion, the speaker of the Lower House of Congress. Wilson from rebellion, from beyond the Mason and Dixon line, the leader on the floor of the Lower House. That try constitutes the leadership of the sentiment and business views of the men who failed in armed rebellion in the interests of slavery. A low tariff that will keep down all manufacturing establishments and give the markets of the country over to foreigners was the twin-brother of slavery: Unfortunately the low tariff sentiment was not destroyed with slavery. It lives to-day to plague and paralyze the business of the Northern States under the inspiration and leadership of the old rebel element that graciously was allowed to live in peace after they had done all in their power to destroy the Republic.

Court Proceedings.

Court convened on Monday. Great interest was attached to it from the beginning on account of the Carpenter murder case. All other commonwealth cases were first disposed of before the murder case was taken up.

The first case was the Commonwealth vs. Philip Rank, for threats, Plead guilty, and in default of three hundred dollars bail was sent to the county jail.

Com. vs. Harry Pannabecker, who pleaded guilty to the stealing of a cow. Sentenced to pay a fine of one dollar, costs of prosecution, and to undergo and imprisonment of 30 days in the county jail.

Com. vs. Harry Deim, stealing an overcoat and lap robe, plead guilty. Sentenced to a reformatory.

Com. vs. Cloyd Bender, stealing an overcoat and receiving stolen goods. Verdict not guilty.

Com. vs. Bruce Donaldson, charge with wantonly pointing a gun at Josh Buchanan a school teacher, and for carrying concealed weapons. Verdict guilty as to the pointing of the gun.

Com. vs. E. L. Skirk, of Millin county, charged with the forgery of promissory note on Andrew and Banks Bender, and obtaining the money on the note from the First National Bank. Verdict guilty.

The case of the Com. vs. James B. Carpenter and his mother for the murder of his father in Port Royal, in December 1893, was called on Tuesday afternoon in the presence of a room full of eager spectators.

The prisoners were brought in by sheriff Lapp and his deputy A. B. Evans. Mrs. Carpenter the wife of the murdered man was dressed in mourning, and her son was neatly clad in a business suit and nicely laundered shirt and cuffs.

Quiet was scarcely more than restored when the defense moved to quash the array of jurors on the ground that the jurors for this Court had been drawn from the jury wheel that had not been filled in accordance with the provisions of the law. It was contended that by a special act passed in 1865, that two Jury Commissioners elected by the people shall fill the jury wheel, and draw the names for jurors to try cases in court. For this reason the jury had not been filled in that way. The President Judge and one of the Jury Commissioners filed the jury wheel.

The reason the President Judge assisted in the filling of the jury wheel was because one of the Jury Commissioners could not get to the duty of assisting at the wheel on account of the death of his wife.

The Commonwealth contended that the President Judge had the right to assist in the filling of the jury wheel when a vacancy was caused as in this case under the provisions of a general act of 1867.

Court adjourned at 5 in the evening, when the defense contended that the general act of 1867, did not repeal the special act of 1865, and therefore is not applicable in this case.

The Commonwealth contended that the later act of law repeals the former law when the laws are inconsistent and cannot be construed together. Cases were cited on both sides.

Without ruling on the point Court adjourned till Wednesday morning.

On Wednesday morning when court convened, Judge Lyons, tersely and clearly reviewed the scope of the special act of 1865, under which the motion to quash the array of jurors had been made, and rendered the opinion that the act of 1867, repealed the special act. The general act is for all this Commonwealth, except Philadelphia. In the enactment of the general law the intention of the Legislature was to provide and establish a uniform law for the Commonwealth and that carried the repeal of the former special act. The motion of the defense was overruled. As we go to press the jury is being drawn.

On the Wing.

The last two weeks have been spent west of the Alleghenies. This sentence reminds me of a Book, I once read, the title being "Beyond the Alleghenies." If I could present as interesting sketch as that writer did, our callings were different. To be a missionary, whilst I happened to be an itinerant fertilizer Agent. The former held out the Bread of Life whilst my business is to furnish that which will produce the bread which sustains the natural or temporal life. I have been drawing on my observations now for several years, and I find the scraps getting scarce. It reminds me of the great house wives who will have a place for the scraps of cloth, and all such materials, when something of the kind is needed this indispensable resource is brought out, and culled, and the time comes when it is pretty well culled, and she fails to find what she wants. No I am afraid this will be my fix in attempting to write this article. But perhaps I may strike something before I am through that may do to fill out with. Well you would suppose every boy would be talking tariff the last two weeks; but it isn't the case. You don't hear much said about it. Preferring to leave that to the fellows in Congress, many of whom are loaded to the muzzle, and would die if they did not have an opportunity to let it off. A good deal like the safety valve on an engine you know. If there is no escape then follows an explosion. Do you know Mr. Editor that a large percentage of the people who don't take as much stock in this Tariff business as they formerly did. They look upon it as being a kind of a subterfuge, and campaign ammunition. The present campaign has brought men and women to view these things from a common sense standpoint. You know the general thing is that the women don't think much on subjects of this kind, but it is a mistake; for they do. Take if you please, the wife of the laboring class, especially the American class. The husband and father has no work; the saving, if any, are exhausted; the coal bin is running low, the garments of the little ones have perhaps been mended, until she can't see where her handiwork can do anything more. The last loaf has been eaten and what stares them in the face. Do you suppose these people don't think, don't endeavor to view the situation, if not from a common sense at least from an humble one. The principles we want to teach our American citizens both of birth and adoption, are those founded upon reason and such as will have a tendency to elevate them and make them better men and women morally and intellectually. When we do this we will elevate American citizenship, broaden the intellect and sympathies, and elevate and purify the morals. This country never needed good men and pure and intelligent women worse than it does to-day, as I will clearly show as this article progresses. There are to-day thousands of unemployed laborers in towns and cities, around manufacturing and mines. There is distress and want. The largest percentage of these are of foreign birth. Plainly when they have employment and the necessities of life, they are orderly and industrious. But when there comes a time like the

present, when want is seen and felt. What was once law abiding citizens becomes a wild, erratic mob. The uncultured and uneducated mind and nature yields to the pressure, and we have not man created in the image of the Creator, but even one who seems to be less human than the domestic animals. This has been plainly demonstrated at and around Mansfield, Allegheny county where there are numerous coal mines. Among the miners were a lot of Foreigners, (contract labor you know) They struck for more wages. The English speaking miners, kept at work. But the foreigners came to want; the wolf did not only stand at the door, but crossed the threshold. Then the want which was begotten of themselves seemed to kindle the coals of anarchy which lay hidden, and unseen; the torch was applied to the operators' works, the lives of the owners were threatened and the howling mob declares that nothing short of their blood would appease their wrath or satisfy their selfish designs. The owners defended their property, and Winchester accomplished what reason failed to do. The sheriff of that county was called upon, and he and his deputies proceeded to be made of the right kind of stuff. In their search they did they find? Just what the citizens of that county feared; a den of anarchists of the worst sort. In an underground apartment they found their headquarters. Anarchist literature, pictures of Herx and the Hay Market Rioters of Chicago, arms and ammunition. One of them presented a charter granted to the courts of Allegheny county, entitled: "The spirit of the new times society." Thus you see the deep scheme to deceive the courts of justice, to obtain a charter, to enable them to carry on their nefarious work, defy the civil and moral law. Some of them paid the penalty of their folly with their lives, but it seems that stiff justice is the only sure remedy. The good and Christian law abiding citizens of our country, I know are not aware that the socialists and anarchists are increasing, and the worst feature is that they are becoming American citizens, and have conferred upon them all the rights and privileges of the true American citizen. But enough of this. I have found another scrap in my basket. How do you think many of our great men were born, lived, and died in a log cabin. One day last week I was at Parnassus on the Allegheny river in Westmoreland county. I learned there that ex-Governor Ritter was born, and raised about three miles from that town. The old log house is still standing, and has no name. It is the honored birth place of a Governor of so great a State as Pennsylvania. Thus Snyder County honors her Snyder, Lancaster her Stephens, York her Bask, Bradford her Cessna; Center her Curtin; Perry her Beaver, and we hope the time will come when Juniata can not only honor its great log house, but also honor the birth place of a Governor of so great a State as Pennsylvania. Truly, D. B. McWilliams, Apolis, February 1st.

Today Hood's Sarsaparilla stands at the head of the medicine world, admired in prosperity and envied in adversity by thousands of would be competitors. It has a larger sale than any other medicine before the American public, and probably greater than that of any other purgative and blood purifier combined.

Harriet E. Hall of Waynetown, Ind., says: "I owe my life to the great South American Nerve. I had been in bed for five months from the effects of an exhausted Stomach, Indigestion, Nervous Prostration and a general straggling condition of my whole system. Had given up all hopes of getting well. Had tried three doctors with no relief. The first bottle of the Nerve Tonic improved me so much that I was able to walk about and a few bottles cured me entirely. I believe it is the best medicine in the world, cannot be recommended too highly." Sold by L. Banks & Co., Druggist, Millintown, Pa. Feb. 9 '93. ly.

Positive and Negative.

The Race Question is unsettled; it is settled that Hood's Sarsaparilla leads all remedies.

Disease marches through all lands. But good health blesses all who take Hood's Sarsaparilla.

Dyspepsia is a great foe of the human race. But Hood's Sarsaparilla puts it to flight.

Scrofula is one of the most terrible of diseases. But Hood's Sarsaparilla expels it from the system.

The people of this day, like Job, suffer from boils. But Hood's Sarsaparilla is a sovereign remedy for them.

Catarh is one of the most distressing diseases. But Hood's Sarsaparilla is sure to relieve and cure it.

Rheumatism racks the system like a thumb screw. But it retreats before the power of Hood's Sarsaparilla.

Loss of appetite leads to melancholia. But Hood's Sarsaparilla makes the plainest repast tickle the palate.

Life is short and time is fleeting. But Hood's Sarsaparilla will bless humanity as the ages roll on.

Popular Everywhere.

Beginning with a small local sale in a retail drug store, the business of Hood's Sarsaparilla has steadily increased until there is scarcely a village or hamlet in the United States where it is unknown.

The best and only Double Extract Sarsaparilla is MANNERS. Hooves. Take no other. 50 cents.
