SENTINEL & REPUBLICAN

MIFFLINTOWN.

WEDNESDAY, MARCH 7, 1894.

B. F. SCHWEIER,
EDITOR AND PROPRIETOR.

REED's friends have started to boom him as a candidate for the Presidency.

GROW's majority is 188,000 in this state, next fall the republican majority will be 200,000.

Eugene Pendergast, the assassin of Mayor Carter Harrison, of Chicago, will be hung on Friday, March 23rd.

THIS is a mechanical age, in which machines are made to do almost all kinds of work excepting, thinking, eating and drinking.

A National Question.

If left to the vote of the people, silver would be given the right of free coinage in the United States mints, just as gold has the right of free coinage in the mints. It is only a question of time when silver will be restored to its former position as money. While the legislation of gold bond speculators and investors, may for a time discount it; the necessities of coming days will again bring it forward to its true position as a medium of exchange, therefor, the blustering threat of the people of the silver mining states in the west, that they will organize a secession movement, and with Mexico organize a new government is the wildest folly. It would be a good thing if the next republican and democratic national nominating conventions would submit the question of the coinage of silver to a vote of the people. It is a National question.

GREEN GOODS.

Green goods dealers are sending by mail, an article that claims to have been cut from a newspaper stating that they have a lot of money that was printed from plates stolen from the United States Treasury, and that a green goods man who was selling that kind of money was caught by a detective with one hundred thousand dollars of the money on his person, and that he was sued for counterfeiting, but that they failed to prove the money counterfeit money and that he was acquitted. The object of the article is to induce people to send to the green goods men for some of their green back money. The article that they claim to have clipped from a newspaper, doubtless never appeared in a newspaper, but was set up in some job office and was printed for them at so much a thousand.

Accompanying the so called newspaper article is a circular explaining how to get the money that they have to sell

People who bite at the bait, the green goods men **set** for them lose their money they go to New York with, and find that they have traded their money for saw dust, or packages of blank paper. The green goods men cheat their victims when they have their eyes wide open by sleight of hand performance.

The following circular is the explanatory bait with which they expect to catch the money of the people with whom they communicate.

My Dear Friend :—

I am desirous of obtaining a shrewd "Agent" in your locality to handle my goods, enclosed you will find a newspaper clipping which gives all the information desired and explains itself. Thinking you are in a position to safely handle my "goods" I concluded to write you. If you conclude to embrace this Golden opportunity, and my business suits you, it will be absolutely necessary for you to come on here and see me in person, I only deal face to face with my customers. Experience has taught me that this is the safest and most satisfactory way for both. When you meet me you see what you are buying, and I see who I am dealing with, consequently we both feel better satisfied I do not ask or expect one cent until you have examined my entire stock, select what you want and the goods are in your possession. You must carry the "goods" away with you, and if you desire I will see you safely out of the city. There are people around you possibly in your own town who have suddenly become rich without any apparent cause for their sudden prosperity and still no one would imagine that they might have engaged in a similar business to the one I am speaking of to you at present.

My prices are as follows, $350 buys 4000 of my goods $500, buys 7500, $650, buys 13,500 and $1000 buys 28,000. The sizes are $1, $2, $5 $10, and $20. If you invest $650 or more I will agree to give you the exclusive State Right.

Now if you wish to do business with me you must obey the following instructions, never as long as you live write me a letter without my permission, as I will refuse to receive it. If you intend to handle my goods send me a telegram worded and numbered as below, do not sign your name to your telegram as it is not necessary, just sign your password and number. Send the following telegram by the Western Union Telegraph Company.

F. EDWARDS,
178 East 77 Street,
New York City, N. Y.

Send me Fowler's Catalogue Number 279.

P. S. If you cannot raise the required amount necessary to buy my smallest amount ($350,) send me a telegram saying: "What is market prices," and sign your password and number as above.

Yours confidentially,
F. EDWARDS.

ADDRESS

By M. R. BASHOR.

At the Farmers Institute, McAlisville, Feb 14th, 1894.

Subject, Upon the training of the youth, depends the prosperity of "Home Church, and Nation

Mr. President, Ladies and gentlemen: This subject, may be considered by some, a peculiar one, for a farmers Institute. But every intelligent farmer, will admit that no matter what your occupation or profession in life may be. If you can reasonably expect to succeed, you must make the necessary preperation, it is so with the training of the youth. How can you expect our youth to fill the important positions of trust, in the Home, in the Church, and in the Nation, without careful, and judicious training. Why so much misery, wretchedness, and woe, in so many Homes, why so much discussion in the Church, and why so much confusion and disatisfaction in National affairs, Is it not due to a lack of proper training in the Home. To get the leading thought of this subject properly before the mind, we must enter into a close examination, and investigate the life work of the Home, we must carefully enter into the lifework of the Church, and into the lifework and management of our National affairs. And, in order that we may have comprehension, and a fully developed understanding of the duties, and responsibilities resting on us Parents, in the training of our youth, we must have a deeper a wider, and a broader view, than a mere superficial one, so that we may be able to impart such knowledge, and to expect such influence upon the mind of our youth, in the Home, in the Church, and in National affairs. That will elevate the standard of usefulness, to maintain a character of true manhood, to aim in the upholdof an unblemished reputation, and with an intelligent and fixed purpose in view, to carry out in their lives, the true principles of virtue, honesty and integrity, so that they may be able, and fully qualified in coming life to fill the important positions of trust, and carry out the true principles of life, which gives to the Home, to the Church, and to the Nation, that peace, that joy, and that happiness, which our Creator designed his people should enjoy. When looking over our past life, we discover that nine-tenths of our disappointments, and mishaps, and misfortunes which crossed our pathway in life, grew out of a violation on our part of the great principles of life laid down before us for the training of the youth, and for the shaping and moulding of their lives, so that love, and peace, and union, and harmony, can be the leading, and ruling, and reigning spirit, in the Home, in the Church, and in the Nation. When we look at this great and glorious government of ours, and consider the favorable conditions we as a people are placed under, and the religious liberties we as a nation are allowed to enjoy, do we consider or realize that it is not a mere accident, that civilization progress in the arts and sciences, intelligences and culture, are found in their fullest development, only in such christian lands, like the one we are living in. Why then is the condition of so many Homes, so unhappy, so unpleasant, so unsettled, and so unattractive. Do we not invariably find that their origin grew out of a lack of judicious training in the Home. We cannot accomplish any great and arduous work, without a sacrifice on our part. Our physical powers must be brought into action: our mental, or intellectual powers must be exercised, because it is our intellectual faculties when fully developed, which control in a large degree the actions of the body. When we enter upon any business enterprize, our success depends largely on our judgment or understanding, and on our management. It is so, in the training of our youth to be successful in coming life, in the fulfillment, and discharge of their duties and obligations, in the Home, in the Church and in the nation. We as parents must implant certain fixed, and correct principles in their youthful and tender minds, which will be strong for fortifications, against the vices, and temptations, which will face them, in consequence of a lack of proper training on the part of careless and indifferent parents. Let me advance this thought, that where our lot in life, is a pleasant one, a happy one, and a joyful one. That some one else has made a sacrifice. it is so in the Home, it is so in the Church, it is so in the Nation.

Where the Children enjoy in the home, the pleasures of home, the comforts of home, the atractions of home, and the joys of home. There, there was a sacrifice on the part of the parents, and too often the great or sacrifice on the part of the mother, why, was it because it was her duty to do so, or was it because she was the stronger of the two, no, but because she feels the great responsibilities, the future welfare of their being is pressing on her mind. It is that which causes the color of her auburn hair to turn white, it is that which plows the furrows on her cheeks, and forehead, deeper and deeper, now, if such sacrifices must be made by the mothers, for the betterment of the world, in the Home, in the Church, and in the nation. What are the responsibilities resting upon us as fathers, what sacrifices are we making, what kind of an example are we showing in the Home, what kind of influence are we exerting in the promulgation of the truth in the Church. what are we doing in the training of our youth, to elevate true manhood for the qualification, and discharge of important positions of in the Nation.

Because of a violation, of the great principles of life on the part of our statesmen, for a proper regard and respect for the interests of our country, and the benefits of her people, which is the result of the unsettled condition of our monetary system, the closing up of banks, the shrinkage in real estate, and farm products, the shutting down of manufacturing establishments, throwing out of employment, thousands of honest, industrious, men and women who have no other source of income to support their families, bringing into their homes, misery and want, encouraging vice, in consequence of hunger, destitution, and starvation. Why have the masses fallen victims to the few, why this shrinkage in in currency, why this unsettled condition of our national affairs, Why this depression among farmers, and why financial revolutions in business circles generally, are questions, which we as parents should be able to solve, and understand. So we can intelligently teach them to our youth. It is our duty as parents to study the real problems of life, so that we may be able to take a proper view, from a moral, or social standpoint, as to a proper culture of our youth, in the Home, and from a sacred or religious standpoint, as to the welfare and prosperity of the Church, and from a national and international standpoint, as to the blessed privileges this grand and glorious government holds out to her people as a nation. The great problem is solved, and the great question is settled, when we are in possession of our mental, and physical powers, to exercise them properly which will bring comfort to the Home, joy and consolation to the Church, and peach, union, and harmony to the Nation. Because it is the violation of the great principal of life, which brings sorrow and discord to the Home. It is the violation of the great principles of life, which causes disloyalty in our statesmen, which all have their origin in the training of our youth.

LETTER FROM HARRISBURG.

March 3rd, 1894.

On account of inclement weather business at the capitol city has been somewhat dull the past week. Local market were rather dull in beginning of week.

There has been more activity in the iron and steel markets, all the departments at Steelton are running at fair time.

The bridge and construction departments have orders ahead for three months.

Building has been somewhat dull, no permits having been issued in February, however the spring trade promises better results.

General reduction in wages has taken effect on the Penn. R. road, and at the Chesapeake Nail Works

Steam and electric railroad promises big for the coming spring and summer.

Last week the Benevolent Society provided for one hundred families, a felling off almost two hundred families in the last two months, among this one hundred are a number of men who refused to work at the quarries when it is offered them

The state convention of The Peoples Party will be held in this city on the 1st of May.

The Central Pennsylvania M. E Conference will meet in the Fifth street M. E. Church on March 15th.

The mortuary report of this city for February shows 52 deaths and 88 births.

Business at the state treasury for the first five days of last week show the receipts to be $270,328 86, and the expenditures $101,942.73.

Hon. L E. Atkinson, of Mifflintown, and Prof. Alexander, Surveyor General of the Hawaiian islands were visitors to Harrisburg the past week.

Fred Miller, with his dog, Gus, tarried in the capitol city several days last week. This is the pedestrian who walked from San Francisco to New York for the Police Gazette purse of $2,000, he is now on his way from New York to New Orleans, and return, to arrive in New York before November 10th, for a purse of $800.

Gov. Pattison, Boss Harrity, Attorney General Hensel, Adjutant General Greenland, Thomas Bradley, James Beck, Col. R. H. Wilbur, and J. H. Cochran, are off to Florida, for a two weeks stay.

Revenue collector R. E. Shearer, has appointed J. B. McConkey, of this city, deputy collector, with headquarters in this city at a salery of $1,200 a year, and J. P. Donohoy, of this city to be storekeeper and gauger at $4 a day.

State Treasure elect, Jackson has appointed Benjamin J. Haywood, of Mercer, cashier, of the State treasury. No other changes have been made.

The affairs of the State world's fair commission were closed on Tuesday of last week. After paying all bills there is a surplus of $1655, $1500 of this goes to General Greenland to assist in defraying expenses of the military disolay on Pennsylvania Day. The remaining $165, has been turned over to the state treasury.

The report of Colonel W. H. Grier, superintendent of public printing and binding, for the year ending July 1. 1893, shows an expenditure $352,144 56.

It is likely there will be some trouble in certain school districts on account of the failure to comply with the law regarding the study of physiology in the public schools. School boards should make a note of this or they may find the state appropriation with held from them.

Superintendent of Public Instruction, Schaffer has notified a number of directors of these facts and it would be well for directors to paste this in their hats. It is evident that in some districts they have yet to learn that the proper study of mankind is man

Nine charters with the capital stock of $1,582,000 were issued last week.

Attorney General Hensel has ordered two warrant proceedings to be instituted in a suit brought to oust the Schuylkill county auditors elect from filling their office under complaint that the new controller act dispenses with county auditors. A GOOD HOME INVESTMENT.

The first mortgage bonds of the Mifflintown and Patterson Water Companies, are now offered for sale at the Juniata Valley Bank The amount of the issue is $27,000. Ten (10) bonds are $1,000 each. The rate of interest is five (5) percent. clear of taxes, payable in semi annual coupons. The Mifflintown coupons in February and August, and the Patterson coupons in April and October. The principal is payable in twenty (20) years and redeemable in ten (10) years. The Companies have been in operation Nine (9) months and have an income that is quite sufficient to meet the interest on the bonds and all other charges The stock-holders of the companies are Louis E. Atkinson, president; L. Banks, vice president; R. S. Parker, Secretary; T. V. Irwin, treasurer Jeremiah Lyons, F. M. M. Pennell, Will E. Hoopes and Wm. H Banks, and they purpose to keep safe the interests of patrons, bond-holders and creditors before they take any return for their own investment. Except the Original Court House bonds which bore six (6) per cent. interest. There has never been so good a bond investment offered to investors. Price par and accrued interest.
