You know there is a wide difference between a man's going off to battle and coming back again. When he goes off, it is with cours again. When he goes off, it is with epaulets untangled, with benner unspecied, with houses sleek and shining from the groom. All that there is of struggle and pain is to come yet. So it was with Christ, He had not yet fought a buttle. He was starting out, and though this world did not give Him a warm hearted greeting there was a gentle mother who folded Him in herarms. And a babe finds no difference between a stable and a palace, between courtiers and

As now we often use the word Waterloo to describe a decisive content of any kind, so the words Bograh and Edom in this text are figures of speech descriptive of a scene of great slaughter. Whatever else the prophet may have meant to describe, he most certainly meant to deplet the Lord Jesus Christ saying. It is no move in the closing hours of our life or in some terrible pass of life. Jesus will help us. He has done the work already. He did it 1861 years ago. You might as well talk of Washington as though he were going to achieve our national independence in 1930 as to speak of Christ as though He were going to achieve our salvation in the future—He captain of our salvation fighting unto death for your and my emancipation.

All we have to do is to accept that fact in our hearts, and we are free forthis world, All we have to do is to accept that fact in our hears, and we are free for this world. He arrives in a city over which a great horror is brooding. He goes from couch to couch, feeling of pulse and studying symptoms, and prescribing day after day, night after night, until a fellow physician says, "Doctor, you had better go home and restry you look miserable."

You have noticed that when soldiers come home from the wars they carry on their flags the names of the battlefields where they were distinguished. The Englishman coming back has on his bunner Inkerman and Balaklava, the Frenchman Jena and Eylau the German, Versailles and Sedan. And Christ has on the Lauber He carries as conqueror the names of 10,000 battlefields He won for you and for me. Popular Stones for Jewelry.

Through all changes, when every stone seems to have its day, the diamond stands alone, incomparable. In these days stones are brought into prominence to meet the demand for variety, and such stones as the amethyst, the aquamarine, the chrysoberyl, the golden carnelian and many dom, with dyed garmens of His strength?

When a general is about to go out to the wars, a flag and a sword are publicly oresented to him, and the maladens bring flowers, and the young men load the canaga, and the young men load the canaga, and the train starts amid a huzza risat count of the wheels and the shrike But all this will give no idea of the critement that there must have been in heaven when Christ started out on the campaign of the world's conquest. The tendency of such excessive exertions is to enlargement of the heart. Some men can endure almost anything, but many of the most ambitious and excitable run great risks. The modern form of foot-ball involves excitements of a very dangerous kind; the players put into it the utter recklessness of soldiers on the battle-field. The Boston Medical and Surgical Journal says: "During the season in which the

game of foot-ball is played in England, the record of accidents more or less serious is practically continuous. During the food-ball season of 1891-92 there died through accidents received on the field no fewer than eleven players, while more than seventy others received injuries, most'y in e shape of fractures, which would entail on them weeks of suffering and capacity for work." Whi e it is true that the game of

oot-ball played in American colleges and schools is not nearly so harmful and dangerous as that which is played n England, yet the tendency to vioent exercise is everywhere so great that it ought to be checked. - Youth's Companion.
