ago have been dashed to pieces had not innelous and lowing hands steadily and low-in dy and adjusticy held the rope. But there must come a time when we shall The present talk about the danger of persons being buried alive has led a genius of St. Joseph, Mo., to invent find our who these Dimascence were who incorrect limit in the basicst and greet them is a all nose who have rendered to Go t and and patent what he calls a "grave alarm." In the coffin is placed a small

world unrecognized and unrecorded That is going to be one of though I in outs of heaven-the hunting up and ing out of those who did great good on is and got no credit for it. Here the ance that is placed in clocks. The alarm is fastened to the lid of the to has been going on nineteen con-t, and this is probably the first sermon coffin. A strap is attached to it and to the hand of the corpse, so that the r recognizing the services of the r result of R. How If R had been dished in the norther life had been dished at would have become of the Christen, "Give my love to SR Paul when you meet him, " When you and I meet him, as we will, I shall as him slightest movement will set the alar a in motion. A wire attached to the alarm runs up through the grave, up a pole and to the house of the sexton, where a battery and bell are attached. A slight movement in the coffin will

start the alarm and ring the bell in the s story of resurrection would im so more deviced as in total mass more deviced trianghast Dubper, in the Mediterraneus inder flassifiation and at his be-it was an awful time, but by the blessing of Gel an awful time, but by the blessing of Gel an awful time, but by the blessing of Gel an awful time, but by the blessing of Gel an awful time, but by the blessing of Gel an awful time, but by the blessing of Gel an awful time, but by the blessing of Gel an awful time, but by the blessing of Gel an awful time, but by the blessing of Gel and the faithfulness of the men in charge was came out of the cyclone, and we arrived at home. Each one, before leaving the saip, thanked Captain Andrews. I do not think there was a man or woman that went off that ship without thanking Captain Andrews and when years after I heard of his death I was impelied to write a letter of condolence sexton's house, and if a person has been buried alive the alarm in th sexton's house notilies him of the fact at once. The inventor of the "arm alarm" has also provided an irde pip to be used on the graves where the attachment is to be set. The pipe will furnish enough fresh air to sust in was impelled to write a letter of condolence to his family in Liverpool. Everybody recognized the goodness, th courage, the kindness of Captain Andrews, life, and can be taken up when the

friends of the decrased have been fully satisfied that doub has real but it extures to me now that we never thanked the engineer. He stood away down in the durkness and the hissing furnaces doing his waole duty. Nobody thanked the taken place. The device has in adopted for use in the lows come erry. but so far, it has not been you on engineer, but God recognized his heroisth, and his continuance, and his Idelity, and there will be just as high reward for the en-gloser who worked out of sight as the capoperation by any of the corpo-L'ICATION.

#### FIGS AND THISTLES

#### Animals Tamel by Perlamy.

A minister seated in Boston at his table backing a word, puts his hand behind his bead and tills back his chair to think, and the celling falls and crushes the table and would have crushed him. A minister in Jamaicu at night by the light of an insect, called the madlefly, is kept from stepping over a preci-pice a hundred feet. F. W. Robertson, the selerated English dergyman, said that h entered the ministry from a train of elerem-stances started by the barking of a dog. A story was printed recently of / leopard who was tamed by giving him a paper upon which lavender water hal been sprinkled. The statement was made tantfriends had been made with a leopard nal a lion in a menagerie through the me lium of a bottle of perfume.

stances started by the barking of a dog. Had the wind blown one way on a certain day the Spanish Inquisition would have been established in England, but it blew the other way, and that dropped the accursed Institu-tion with 75,000 tons of shipping to the bot-tom of the sea or flung the splintered logs on the rocks. For a number of years the keeper of the caraivora house of the Zoological Gur fras in Philadelphia was an frishin in tiam : I Shannon, who is well known to a Mail and Expressman, and this man de-veloped a fondness for his feroclous charge which was simply astounding, and as took as much care of them as us did of his own children. Among the a was a pretty black coated animal of the in a ar or punther tribe, and to erarge only connected with the garlen, with tue single exception of Shinnon, tall boast was the most treacherous and for milia's of the collection.

press I bit down by the scall, "--H Corinthian, the state is hours as code as the state is an entropy of the scale is a state of the scale is With Shannon he was as genile as a many an hour, seated on the lelge of the te, his back turned to the animal -at which of itself would have been fatal to anyone else-and his hand thrait through the bars, holding a scentel bandkerchief. The cut would lie on its back for new signal arrangements and short blocks it will be possible to run trains in or out every two minutes. At pres-in or out every two minutes. At preso, perfame linen. Sixunon could never tell whether there was any virtue in the perfume, or whether the animal's docility was owing to its liking for him, but

work is English. In the roof the glass since he left, more than a year ago, the is secured by copper, and there is not new keeper has been unable to make a bit of putty in the whole.
