THEODORE'S PROPOSAL.

Theodore Shy was an exceedingly bashful man, and when, after much debating in his mind, be decided to take a wife, his thoughts at once turned to a matrimonal paper as the best means for attaining his object.

Theodore Shy, at the time of contemplating this most serious step, you ought to?" was thirty-six years of age. Passably good-looking, good-tempered, goodnatured, he possessed a good house, a good income, and all he required was a good wife to make his home who, is should you, in that cas a good income, and all he required was a good wife to make his home who, I think we'll leave m

While matters were at this stage, Therefore was brought to a full ston, youand for this reason he could not concost a suitable advertisement. He was in this dilemma for two days, when he determined to seek

the advice of a lady friend-a young widow, who had often commiserated him on his solitary lot. Mrs. Heady was an old friend ment"

when he had known before her mar-riage, and was the only person he lady of 25 young?" fe't he could take into his confidence, "Certainly." being assured of her sympathy and discreetness. She was at this time but twenty-five years of age and exceedingly pretty. He saw the young widow in her

morning room and she met him with extended hand and a smile of wel-

"I wish to seek your advice on a matter of great import to myself."
"You?"
"Good-morning."
"Good-morning." But stay a mo-

"There is no one else of whom I she, blushing, "that you would preshould care to ask this advice, and feeling sure of your sympathy and "Yes."

help I determined to be guided by your counsel, if you will be so good as The widow, much surprised and impressed by his extreme seriousness, expressed her inclination to laugh.

and said she would be pleased to help him in any way in her power. contemplating marriage, and know- the collection made. A successful Wall ing you-knowing you to be ---

perienced in such matters, and being the past five years been able to gratify

gave him an unuterable look of re- tional bank in New York City, except proach. "I thought I could not do one, was represented in his collection the lady I wish to marry." he not going to propose after all?

"Weff, ah! the fact is I don't know. "No" he went on hurrledly. "You see I expect there would be a great

deal of chaff at such an old bachelor the three for a tride over \$15,000. as myself getting married, and I am anxious to avoid is" Theodore had by some process of reasoning come to believe he was too old to dream of marriage. The widow

thought otherwise and ventured to "Well, at any rate," he said, "my friends think so and would ridicule

the idea, so I've been thinking of using the columns of a matrimontal paper for the purposa." The widow looked aghast "What do you want me to do?"
"The fact is," he confessed, "I can't

make out such an advertisement as I should like, and I want you to help me to word one if you will be so Mrs. Ready was amazed, and not a

Writing funterials being on the table, the widow sat down and took a piece of paper on which to comm.t

"First of all," said the lady, "what you see, it seems so foolish, especially for me." "Well, then," replied his compan-

young, middle-aged or old lady?" "Oh! I think-youngish."

"But what do you call youngish? You don't want a girl of 16?" "Older than that. I am double that age, you know." "Oh! are you? Well, then, about

what age shall I say?" "How old are y- I really beg your pardon. I meant about your

"I don't mind you knowing my age. So you think a lady of my age would suit you?" said she merrily.

Theodore was certain of it. "Now we have the first requirement. Do you wish to state whether she is to be slim, or-or shall we say

Theodore looked again round the from, and came to the conclusion In the light that glows from a true, that the widow was of the propor-

t ous he desired. "Like you," he said. Having only just contemplated matrimony, he had never bestowed a thought on the widow's charm's until now, and fast becoming helplessly in love he wished he had gone and shot himself before he came on his present errand. -But, you foolish man, how can I put that? What am 1?"

"You're an angel." She laughed merrily

"Then I must put of angelic pro-"No, let us leave that out alto rether.' "Any preference as to the height?"

"About your height." "Well, how tall am 1? I'm sure "Have you a measure?" said Theo-

She had one on her chatelaine, and as it never apparently occurred to either that the simplest method would be to detach the chatelaine. Theodore felt much embarassment while he performed his task, measuring the pretty widow first from the ground to the chatelaine, and then from the chatelaine to her crown of

Indeed, so flurried was he that the operation had to be performed no less than three times before he was certain as to her height.

"Five feet five," he pronounced. "Is she to be musical?" continued

the widow. What an escape? Suppose be had rashly engaged himself to a musical being who was not musical: id est, who was 'shobby' musical! It would have been the only thing to make I was dull, did not have any appetite, and was him commit suicide!

eally musical."

"What shall I do?" "I should advise you to marry some one you know is really musical."

Oh! bashful man! He was already

madly in love with this woman and he never took the hint. Pehaps he did not see it! .
"But I don't care for any musical

lady that I know of-except one," he added confusedly.
"Then why not ask her?"

"She wouldn't have me-1 should never think of asking."

"How do you know she would re fuse when you have never asked?" "She's too good for me." "How do you know she is not in ove with you, and if that is the cas

"Oh, but it's most unlikely." "Suppose it is likely," persisted the widow, 'should you, in that case, dis-"No, I think we'll leave musical put of the question. If I was only ture of her being as musical as

"Why, you silly man' You are wanting her to be like me in every-

But he went no further, and the widow proceeded: "Then we'll draw up the advertise-

"Wanted, a young-do you call o

r spond with gentleman aged 30, with view to matrimony." "That won't do," said Theodore, "I'm really very sorry to have given

you all this trouble, but I can't After talking of the weather of yesterday the prospects of ditto for to-day and to-morrow, Theodore sought an opponing to the object of the collins of the weather of "Well, what shall you do?"

"Well, what shall you do?"

"I don't know. Remain a bache-lor, perhaps; anyhow, I won't advertise. You'll pardon me for the trouble

ment. Did you not say," continued

"Then why not ask me?" And he did -Chicago Post-

The Collection Mania. The collection mania has its victims among all classes of persons, from the poorest to the richest, and very often "Well, the fact is," he said, "I am queer traits of character are shown by street broker has a collection that is "Yes," said the widow demurely, unique, valuable and income producing. "Knowing you to be more ex- Bressed with abundant means he has for his whim for the collection of bank just one share of stock in each National "And so disinterested." Here she bank. Recently he found that every Na better than to ask your advice as to The exception was the Chemical, the one-hundred-dollar shares of which sell Mrs. Ready looked puzzled. Was for something over \$5000 each. After

trying for a long while to find some one who would sell him a single share the collector came across three shares which were for sale in a lump. He could not get one alone, consequently he bought was led into making collections of bank stocks," said this gentleman the other day, "because I could not think of any thing else to collect. Among my friends were collectors of pletures, bronzes, marbles, bric-a-brac, flowers, books postage stamps, coins, musical instrumants, glassware and almost everything else. I wanted to collect something that would be out of the ordinary and at the same time be of permanent value. -New York Times.

The Mitten.

"L. T. B." explains the origin of a familiar phrase thus: "An old time New England expression, 'getting the mitten, meaning setting your offer of marriage rejected by your 'best girl,' has an orl-gin in the customs of the earlier days, One hundred years ago gloves were unknown in the country towns. Mittens were knitted and worn in all families. If a young man going home from singing school with the girl of his choice was holding her mittened hand to keep sort of a wife do you want?" was holding her mittened hand to keep "Really," he said, "I cannot do it from getting cold, and took that operribe the sort of lady I should like, I portunity to urge his suit, if the offer proved acceptable the hand would remain. If taken by surprise, an effort to withdraw the hand would leave the mitwho had apparently received an ten. So the sultor would 'get the mit-tration. 'Now, did you want a ten' but would not get the hand." This is certainly a very easy and plausible explanation when you know what it is, but if you had not been told the phrase would be puzzling .- Boston Transcript.

ATTIC SALT. "Dear me," said the pepper in a smart tone, "I wish the mustard would stop appearing in that frightful yellow."
"Yes" replied the salt, "it must be the mustard that the newspapers refer to when they speak of the 'gay season.'' -Washington Star.

CAPTURING THE CATARACT.

NIAGARA FALLS IS "HARNESSAD" FOR MAN'S BENEFIT.

Equal to 1,000,000 Horse-Power-More Than One-Tenth of That Amount Will Soon be Available. OR more than fifty years, says a Buffalo letter to the New York

Press, the dream of engineers has been to "harness Ningara." Well, the dream has come true. Niagsra is in harness. To be sure, the trace chains have not yet been hooked to and for two or three hundred dollars the whiffletrees of industry, but the collar and hames, the bridle and bit are in position and ready for the strain when it shall come. The greatest cataract of the world has been subdued, and if, in knowledge of its captivity its roar is more sullen than of yore when it existed only as an insurmountable obstacle to navigation and a wonder for sightseers to grow solemn over, the smiles on the faces of capitalists, the new fingle in the pockets of residents of the village of Niagara Falls, and the complacent prophecies of the Buffalonian that ten years hence "Chicago will not be in it, sir; no, sir, not on your life," are atone-

It is estimated that the total power of the great waterfall is equal to that of 15,000,000 horses. To any one who has seen its mighty volume this does not seem absurd. The present scheme will only utilize less than one-hundredth of that vast wasting force, but it may be ssretched in the future to as great a

seem absard. The present scheme will only utilize less than one-hundredth of that vast wasting force, but it may be saretched in the future to as great at length as may be made useful.

The effect of this great enterprise may not be as great as the sanguine remark of the Buffalo man who has been quoted would imply, but it will be very great. Of course many of the manufacture by a distressing, obtained disease, low the manufacture by a distressing, obtained disease. How the manufacture is the same properly interests which will be attracted by else your will be him to great the same power will gather in the little town which hovers on the brink of the cataract, and which has in the past been notable principally for its big hotels, its clamorous cabbles and its fudian bazard. But a plan has been devised whereby the power will be electrically transmitted to Buffalo with comparatively small loss, so that this city will undoubte ity come in for many of the pudding's plums. The village of Niagara Falls itself has good will writh a boom almost Western in its enthusiasm.

The first attempt to utilize the water power of Niagara Falls was made yield the current of the response of the respect to the possible force the rapids to what are now known as its collection of the power will be water to be collected to the possible force to the rapids to what are now known as its manufacture of the possible force to the respids to what are now known as its manufacture of the possible force in wasted. Constitution and all troubles with the liver, are cured by Hood's Pills.

Electric locomotives are proving themselves to be well adapted for use animals is of this character not in coal and other mines, and they now only fail of their duty, but miss a furnish motive power for handing cars. This tunnel is 8713 feet long, twenty-

eight feet high and eighteen feet broad, come familiar with their characters in semi-circular form. It is bricked up M. L. Thompson & Co., Druggists, Condera-port, Pa., say Hall's Catarrh Cure is the best and only sure cure for catarrh they ever sold. Druggists sell it, 75c.

College Faithful with a conderation of which latter along its whole length, an undertaking horses have many; to see them com-fortable in their stalls, sleek, well of baked clay, and which, had it been done by a single bricklayer, would have occupied his entire attention for twentyfour years. It was thought to be a bet ter plan to employ 7 000 men in its construction, however, and they have man-aged to dig it and line it in a little less than three years, having kept hard at it day and night. The total cost of the

enterprise so far has been a trifle of \$2,500,000. With the wheelpits already finished or under way, the plant will develop a minimum of 120,000 horse power. This would be more than sufficient to run seven of the largest steamships affoat, and steamships are not easy things to run. It is highly improbable, however,

that the power from the falls will be utilized in ocean navigation. But if the dreams of the projectors of this big entorprise come true, some things almost as remarkable as that would be are likely to occur. Its promotors have been devoting almost as much attention to studying how to transmit the power as they have to studying how to develop it.

The canal and the tunnel are big enough to hold water for 1,000,000 horse power, and that is what the company places its maximum capacity at. Of course there are sneers, but the company has Niagara Falls and the engineers on its side, and seems likely to come out shead.

In order to increase the power it will
