GEN. D. H. HASTINGS, For Governor.

The business of the country is trying to get on its feet despite the dem ocratic tariff reform.

When the democratic tariff reform business wreckers succeed in con vincing the American people that the way to improve the condition of peo ple is to reduce carnings of capitaland wages they will be able to prove to the satisfaction of the people that water naturally runs an hill.

Ar the late Convention of scientists in York State, a geologist said that thousands of years ago, the waters of the Susquehanna and its tributaries ran in the opposite direction from what they do now. At that time if he is correct the Juniata ran in the direction of Altoona instead of in the direction of Dancancon He further said the waters of the upper lakes ran across Ithinois to the Mississippi Valley, and that if a dam 25 feet be constructed at Buffalo, N. Y .. the waters can now be turned into the Mississippi river by way of Chicago. We had better accept what he says as true than hant proof to disprove it.

the meeting next week. PRESIDENT CLEVELAND in his Catching letter, plainly tells the country that the tariff bill that the democrat ie Congress passed settled nothing. The tariff question is to be kept open for a further drag in the direction of free tr. de.

DEMOCRATIC orators and writers say the times are getting better. Everyone hopes that what they say may before times can be as good as when before times can be as good as when they tore the good times to pieces.
The country would be happy and prosperous now, if times were half as prosperous now, if times were half as Alice Subcome in divorce war.

We teach men and women how to earn from \$5.00 per dus to \$3,000 per year without having had previous experience, and farnish the amployment at which they can make that amount. Nothing difficult to learn or that requires much time. The work is easy, healthy, and homorable, and can be done during daytime or evenings, right in your own locality, wherever you live. The result of a few hours' work often equals a week's wages. We have tought thousands of both exces and all ages, and many have laid foundations that will surely bring them riches. Some of the smartest men in this country owe their success in life to the start given them while in our empley years ago. You reader, may do as well; try if. You cannot fail. No capital necessary. We lit you out with something that is new, solid, and sure. A book bringful of advice is free to all. Help yourself by writing for it to-day—not to-morrow. Delays are costly.
