The terrors of his mind were most agreeably relieved when he realized that it was a turkey, and upon investigation he learned that it was one of his own flock that had been routed by horses at pasture in a field. The fool when it took to wing flew straight for the light in his window.

The school directors can conveniently to the assistance of teachers and require the pupils every one of them when school is adjourned to walk quietly out of the school room and out of the building. To hear a rushing noise in a school room, and see a crowd of noisy pupils come from the building, pushing and yelling as if every one feels determined to be out first, does not impress a teacher with a high opinion of the manners and training of the school.

M. Timmer Whitehead, a famous lecturer, delivered a lecture in the court house on the evening of the 3rd on the subject of the finance and demoralization of silver. The lecture was an able one and was attentively listened to by his hearers. He presented a large fund of illustrations on finance to show how the shrinking of values has been brought about by the demoralization of silver, and to those in the audience who had some acquaintance with the processes of legislation employed by gold bugs to rule silver out as bond paying money, his speech was clear, but to the majority of his hearers, he did not make himself clear as an advocate of opening the mints of the country to the free coinage of silver, just as the mints are open to the free coinage of gold. His language was not quite plain enough to show that it is the legislation against silver that has in a great measure caused the shrinkage in value of all kinds of property.

REPUBLICAN MEETING. An inter-county Republican Meeting will be held 5-day at Richfield, that being a border town between Juniata and Snyder counties. The speakers for the occasion are Congressman T. H. Mahon, Prof. G. W. Herman, Dr. Wm. H. Rodgers, Wilberforce Schwyer. PENSIONS IN DANGER. Immediately after the advent of the Cleveland administration there was a movement to cut down the list of pensioners and if the republican party had not raised up as one man and protested against the proposed reduction of the list, there is no telling how many pensions would have been cut. There is no telling whose name would have been stricken off the list. That effort of the democratic party leaders to cut the pension list shows the heart of the leaders of the democracy on the pension question. Soldiers you know what will come if Cleveland is endorsed at this election. If you throw your votes with the democracy this fall and elect your enemies to office, don't come around to republicans to stand up and fight for your cause to keep a democratic administration from stripping you of your pension. A man ought to have wit enough to know who his friends are, and support them when they need friends. Vote the republican ticket, county and State.
