The new Inquirer building in Philadelphia, was dedicated last Saturday. A legion of friends were there to take part in the opening of the most complete newspaper offices in the world. If it had been possible to resurrect Philosopher and Printer, Ben Franklin, and had him present what would he have said at the marvelous adaptation of mechanical machinery, and at the harnessing of steam and electricity in the publication of the Inquirer as exemplified on the occasion of the dedication, December 15, 1894. Franklin may be where the activities of the human mind are intensified and empowered beyond their scope on this globe, but the change between his day and this day in Philadelphia in the Inquirer office, would in all probability have caused the gifted man to drop into a state of speechless wonder.

END THEIR TROUBLES. The Newport News of the 13th inst. says: To-day two weeks, Judge Martin Bell, of Blair county, will go to Bloomfield to hear the motion for a new trial argued in the case of W. A. Sponser and B. F. Junkin, convicted of embezzlement in connection with the failure of the Perry County Bank. It is not probable that a new trial will be granted and it is not expected that the case will be appealed to the Supreme Court, as it is reported that the defendants have said they are anxious to have their troubles end as soon as possible and are ready to suffer the consequences of their banking follies. The minimum penalty is imprisonment for one year in the penitentiary and the maximum three years, with a fine accompanying either sentence at the discretion of the court.

Hunting Rabbits without Dog. Gunners who cannot afford to keep hunting dogs have just found a new way in gunning for rabbits. Two men take a long rope and walk over the fields, one a hold of each end, and drag the rope between them, having their guns always cocked ready to shoot. They say the rope will scare up more rabbits in a day than half a dozen dogs.—Lock Haven Democrat.

Last Friday U. V. Debs, the leader of the Railway Union strike last summer, was sentenced in the United States Court in Chicago to six months in jail for contempt of court. He is pronounced in contempt of court, because last summer on a certain date, the United States Court issued an injunction against the interference with the running of the United States mails and against the obstructing of interstate commerce by the secret organizations of which Debs was head, but which injunction Debs and his followers paid no attention to. A number of other leaders were sentenced to three months in jail. The sentence is severely condemned in secret societies to which Debs belongs. They say he should have been tried by a jury. The court did not try Debs for the time of rioting, for the obstruction of travel and destruction of property. It simply sentenced them for contemptuously paying no respect or regard to its order to refrain from interfering with the transmission of U. S. Mails and U. S. Commerce. The trial by jury for the crime enumerated is quite another thing, and may follow.

Harriet E. Hall of Waynesburg, Ind., says: "I owe my life to the great South American Nerve Tonic. I had been in bed for five months from the effects of an exhausted Stomach, Indigestion, Nervous prostration and a general shattered condition of my whole system. Had given up all hopes of getting well. Had tried three doctors with no relief.
