Resolved, That we demand the removal of all dams in the Juniata River not needed for transportation purposes, because the ice accumulating thereon endangers bridges and towns along its banks.

able persons to fill the intended vacancies, refused. A great commotion was raised in the democratic camp in this town last Saturday forenoon when it was discovered that the tickets were printed for the February election, did not designate the name of the democratic candidates for school directors, while the candidates on the republican ticket read as follows: James Robinson, one year; Joseph Rothrock for three years; John Bergy for three years, designating the term of office of each candidate.

The law makes provision for just such cases and says: votes for candidates for School Directors whose term of office is not designated shall not be counted, where the term of office of some of the candidates is designated. If the term of office of all the candidates had not been designated then the candidate of either party having the highest number of votes would be elected to the longest term and the next highest to the next longest term and so on.

The law being clearly against the democratic candidates, a petition was presented to Judge Lyons on Saturday afternoon, praying that he order the tickets printed for the election in this borough, amended, and either to order the term of office striken from the candidates for School Directors on the republican ticket or order the term of office of the candidates for School Directors on the democratic ticket to be designated.
