Stick to the line! That was the saying at Pennarby Mine.

A stranger came to Pennarby Shaft; Lord I to see how the miners laughed! White in the collar and stiff in the hat, With his shining boots and his silk cravat, Picking his way

Dainty and fine, Stepping on tiptoe to Pennarby Mine.

Touring from London-so he said ; Was it copposithey dug for, or tin, or lea Where did they find it? How did it come? It he tried with a shovel might he get some Stooping so much Was bad for the spine:

And wasn't it warmish in Pennarby Mine? "Twas like two worlds that met that day-The world of work and the world of play : And the grimy lads from the recking shaft Nudged each other, and grinned and chaffed "Got 'em all out!"

"A cousin of mine!" So ran the banter at Pennarby Mine And Carnbrae Bob, the Pennarby wit, Told him the facts about the pit How they bored the shaft till the brims

Warned them off from tapping-well, He wouldn't say what, But they took it as a sign To dig no deeper in Pennarby Mine. Then, leaning over and peering in, He was pointing out what he said was tin In the ten-foot-lode -a crash, a jar, A grasping hand, a splintered bar;

Gone is his strength, With the lips that laughed Oh, the pale faces at Pennarby Shaft!

Far down on a narrow ledge They saw him cling to the crumbling edg "Wait for the bucket! Hi, man, stay! That rope ain't safe ; it's worn away! He's taking his chance:

Slack out the line! Sweet Lord be with thee!" cried Pennarb

"He's got him! He has him! Pull with a Thank God! He's over and breathing still, And he ... Lord sakes now! what's that; ward, will you?"

Slowed if it ain't our London swell ! Your heart is right If your coat is fine ; five us your hand !" cried Pennarby Mine. -A. Conan Doyle, in Pall Mall Magazina

A Pullman Car Episode

BY CHARLES SUMNER CLARK.

bearing its precious freight—I say man I recovered more quickly than precious because every one had a full she, and set a trap. pocket-book, and nocessarily so-tc | "You snatched that satchel as though

Unlike most men, I travel without either a silk skull-cap, a smoking-jacket, a duster, or a pair of homemade slippers, for my street clothes and etceteras are comfortable enough, and even if they were positive torture, all-possessing vanity forbids that I "Yes; and Miss Fen wont to do in their journeyings. So, ever attended." without wasting time in getting into but to my fellow-passengers.

me that she was divine in features, her veil and solemnly answered: form and dress. Of course, having glanced once I glanced again, and at the second glance I thought I detected
something familiar about her. Where
had I seen her? The third glance beamed; her pretty lips were parted solved the question.

Five years ago, when twenty-one, 1 spent the summer at Richfield, and there met Margie Fenton. Margie was "To - Mr. - Tom: fair, with laughing eyes, cherry lips, and a figure of willowy grace. Margie. too, was rich-or, at least, her father was. Can you blame me for falling in | call for luncheon!" love with her?

Ah, what a summer we spent! Rides, Arives, dances, dinners, luncheous, tennis, moonlight rambles, and best of row is a good bit like a cat-it's rather all, long talks in dark corners where hands were clasped and vows of eternal | so long. -Frank Leslie's Weekly. love were exchanged. And so we lived in elysium; the pleasures of each day marred only by regret that its passage brought the season nearer to its close.

had to stay longer because my mother, it on our route to the Ankwerkes Packsupreme in her ownership of the pocketbook, so wished. Shall I ever forget the day? The train left in the early forenoon, and with it went the sunshine of my life, leaving me inconsolable. My only comfort was in writing letters. This I did at the rate of five a day for one week: but as Margie wrote only seven in that time, I, teller, while the bedizened buckling gie wrote only seven in that time, I, ham often walked thither in order to fearing that I would annoy her, dropped to the same number. We request who when Felten border to kept it up for two months. Then she began to skip a day now and then, and cutler's shop on the summit of the hill so did I. After a little her ardor was for a shilling the knife with which he represented by only two letters a veck; mine by the same number. This rate was continued for about six quired. months, when all of a sudden she stopped entirely, and I did likewise. Thus ended the same old story.

had grown more plump, as healthy the celebrated founder of the stag the druggist's aid. But the nose, the fettitious sorrows in "Venice Preeyes, the mouth, I could not be mis- served." taken in them. "Yet, if it is she why doesn't she recognize me?" I asked myself. "Surely she doesn't blame ings drinking hot pepper and brandy

A well man can do as much work as two me sho are "under the weather," and do it better that how of Ripans Tabuies in the office will say the for breaking our surprise and should be the should be me for breaking our summer engage with his boon companion, Lord Carment?" She evidently did, however, marthen. In the uninviting neighborfor she never looked up from the book | bood of Little Tower Street, which can | are always held on Sunday. she held before her, though she knew scarcely be supposed to have been inthat I was intently watching her. But spring, Thompson composed his this knowledge apparently caused her "Summer." In Grub Street, the supno annoyance, for her face wore a posed lurking place of many a mute, is the time to take Hood's Samapar roguish smile, which could not have juglorious Milton, much hack literary been provoked by the contents of her work was effected, none of which has novel, since she was professing to read survived the touch of time's destroying "Jess," and was looking at the pages band.—The Gentleman's Magazine. near its painfully sad end. So I came to the conclusion that she was Margie, quite willing to renew acquainfance, but wanting for me to make the adbut wanting for me to m

old affection, and renewed the bonds which I wore with such pleasure in the days gone by.

While I sat trying to muster up courage to address her, and just about the time I had succeeded, the porter came through the train announce "Luncheon now ready in the diningcar!" The words acted upon my divinity with astonishing celerity. Sha dropped her book, utterly regardless of her place, and rising from her seat without even glancing in the mirror that are so numerous in Pullman cars, passed out with a smile, but never a look in my direction. My first im-pulse was to follow her, but on second thoughts I decided differently. She

answered the porter's call with such avidity I reasoned that her hunger was her first consideration for the nonce; and when a girl is hungry there is a woeful lack of sentiment about her. So I was still, framing a conversation for later use. I thought of many pretty things to say; then I thought of many more. An age seemed to have passed, but still she ate.

I glanced over a railroad-guide which was stuck in a frame near the door; then I glanced over it againbut she kept on eating. I walked to the other end of the car and dropped into a seat which was occupied by a newspaper, from which I read advertisements-but still she ate. I looked at my watch; she had been gone forty-five minutes. "How can so lovely a creature have so vulgar an appetite?"
I said, almost aloud. "Why, I wouldn't—" A ray of sunshine shivered the car. I looked up, and there she was. I gathered my courage,

gave a hasty thought to my pretty say-ings, and with a beating heart walked up to her and said: "I beg your pardon, but are you not Miss Fenton, Miss Margie Fenton, of New York?'

She gazed up into my face, and a the color slowly mounted her cheeks, and a hundred little imps played games in her eyes, replied: "No; but I've been mistaken for her very, very often.'

I was "set flat back"-as the inele gant but forcible colloquialism has it -and could only stammer: "Parpardon me. Pray don't think me for

"My! no, quite the contrary. Mis-Fenton was a very pretty girl, and to be taken for her is quite flattering. She was also a dear friend of mine, and if you were acquainted with her that is sufficient recommendation. Won't you be seated?" And here the hundred little imps tugged at her pretty mouth until they had arched it in most mischievous smile. She removed the books and boxes which littered the seat beside her, saying that I preferred HAD just dropped riding backward, which was the truth my numerous traps -I wanted to study her face.

This she seemed to understand, for section eight, car taking a heavy veil from her satchel, number twelve, of she tied it about her face just low the Chicago low enough to conceal her eyes, giving limited, which left as an excuse for her action that the New York City on jarring of the train loosened her curls, Tuesday of last There is something mysterious about

Cannot Compete with Africa. Miss Up-to-Date Tells Trade Secrets J. Ross writes in the Engineering

HARRISBURG, Pa., February 2?, '95. DEAR JEWEL:- After the crush of the last reception and your parting with Lem Lion, I noticed your sleeves still fallen so low that the annual output is retained their outstanding effect, while mine alas! were like certain of my fond | years ago it was upwards of \$2,500,000. hopes-smashed! Please tell me what your modiste puts in your sleeves to inflate them so gloriously and effectively. Your skirt, too, is a model of elegant swelldom; how is that grace of creadth secured? I am now preparing my order for Newport costumes, and will appreciate any information you an give me.

Yours lovingly, Rosa Bombast.

PHILADELPHIA, PA., March 4, '95. DEAR ROSA:-The crush of the re reption was good—the crush of Lem Lion's, parting was better! He is a dear, delightful bear! and we were in constant disgrace until we discovered an interlining that would resume its outstanding effect after great pressure.

I use fibre chamois. I heard of it hrough Sue Spendthrift. You know ue-Well, her husband lost his fortune in Wall street last Summer, and Sue told mamma she wouldn't feel half so badly if she could only get a new spring suit, so mamma, who is always ractical, secured her a scholarship in McDowell's garment drafting school, No. 4 West 14th street, New York. I gave Sue my garment drafting mathine, and she took the course of lessons in drafting, cutting, fitting, sewing and finishing, and Rese, you just ought to see the dress that the girl we used to think so lazy and useless,

made! It is simply perfect!
Then she found out all about so many of the very best artiles to use in making dresse -for example, she learned that ibre chamois is not injured by dampiess, therefore it is just the inter ming for the sea shore. It is season ible, being light, porous and healthful it is essentially elastic, therefore no packing pressure hurts it. Fibre chamois now comes in three weights, Nos. 10, 20 and 30. I use No. 10 in deeves and No. 20 in skirts, but Sue ises 20 in all parts. You can get it in late, brown and chamois color, but be very careful Rosa, when you buy this inter-lining to get that stamped with heir trade mark Fibre Chamois, fo there are worthless imitations around

Affectionately, JEWEL UP-TO-DATE. P. S.-Sue's dress is trimmed with ois brown Velutina, which looks just ike silk velvet, and is far more durble. It now comes in all colors, cut pias in desirable widths for dress trimmings, and, Rose, you know withou telling that bias Velutina facings and cordings for skirt edges wear better

than any of the others,

Ancient Use of the Parachute. It seems that as early as 413 B. C. prisoner in Egypt astonished the na-tives by jumping safely from a high ower, impeding his downward proress and "landing" without too vioent a jar by holding a blanket over his head. The parachute, as we know it now, is said to have been invented y an adventurous Frenchmen who exhibited it in Paris in 1796, and early in this century an English geronaut named Green precipitated himself, with a parachute's restraining aid, from the ample ether to terra firms in Fairmount Park, in Philadelphia, thus making the first recorded descent in America. - Chicago Herald.

ACUTE DYSPERSIA SYMPATHETIC HEART DISEASE OFTEN

moving the Cause.
(From the Republican, Cedar Rapids, Iowa)
Mrs. V. Curley, who has resided in Clarence Iowa, for the past twenty-two years, tells nteresting story of what she connature death. Her narrative is as follows:
"For ten years prior to 1894, I was a co

tant sufferer from acute stomach trouble had all the manifold symptoms of acute dys-pepsis, and at times other troubles were presnplication—I did not know what it was to enjoy a meal. No matter how careful I might be as to the quality, quantity and preparation of my food, distress always followed eating. I was despondent and blue. Almost to the point of insanity at times, and would have been glad to die. Often and often I could not sleep. Sympathetic heart trouble set in and time and again I was obliged to call a doctor in the night to relieve sudden attacks of suffocation which would ome on without a moment's warning.

"My troubles increased as time wore on and spent large sums in doctor bills, being comelled to have medical attendants almost conantly. During 1892 and 1893, it was impossible for me to retain food, and water and Mining Journal that since the diarashes plagued me. I was reduced to a mond discoveries in South Africa the skeleton. A consultation of physicians was Brazilian diamond-mining industry has unable to determine just what did all me. The doctors gave us as their opinion that the now not over \$150,000, when thirty probable trouble was ulceration of the coats Brazilian diamonds are so much smalovery. Pack the butter into the cup home to Hector he became violently solid. Put all the ingredients except neighbors. Then his disease was pronounced smallpox, and it was such a few days. The disease became epifrom the germs that were collected by

and wither with time; the bloom of the rose is only known to the health y woman's cheeks. The nervous strain caused by the ailments and pains peculiar to the sex, and the labor and worry of rearing a family, can often be traced by the lines in the woman's face. Dull eyes, the sallow or wrinkled face and those "feelings of weakness" have their rise in the derangements and irregularities peculiar to women. The functional derangements, painful disorders, and chronic weaknesses of women, can be cured with Dr. Pierce's Favorite Prescription. For the young girl just entering womanhood, for the mother and those about to become mothers, and later in "the change of life," the "Prescription" is just what they need; it aids nature in preparing the system for the change. It's a medicine prescribed for thirty years, in the diseases of women, by Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Dr. Pierce's Pavorite Prescription will cure the chronic inflammation of the lining membranes which cause such exhausting drains upon the system. It curer nervous prostration, sleeplessness, faintness, nervous debility and all disorders arising from derangement of the female It cures nervous prostration, sleeplessness, faintness, nervous debility and all disorders arising from derangement of the female organs and functions.

A GENTS-Wanted a few good local agents for this association; liberal inducements to active reliable men, with satisfactory references. Apply to the Equitable Savings Association, Detroit Mrs. JENNIE WILLIAMS, of Mohawk. Lane Co., Oregon., writes: "I was sick for over three years with blind dizzy spells, palpitation of the heart, pain in the back and head, and at times would have such a weak tired feeling when I first got ap in the morning, and at times nervous chils.

HOUSEHOLD MATTERS.

DO WOMEN KNOW? That rubber should be carefully kept

away from oil, as oil softens an i make it unfit for use. That a gauze veil is the best prote tion for a sensitive skin during hot weather, and on no account should a

thick veil with large spots be worn. That one doesn't "make calls" any more, but "pays visits" instead. As if it made any difference, only when one is in Rome one must do as the comans do.

That old paint and varnish may removed by an emulsion formed of two parts of ammonia shaken up with one part of turpentine. It will soften them so they may easily be scraped off.

That Turkish toweling in pure white is considered the most correct thing for the covering of chairs and couches in the summer sitting-room. The toweling, while apt to show dirt more quickly than other fabrics, may yet be sent to the wash tub, its place in the mean time being taken by a fresh set of the same, whence it emerges as daintily fresh and attractive as ever. — New York Recorder.

HOME-MADE CANDY.

Home-made candy is best for the children. The following recipes come from the Boston Cooking School: Peppermints—Put on to boil one and one-half cupfuls of granulated sugar and one-half cupful of water, cooked until it will just gather to gether in cold water; it must not be cooked until it can be gathered into a soft ball like the fondant. When cooked to the right degree add four heaping teaspoonfuls of confectioner's sugar; if it seems too stiff to drop put it directly over the fire and heat it up again. Just before pouring out add six drops of oil of peppermint. Turn out in shape, using a tunnel and a long-handled wooden stopper, lifting the stopper high enough to allow the mixture to flow into the right size. Different kinds may be made by using different flavorings and colorings.

Buttercups-Boil two cupfuls of nolasses, one cupful of sugar, threequarters of a cupful of water, one heaping tablespoonful of butter, one-half teaspoonful of cream of tartar; without stirring. When done pour on to a buttered platter; when it can be handled pull until light colored. Place on a slightly-floured board, and stretch out into a long, narrow shape; into the centre fold some French fondant, and roll out and cut. Porto Rico molasses of a medium grade is best for candy. Measure the butter as rounding as the spoon hollows; measure out an even teaspoonful of cream of tartar, and divide length-wise for the half spoonful. The cream of tartar is not added to make the candy white, as many people think, but to keep it from granulating.

Nut Nougat.—Melt one pound of

sugar in a saucepan, stirring constantly to prevent burning, as there is no water in it. Add one cupful of village. The disease was not known hickory nut meat, slightly salted. to be anywhere in the vicinity. Her Pour into buttered pans, and mark mystery that remained unsolved for venient for some to measure the sugar months, but was at last cleared up in a cup than by weight; in that case, through the investigation and inquiry remember that two cupfuls, or one of Dr. Purdy, of Elmira.

Dr. Purdy learned that one day in pound. This rule is only for granuthe winter preceding the breaking out lated sugar, as it would require a of the smallpox in Hector a passenger on an Erle Rallway train was taken violently ill just after leaving Sala-ents into a granite-ware saucepan card the train discovered that the butter or lard is best. The flavor of assenger had the smallpox. When the candy is much improved if a little this became known the other passen salt is sprinkled over the nuts before gers in the car hurriedly left it for mixing together. The nuts should be another one. The car containing the heated thoroughly before stirring into smallpox victim was placed on a sid- the syrup, and the place on which it is ing when the train reached Hornells to be poured should be hot. When the candy is poured on the plate, cut Among the passengers who left the into narrow strips or bars quickly, car when the case was made known with a thin, sharp knife. Rapid work was an old lady who had a ticket from is necessary in making nut bar. Many Elmira. Her seat had been the one other puts are used in place of behind the one where the man with hickory nuts. Peanuts, shelled, the smallpox sat. She had with her a skinned, and chopped fine, are genersmall shoulder shawl, which had hung on the back of the sent ahead of her. the surface of the candy are very When she left the train at Elmira she good; English walnuts, castanas, or took a Northern Central train for Wat. any other nut, chopped fine, give an excellent flavor. This candy is easily

made, and is generally liked. Cream Caramels-Boil three cupfuls of sugar, one half cupful of buting fall, when she was driven by her ter, one cupful of milk, and one son to visit another son, some miles square of sweet chocolate for ten minutes. Best until cold; add one tablespoonful of vanilla. Beat with a patent egg-beater until it begins to sugar around the kettle, then pour it from her suchel, where it had been in a buttered tin, and cut in squares. ever since she put it away on leaving The sugar for candy of any kind should the Erie train at Elmira the previous be measured just level in one of the A few days after the son returned regular measuring cups holding half a

As small an amount of chocodemic, and was not eradicated until late as is used in this rule can be the following summer. Every family scraped fine or grated and put into in the village and immediate vicinity the sugar dry; if a large amount were lost at least one member by the dls to be used the better way to use it ease. That the first case originated would be to break the cake in tiny pieces and put in a bowl, setting this the shawl in the railroad car near in the opening in the tea-kettle, or Salamanca months before there can be over steam in some way, to melt the chocolate. When the taffy has been boiled the requisite time remove from WOMEN'S FACES

—like flowers, fade and wither with time; the bloom of the rose

boiled the requisite time remove from the stove and beat rapidly with the egg beater, watching the sides of the dish carefully to see when the mixture begins to granulate. Do not put the vanilla extract in the taffy until the beating is finished, as extract of any kind tends to form the mixture into grains. It is rather difficult to beat the candy with an egg-beater, but it is the only way to do it thoroughly. When the taffy is turned out on the pan cut into squares quickly with a thin, sharp knife.—New York Ob-

A War Storf.

A group of Congressmen were sitting in the half deserted hall of the House when Judge Livingston, of Georgia, remarked to General Cogswell, of Massachusetts. "If it had not been for the leniency

shown by you to me on a certain occa-

sion I would not be here to-day."

"How is that?" inquired Cogswell. "Do you remember one evening that our regiment was scouring about Atanta and captured a fellow who was wandering about that country? The circumstances of the capture made the prisoner liable to trial as a spy! I was he prisoner. I had a farm about there

and was looking to get home for glimpse at my people. You were good enough to decide that I was not liable to the charge of being a spy and let me go. The next evening I had five of your men in my hands. I kept them shut up in the barn over night and then turned them loose."—New York

What They Are For

Biliousness sick headache bilious headache

Indigestion bad taste in the mouth foul breath loss of appetite

sallow skin pimples torpid liver depression of spirits

when these conditions are caused by constipation; and constipation is the most frequent cause of all of them.

One of the most important things for everybody to learn is that constipation causes more than half the sickness in the world, especially of women; and it can all be prevented. Go by the book, free at your druggist's, or write B. F. Allen Co., 365 Canal Street, New York. Pills, 10c. and 25c. a box.

"Knowledge is Folly Unless Put to Use." You Know SAPOLIO? THEN USE IT.

Weight of an Eagle in Dollar Bills. Said Mr. C. K. Stout, of the Treas-\$8000 or \$10,000 in double eagles at his elbow: "How many \$1 bills do you think it would take to weigh as much as one of these coins?' The reporter considered a moment

and made a guess. "It takes just twentg-seven, unless the bills are trimmed close. Twentyeight new \$1 bills always weigh a little more than a double-eagle. Don't you believe it? Just wait.

He disappeared in the wault for a few minutes, and presently emerged with a package of brand-new dollar bills in his hand. Then he counted out twenty-seven of them, and said to the reporter: "Choose any coin you will.

The reporter chose a coin, which Mr. Stout put on one of the scale pans. Then he put the twenty-seven dollar bills on the other pan. The long needle that moves on the index showed that the beam was almost level. The man of money added snother bill to the twenty-seven, and the coin went up. Then the reporter offered to treat, for his guess had been shy just 973 dollar bills. - Cincinnati Commercial Gazette.

The Greatest Medical Discovery

of the Age. **KENNEDY'S** Medical Discovery.

DONALD KENNEDY, OF ROXBURY, MASS., Has discovered in one of our common pasture weeds a remedy that cures every kind of Humor, from the worst Scrofula down to a common pimple. Send for Book. Manistee, Mich., Feb. 14, 1895. Dr. Kennedy, Dear Sir:

I am the little boy you sent the Discovery to about six weeks ago. I used two bottles and also the salve. When I began to use the medicine my sores were as large as a quarter of a dollar, and now they are as large as a ten cent piece and I feel much better. Mamma and I feel very thankful to you. I shall write again and tell you how I am getting along.

I remain your little friend, ANDREW POMEROY, 88 Lake Street
