It is not often that such a solid sample of January weather is dropped into the middle of March as that dropped in last week.

Everything in town, that could be used to sleigh or sled, was in use on Tuesday night for pleasure, in the 20 inch snow.

The weather wise say March is cold, because the moon changes in the morning. How does that effect the ground hog.

The ground hog's term of prophesy closed on Sunday and it was true to the letter, but some dyspeptic critic says, "any blind hog may once in a while find an acorn."

We have come through the sternity of the past and know nothing about it, and will go into the sternity of the future, and are told will there learn all about it.

If the snow that fell on the 15th and 16th of March had fallen three months earlier, what a time people could have had sleighing. Why, we are having winter in spring time, it is a puzzle that the weather wise cannot solve.

First Democrat.—"I think Grover will run again. Second Democrat.—"I don't think he'll actually run, but if the Senators pitch into him once more, he'll very probably sneak out by the back way and go duck shooting again."

On Tuesday, the 10th inst., Dr. David M. and Darwin M. Crawford and S. A. Sulon, re-arranged the injured leg of Thomas B. Brown, four inches above the former amputation. Thomas had the leg injured last autumn while at work in the Fanhandle railroad machine shops, located at Dennison, Ohio.

The shortest and last report of the fist fight between Fitzsimmons and Maher reads: Scene, Mexico. One 20-foot square ring. Two brutes. Two hundred other brutes. One fool. One punch in the jaw. Ten seconds of hope and despair. One jubilant bully. Ten thousand words of telegraph. And that is all.

Many friends will regret to hear of the death of Harry F. Mortimer, only son of F. Mortimer of this place, which occurred at Huntingdon, Pa., on Friday last from typhoid fever and heart failure. He was aged 26 years, 9 months and 19 days, and leaves a widow and infant son. His remains were interred at Huntingdon on Sabbath. He was employed as a brakeman on the Penna. R. The others mentioned have all recovered. She did not drink coffee that meal. She will be sent to a reformatory.

The Huntingdon Journal says—Grand Army and Union Veteran Legion members in every county of the Juniata Valley have been heard from and say that their posts and encampments will be present at the veteran encampment to be held here during the Borough Centennial celebration. The lowest estimate is that there will be fifty organizations here and that they will average forty members. Besides these, there will be many veterans that do not belong to either the G. A. R. or the U. V. L. It is confidently expected that more than 2,000 will be in line on the day of parade.

Between the hours of 8 and 9 o'clock last Friday morning, Ira M. Waller, aged about 19 years, was killed on the railroad between Mexico and Port Royal by passenger train No. 20. The young man was walking on the track eastward to look for work when he was struck by the train.

It is true that the indebtedness of Juniata county is large, owing to the appropriation of the river bridges by the county for public use, and it is equally true that the men who are leading off in the criticism against the county indebtedness were among the leaders in advocating free bridges and water, and sewers for the Court House and jail. Now that they have done this, they have to help pay for them.

Somebody proposes an amendment to the State Constitution to have the Legislature meet once a year instead of once every two years. It would be a more popular move to provide for the meeting of the Legislature once in five years.

The Louisiana Agricultural Experiment Station in a recent bulletin says:—"Peanuts are excellent for fattening hogs and children." And they certainly should be, as they contain 40 per cent. of as pure and wholesome a vegetable oil as can be found anywhere.

Men and women who are out of work and out of means, would do the right thing for themselves to go to people who have work and there work for board, lodging and clothing till they can find paying work. Working for board and lodging and clothing is a preferable every way to a tramp life, and to a life of beggary and pauper poverty.

"The date upon which Easter comes is fixed by a canon adopted by the Council of Nice in the year 325. It must be celebrated on the Sunday next after the first full moon falling on or after the 21st of March. This year the moon will be full on the 29th of this month, and the next Sunday will be on the 5th of April, which will be Easter."
