## A FLOOD REMINISCENCE.

How a Young English Engineer Saved Lowell From Destruction.

one young man. About 1835 a Lowell antiquarian named Uriah A. Boyden devoted much attention to investigating a tradition of a great flood in the Merriremembered that his father marked the in his search until he found the tree in Tyngsboro, several miles above Lowell. Its trunk was hollow, and entering it head wholly concealed by the bark, at a considerable distance above the ground. It showed that in 1785 the water had risen to a point 18½ feet higher than the top of the dam at the mouth of the canal, which furnished the Lowell water power in 1835.

The engineer in charge of this power was James B. Francis, a young Englishman, who urged the directors of the corporation to provide against the recurrence of such a rise of water. His arguments prevailed, and he was allowed to construct two immense wing walls of masonry, diverging from the canal lock and inclosing the entire country between the canal and the river. Over the water way he hung an immensely strong gate, weighing 20 tons, which was suspended

SOME LARGE RIVERS.

lppl No Longer Holds First Place In North America-A River of Writing Fluid-Wonderful Channel of

It is a recognized fact in science that very few great rivers have been therenghly explored by going up stream. For nearly 2,000 years travelers and explorers endeavored to discover the sources of the Nile by ascending that wonderful river. But by the time they had reached the difficult part of the exhausted, and they could go no farther. It is only by seeking the sources of rivers by overland routes that explorers meet with success. It was in this mean-ner that Henry M. Stanley traced the reute of the Kengo in Africa. In this way of procedure Frederick Schwatka was enabled to float down to Yukon and Speke found the secret of the river

One of the most curious rivers that has come to the knowledge of men is the Webbe Shebeyli, of castern Africa, a deep and rapid stream, abounding in strange fish and ferocious crocodiles. Although it flows for hundreds of miles through fertile lands the immense volume of water never reaches the sea. A short distance north of the equator the pany have put on a through daylight river is lost in a desert region a few miles from the Indian ocean.

Some of the more recent explorers of Alaska and British America claim that the Mississippi can no longer be regarded as the largest river on the North American continent. This distinction the head of every financial transact is claimed for the great Yukon river. According to Ivan Petroff, who spent over two years in Alaska, collecting materials for the last census, the Yuken empties into Norton sound about onethird more water than the Mississippi pours into the gulf of Mexico. The Yu kon basin comprises the larger part of northern Alaska, and 600 miles from bread isn't bread exactly when it is first its mouth the river is a mile in width. Many centuries before it was discovered closed in a nutshell about the size of a by white men it very likely served as the water highway into the interior, for tribes that we believe to have crossed is ready for baking. REMARKABLE CHARACTERISTICS OF A TRAVELING GROCERY MAN WAXES ELOQUENT IN PRAISE.

> He Talks of Bread That Grows In Nu Milk That Comes From Trees, Sira That Gathers on Auts' Backs and Light

"Seems to me that I ought to be sorry I went down there, now," said Joh Gilbert, the traveling grocery man, who recently returned from a six weeks' stay in Yucatan. "I don't see how I can go ahead and resume the rounds that my business calls for without s sigh and a regret, that, go where I may stream their supplies and energy were in my native land, I will look in vair for the tree that in those tropical climes gave me light by night, for the tree that gave me my daily bread, and the one that gave me milk for my coffee, to say nothing of the pleasing and bulbon ant that gave me the sweetening for it. Time and cash customers may wear down and blent the edge of this regret, but it is sharp now, and I really suppos that I ought to be sorry I went d

"I didn't know anything about these remarkable specimens of the vegetable and animal kingdoms when I first struck that country, but I noticed that the bread we had in camp was very good and the milk very choice and creamy, while the coffee was deliciously sweetened. One morning I heard the cook of oar party hollering out orders to the

"'Here, you!' he hollered. 'Hurry ain't a bit of milk! Go bore for some right away! And say, you dago over yonder, what's the matter of you training some sugar out o' them ants? "This was a little astonishing to me, and I asked for information. Then

found out all about it. "The tree that gave the bread we at down there doesn't look a bit as if it would do it. But I found out that looks are deceptive under the equator. The picked, but it is a nice, stiff dough in goose egg. They crack the shell, take out the dough, knead it a little, and it to make first rate paneakes out of it.

LEGAL.

6 46 1 41 6 36 1 81 EXECUTOR'S NOTICE.

Whereas Letters Testamentary have been issued in due form by the Register of Juniata county, on the cetate of Barbara App, late of Susquehanna township, deceased, to the undereigned, this is to notify all persons indebted to said estate to make immediate payment, and those having claims to present the same properly authenticated for settlement to

JOSEPH SIEBER, McAlisterville, January 2, 1896.

DUBLIC NOTICE.

In order to change the bonded debt of Juniata county from 4 per cent. inteest, bearing bonds to bonds bearing 3 per cent., the Genmissioners will sell County onds, running from 2 to 10 years to suit the purchaser, bearing 3 per cent. interest clear of all taxes. Interest compons made payable to bearer and are paid by any bank or dealer, a great convenience to the holder. Bonds can be purchased at any time. Parties wishing bonds in the near future will please make application and they will be retained for them.

Address all communications to the Commissioners' Office, Mifflintown, Penna.

Done, January 26, 189\*

W. H. HORES,

NEAR M. STEWART,

WILLIAMSON VANORMER, In order to change the bended debt of

WILLIAMSON VANORMER. W. H. GROWINGER Clerk. Millintown, Pa., Jan. 29, 1896.--8m.
