## WEDDING GIFTS.

"Pooh! Presents!" said the Old Married Man to the bridegroom "Don't think you'll get what you want. I'll tell you my experience.

"As the time for our marriage drew near I used to call at the house every available evening and whisper confidentially to the curly head which exactly fitted my shoulder that I was the luckiest fellow on earth. On one occasion Agnes sighed and murmured dreamily that that was just what she close her eyes!"

"That was on the 5th.

"On the 12th I stopped in a minute as noon to see if she loved me as much as at 11:15 the night before. She replied that she did-that love was unalterable but that she must hurry upstairs now or the dressmaker would get her skirts flute-shaped instead of organ-Bined.

'On the 14th the present began to arrive also the relatives. It became an unsettled problem which of the two were more numerous. Aggie had constast once removed. I had several uncles and aunts. All were well off: in fact, it was a curious coincidence that we were the only poor branches on our respective family trees. I was in an insurance office-fire insurance, not life insurance and when I had communicated to her the news of my recent promotion she had declared in the get worn alike, and I've shut the paper face of her family's unaccountable preference for Henry Walker (who was ot so good a fellow as I am by any manner of means) that to be Mrs. Joseph Lounsbury and live in a small

It is just 300 years since the first potato plants were taken from this country over to London, and the same year Sir Walter Raleigh planted some of them in Ireland. Everybody eats potatoes nowadays, and yet for nearly 200 years the plant was only a curiosity. Occasionally potatoes were served on some prince's table as a great delicacy, often

candied like fruit or spiced. And high ords and ladies wore the flowers as ornaments. It is said that Frederick the

They say, also, that Mexican tobacco is detected easily at sight, and while it may be possible in future years

to produce tobacco for wrappers which will compete with the Cuban article, it will be a long time coming, as up to date no effort has been made by the Mexican growers to cater to this mar ket. The Mexican leaf is thicker and duller in appearance, without the rich

ligars every two weeks. The government statistics also give an important hint in this matter. The total export of filler tobacco from Mexico for 1893 was only 48,451 pounds, of a value of \$11,456; in 1894, 57,840 pounds, valued at \$18,507, while the total amount of wrapper tobacco for 1895 was but thirteen pounds, valued at \$7. This country imported from Cuba in 1898 21,694,891 pounds, valued at \$8,940,058; in 1894, some 14,578,000 pounds, valued at \$5,888,964, and in 1805 some 20,147,000 pounds, valued at \$7,238,474. The total amount of imported wrapper tobacco from Cuba paying duty into the United States treasury during 1895 was 28,130 pounds, valued at \$38,320. These are
