One of the peculiar features at the encampment at Lewistown on Monday, was that Battery C, went to the river and fired over the stream to raise the body of John A. Brennan, a stambler, who had just drowned while bathing. But the cannonading did not bring the body to the top of the water.
Democratic newspapers by the score, and Democratic business men by the hundred throughout the United States, are out plainly against the platform of the late Democratic National Convention held at Chicago. They will not support the candidates of that Convention because of its revolutionary platform.
Many people gathered on Main street last Friday afternoon with the expectation of seeing Lebanon and Harrisburg cavalry on the march to Lewistown encampment, but the cavalry did not come, and some of our citizens who have nothing to do but look the time away, were on the look out all day for the "soldiers." The cavalry were shipped by rail to the camp.
Colonel Moorehead has a number of men at work in his phosphate mines near Lees station on the E. V. R. A train which is about to be constructed from the mines to the mill. The phosphate will not be adulterated with chemical material, and for that reason will be of a quality greatly superior to the phosphates that are so largely made up of chemicals.
Bloomfield Times, July 21.—Tuesday, John W. Rice cut over nine acres of land, which was put out in ryegrass on John Shull's farm, and he claimed that he only could tell where he had cut by the rag weeds being topped, and as he was alone he put the top of the day in coming, and to the best of his knowledge there were nine stalks to the acre, a grand total of about 81. After he had finished, he collected together six sheaves in a sheaf, or 72 sheaves off 9 acres of land.
A paper in McClure's Magazine for August will tell, for the first time, the true story of Lincoln's first meeting with Stanton. They met in the trial of the famous McCormick-reaper patent right case, under circumstances that were very humiliating to Lincoln, and many wild tales were spread of their meeting. The exact facts of it are now given by two men who were associated with them in the trial, and who are probably the only persons now living who know all about the matter.
Senator Tillman of South Carolina, who made himself conspicuous in the late Democratic National Convention at Chicago, by wearing a large silver watch chain, and by wearing a Cuban flag on one lapel of his coat and on the other lapel a pitchfork, and by making a fiery speech, met with a bold fronting on that day killed his eldest daughter near Erevard, North Carolina. Another young lady and Rev. Robert Lee were killed by the same bolt of lightning.
Four years after this in 1900, the planets of this solar system, it is said, will be in conjunction, which will so effect and disturb this planet—the earth, that a general deluge or flood will take place. If you believe that, and don't want to be drowned then, is only one way to escape and that way is by no means a certain way of escape, it is to engage a place on an ocean steamer. If anything can survive a general flood it is the staunch ocean steamer. It was the big boat or ship, ark as it is called that saved Noah and his family.
Democrats by the hundred express themselves against the platform of the Bryan and Sewell democracy. They will vote the Republican ticket in preference to helping men to office, who are expected to carry out the principle of a revolutionary platform. A platform that declares in favor of the old doctrine of states' rights and against the further issue of bonds and in favor of going back to contracts is more than the honest Democrats can stand. Here and there an honest Democrat who does not understand the dangers of such a platform will support it, but the honest portion of the party is against it.

HON. GARRET A. HOBART.

George W. Heck is a number one caterer, and was on hand to supply the good things to eat for the dancing party in Floral Hall on the fair ground last Thursday evening. Among the other substantial things to eat was a boiled ham, which was laid away till wanted on a table at a convenient place in the kitchen. Someone who had a better nose than heart smelled the ham from the outside and reached through a window and made off with the savory piece of pork. Who the thief is Heck would like to know.
The Sewall Democratic Convention at Chicago complained about the mortgages on western farms, but the truth is the eastern state farmers are carrying a heavier percentage of mortgages than the western farmers. If there is any complaint to make, it is the eastern farmers. Here their lands are assessed at a high valuation, and their taxes are high, and they can get but the western farmers get for his grain that he raised on low priced land, and he can ship his grain to the railroad and foreign countries for the same price per bushel that the eastern man pays. If there is howling to be done it should be the eastern man and not the western man. But Bryan is a wind bag, and he blows for himself, no matter whether his statements fit or not the facts.
People, that is some people in this world are hard to please. Indeed they are deterrable not to be pleased with anything and anyone, and they seem to be in a chronic state of criticism of their neighbors. If their neighbors who can afford to have their work done, employ people to work for them, they are denounced as being stuck up and lazy. If they do their own work, they are called stangy. If they are quiet people and do not take part in the general meddling and parties, they are called selfish. If they go to everything that is going on, they are denounced as wanting to make themselves popular. If they don't contribute to everyone that solicits aid, they are denounced as being miserly. If they give to everything that comes along, they are compared to the fool and his money that are soon parted. If they go to church, they are hypocritical, and if they don't go to church they are unbelievers. The chronic critic has a hard time in this world. What will he have in the next?
It was the repeal of the protective tariff that cut down the income of the government below its expenses, and the tariff will have to be increased or the pensions cut down to meet the expense of government.
Reader, which will you vote for: If you vote for the Republican party, and if it comes into power, and if the tariff will be increased and an income sufficiently large to run the government will be obtained. If you vote the Democratic ticket, the tariff will be still further reduced and the income will be less than it is now, and the pensions will be cut off to make up for the loss of income. If you vote for your friends in the west who are falling down and wringing their hands and crying for help, and tell them what will happen if the Bryan and Sewall ticket be elected. If you help to defeat the Republican ticket and the day of adversity comes upon you by a withdrawal of your pension, you need not come around to Republicans to ask them to turn in and labor that the pensions be not knocked off.
The Newport Bank Troubles.
NEW BLOOMFIELD, Pa., July 20.—The Newport Deposit Bank closed its doors in March, 1895, owing its depositors about \$250,000. Efforts to compromise with depositors having failed, on information of Jacob S. Soper, a warrant was issued to-day for the arrest of Thomas H. Milligan, the president; J. Holmes Irwin, the cashier; and Henry O. Orin, Dr. William R. Ciska, Dr. Henry O. Orin, Silas Wright and Charles Troutman, directors. They are charged with embezzlement in having received deposits from Milton B. Eshelman, Charles T. Rice and David Frothero at a time when they knew the bank to be insolvent. Constable Ben Glouner went to Newport this evening to make the arrests. Bechtel and Ciska, two of the directors, are at present residing in Cincinnati and Chicago, respectively.
When the Deposit Bank closed its doors, it caused a decided shock in Perry county. It had not been long since another Perry county bank had failed, owing depositors many thousands of dollars. The President of that institution was convicted of embezzlement and sentenced to a term in prison.

Hardware
THE HARDEST WAY POSSIBLE
to get along in the world is to buy 'real cheap things. As a rule, the less you pay, the more it costs in the long run.

We don't boast of "cheap" prices at this Store, and still quality considered, we sell at prices that ought to interest careful buyers.

COOK STOVES. We control the Sale of
RAYMOND & CAMPBELL
cook stoves in this county. We have never heard a woman complain who bought one of these stoves. Every buyer has agreed on four things:

The Stoves Cook better, they bake better, they are easiest to regulate, and are less trouble than any other stove.
We have them in four sizes. Prices range from \$15.00 to \$28.00.

EVERY WOMAN KNOWS
how easily things get "scratched up" around the house. Sometimes it's a chair or a table or a deer. More than half the time, the scratches are neglected, because it seems hardly worth while to send for a painter.
Why not do the work yourself. You can

Get Prepared Paints all Ready
to use at a trifling cost. You can brighten up furniture, doors, flower pots, buggies and lots of other things.
We keep these prepared paints in all the colors. And we sell paint brushes, too—good ones.
The paints come in tin buckets, holding 1/2 P. The price is 15c.
