The Ineffable Word That Is Never Spoker by Mnoy Israelites.

The Rev. Dr. Wise, president of the Hebrew Union college at Cincinnati, has given his view of the ancient Jewish rendering of the name of the Deity. He says that the term "Jehovah," th ineffable tetragrammaton, is never pro nounced by many Israelites. They use the word "Adonci," which signifies "the Lord." The translators of the Bible followed this custom, rendering the word "Jehovah" as "Lord." In ancient times the Pharisces replaced the tetragrammaton by Shem. They used "Shemo," which is also Biblical, as from the sacred name, and this name is yet retained, to some extent, among the

Jews. But it would appear from pas-seges in the Psalms that Adonoi, or Lord, for Jehovah was more abcient even than the times of the Pharisces. It thus occurs eight times in Paalm lxxxiv. It also appears in the book of Exodus, where "Jehovah" had been used in the original Hebrew. This substitution would seem to be older than any other, and it is yet common among all Jews Dr. Wise says he has found that the ancient translations testify in favor of "Adonoi."

Looking at the English translation of the Old Testament, it will be found that the name Jebovah appears in the books of Genesis, Exodus, Judges, the Psalms and Isaiah. It is not in the New Testament -New York Sun
