The Jews are displeased with President Cleveland, because he manifested the name of Christ in his Thanksgiving proclamation. The Jews should behave themselves. This is distinctly a Christian nation, and when Christians pray they generally recognize their mediator Christ. There is liberality and toleration in this Christian nation for all creeds and religions, and the Jews should not get saucy over their privileges. If the Christians were as arbitrary as the Jews when they crucified Christ, there would be no Jews in this Christian land.

Mrs. North, wife of Hon. James North, died about noon on Thursday, November 19, 1896, aged about 75 years, after a long illness. Mrs. North came from an old family in Juniata named Strauss, who owned extensive lands in the valley across the river from Mexico. She and her husband Hon. James North, journeyed pleasantly and successfully down the valley of life from the day of their marriage, which was in their early youth, into the sea and yellow lead of old into the future and better home, leaving to mourn over her departure Mr. North, her sons Herman, Caleb and Washington, and daughters Mrs. Kreider and Mrs. Jacobs. During many years with her husband, she was a member of the Presbyterian church, and the eligions services of the funeral were conducted by Rev. A. N. Raven of the Mifflintown Presbyterian church on Saturday. Interment in the Presbyterian cemetery.

Some newspaper man's estimate of Li-Hung Chang is expressed in the following sentence:—"He acted like a ten year old boy in America. He asked our women how old they were; how many children they had, and why they did not have more children or words to that effect, and if he had not been worth \$600,000,000 and America had not been looking for some of it to fall this way, he would have been treated like any other pig tail in America."

On the 18th inst., "the Rev. Mr. Fitzgerald, pastor of the Reformed, Dunkard Church at Masontown, Pa. and Miss Emeline Freeman and her father and brother were arrested under circumstances that caused a sensation. The girl is charged with the murder of her infant, and her father and brother with conspiracy to conceal its murder and Mr. Fitzgerald with criminal intimacy with Miss Freeman."

Miss Fritzman was brought to jail and the three men gave bail. Fitzgerald came to Masontown from Virginia a year ago and has a wife and two children."

A newspaper man says:—"The Cuban war is simply a question of finance not of fighting. Spain is big enough to crush out every cane bush, as well as every insurgent in Cuba, if she can raise the money to pay and provision the troops required. But Spain has a mighty big job on her hands. It has already been clearly proved that the Cubans are greater fighters, greater strategists and a greater people. Whether Spain can raise enough money to pay enough men is something about which the world is guessing."

It has been a source of quiet remark among students of history that Thanksgiving proclamations rarely mention the name of Christ. While observing read news we noted that fact, they have studiously refrained from talking about it in public. President Cleveland's late Thanksgiving proclamation is an exception to preceding Presidential Thanksgiving proclamation and makes mention of Christ, which has so aroused the Jews that a Cleveland Ohio Rabbi says:—"I believe the President exceeded the prerogatives of his office, and all precedent by making reference to a mediating influence in religious affairs. The Jews recognize no mediator between God and man. I do not believe that the President was influenced by biased motives, but his proclamation could be construed as a secular declaration."

It was a narrow escape that Traction made from the appointment of a receiver last week in the United States Court. How long it can escape that fate time will reveal. According to the lawyers for the people who were asking for the appointment of a receiver, the thing is loaded to the muzzle, and the Roebing's sons explosion is only the first load or report that indicates what is back of the present action. It is a good deal like the old lady's gun, which when shot off kicked her flat on her back. Her husband quickly exclaimed, "My quiet Maria, the gun is loaded to the muzzle, and the knock down is only a slight beginning. There are two more to come. That is the way in the case before Judge Dallas. The case in his court was only the report of a twenty-six thousand dollar claim, whereas the lawyers say there are over twelve million dollars paper issued, enough to load the concern to the muzzle, and insure a going explosion when the thing goes off. It is no wonder the court laid it off carefully for future developments."

NO RECEIVER YET. The application for the appointment of a receiver for the Pennsylvania Lumber Traction was not granted by Judge Dallas in the United States Court before whom it was argued on the 18th inst. Counsel for the appointment of a receiver in the interest of Roebing & Sons has undertaken to present bonds, alleged that bonds had been appropriated to other uses than the purposes required by the mortgage and that there had been a default in the payment of interest and that securities amounting to over twelve million dollars had been issued, an amount far in excess of the value of the concern. But with all that presentation Judge Dallas refused to appoint a receiver for the concern, giving 21 as follows:—"I have carefully read the affidavits submitted," "and it may be conceded that a state of affairs may arise to legitimately call for the assumption by the court of the custody and care of the property of this company; but that an impediment exists for such action immediately exists, has not been shown. There is room for substantial doubt, as to whether the appointment of a receiver under the existing circumstances, would not be productive of more harm than good, and this being so, it is my opinion that the duty of the court to withhold its hand, especially as the defendant's objection to his interference has been supplemented by that of the mortgage trustee, and by the emphatic protests of several creditors in considerable amounts."
