The stock holders of the bank have means and are honorable men and will make good the loss though it will cost them more than one hundred thousand dollars.

Mr. Daniel Lyons of near Ikesburg, Perry county was hurt by a fall from a passenger car at Millertown about 5:43 o'clock last Saturday evening. Mr. Lyons had been visiting his brother Judge Lyons in this town and took the 5:10 p. m. train to go to Millertown. He arrived there and has no further recollection than that he stood at the car door waiting for the train to come to a stand still.

How he came to fall off he does not know, but the probability is that a sudden jolt of the train pitched him headlong off. That conjecture is sustained by the fact that the scalp of his head is bruised and cut. He was found in an insensible condition on the track over which a freight train had passed not a minute before he fell off. Had he fallen while the freight train was passing he would have been killed. He was carried into the station house and after some time consciousness was restored, but he knew nothing whatever of what had taken place.

The time between the time he stood in the car door and the return of consciousness was a blank to him, just as if it had never happened. He remained at Millertown over night, and on Sunday morning went up the valley to his home, seemingly none the worse from the accident.

A musical and educational entertainment by the Swedish Quartet and Miss Webb and Miss Shoemaker. The Quartet was good. The ladies were hard to equal. Miss Shoemaker's elocutionary deliveries were of the kind that require every limb of body and muscle of face to talk or give expression. She talked not only with her mouth, but with her whole body, and every oral expression and every facial expression and every expression of body proved the rigid training to which she had been subjected. She captivated her audience. They were spell-bound by her delineation of character. In her elocutionary deliveries she follows the French Delsartian elocutionary system of talking all over the mind and every feeling of the heart can be expressed by the muscles of the face and by the action of the body, and he laid down a system of rules by which his system of elocution may be taught. It would be a sight to witness a whole institute go through the bodily expression of love, hate, jealousy, joy, sorrow, exultation and so forth as laid down by Delsartian rules, November 27.

Forenoon.—Miss Maggie R. Kinzer in an able address presented the question: "Can I teach my boys and girls to govern themselves." The following teachers participated in the discussion of the question: "Carrie Guss, Bertha Cramer, J. S. Zimmerman, Mary E. McMeen, Mary Thomas, E. P. Brent, J. H. Carney, M. S. Esh, W. S. Keiser, J. M. Barton, A. M. Barner, W. E. Amman. The question or discussion was closed by Miss Maggie R. Kinzer.

Professor Twitmyer discussed the subject: "Some things the Schools must do for the pupils," after which Professor Deitrick resumed the consideration of the subject: "New sight on the Nervous System." Afternoon.—Professor W. P. Dick gave a closing talk to the Institute, which was followed by Professor Twitmyer's farewell address and the resolutions.

Whereas God in his goodness has again permitted us to meet in our annual Institute, we therefore render to him thanksgiving and praise for the mercies of the past year, and crave his continued blessing upon us in our work as teachers. Thanks to the chairman of the committee upon study for his trouble in procuring the books so that all might procure some before leaving the Institute. The resolutions were adopted. Superintendent Marshall then addressed the institute upon the "Dignity and Importance of the teacher's profession."

The Institute sang "Love at Home." "Don't count Your Chickens before they are Hatched." "Nearer my God to Thee," and then adjourned sine die. The Friday evening lecture by Rev. A. N. Raven, subject—"The Old Woman and the New," was an elaborate production, reviewing woman from a primitive state to the position she holds in modern civilized society, on to the glorified state in the church triumphant. A large audience was present and listened with marked attention.

To Fix the Price of Wheat. The Washington Post says:—"A conference of nations on the subject of the world's wheat market is understood to be desired by at least one of the great foreign wheat growing empires. It is stated in official circles here that Russia is particularly friendly to such an idea, and is believed to be making overtures not only to the United States, but to England, the Argentine Republic and Australia. The idea suggested, as outlined here, is that these nations should see fit to unite in an agreement upon the subject, could fix a price for wheat, to be maintained uniformly through various seasons of overproduction and underproduction, crops, caused by drought or continental rain, and thus make the principal grain staple upon which the millions of people depend for food almost as unchangeable in value as gold itself has become. This would, it is argued, enable the producer in case of an unusually large crop to store his wheat and obtain thereupon a loan that would tide him over until the wheat was in demand in the world's markets, when he would receive a full and fair price for it."

that have tails like monkeys. The explorer came upon a group of people with tails, who instantly took to flight with the exception of one individual who was gathering honeycombs in a tall tree. When he saw the travelers he came down the trunk with his foot flat on the bark, apparently not using his tail, and attempted to escape, but they had surrounded the tree, and after a struggle captured him.

Some of the party understood the Mal language, for D'Enjoy tells us that the wild man gave them some information about his people, though interrupting his discourse with sobs and howls. All his race, he stated, formerly possessed tails, but they are no longer universal appendages, because many of the tribe had ceased to be of pure Moi blood through intermarriage, especially in the case of those dwelling in the outskirts of the country with tailless tribes.

The wild man's companions had escaped, but they left behind them in a long, tunnel shaped hut built of dry leaves, some polished stones, ban and copper pipes, copper bracelets and beads collars. These were said to be obtained from Annamese neighbors, with whom they occasionally trade. They bury their dead and bury the ashes in bamboo pots. The prisoner was extremely savage in aspect, and that is the character of the race. Their hair is exceptionally rough, sticking out like spurs of coaks, and the surrounding people treat them as savage beasts and apes, so that they are being gradually exterminated.

THE ONLY True Blood Purifier prominently in the public eye today is Hood's Sarsaparilla. Therefore get Hood's and ONLY HOOD'S. PUBLIC SALE. Thursday, December 10.—Mrs. J. S.
