No Use For the Metric System

We have little to learn or gain by dopting the measures of continental Europe. Three-quarters, or nearly so, of the commerce and traffic of the world is carried on by some form of appliance, whether moved by wind, water or steam, which has been built from English measures by some English speaking people, and the proportion is all the time increasing. Why adopt another and more incon-

venient system which will render all systems of serew threads, gear teeth, NOTICE. foundry patterns, shop drawings, etc., obsolete, as well as shelving the most valuable collection of mechanical literature in the world and requiring attree in the world and requiring at the world and requiring at the world are the world and the world are purposes in a far more convenient of May Anno form than we should obtain from hundred and seventy-one. the introduction of the meter and T. The word despot originally mean master or lord. At a later period it became an honorary title, bestowed by neans of cure. To those who desire it, he find a sure cure for Consumption, Ashma, Catarrh, Bronchilis and all throat and lung Maladies. He hopes all sufferers will try his remedy, as it is invaluable. Those desiring the presc, iption, which will contain the presc, iption to the p the Greek emperors on certain governors of provinces. Now the word con veys the idea of tyranny, though, strictly speaking, it merely means an absoormer times deformed people othing, and may prove a blessing, will equently thrown into prison to cont of sight.
