And change of nature is change of place

HAPPENED DURING A NAF

General Frederick Holliday, my uncle, served his country in the field from the opening of the civil war to its close. Horses were shot under him; comrades fell dead at his side, but neither steel nor lead could touch him. Yet his name was written on a bullet.

It was a drowsy summer afternoon. I lay in a hammock under the trees before my uncle's house, called Sunnyside, on the banks of the Hudson, some but I was so near to sleep that I had

not the energy to turn my head to see who it was. I supposed, however, that it was Captain Charles Marshall, the My feeling for Marshall was not cor- of Bernard Kelly.

dial. I would have preferred to have seen Margaret engaged to Horace Pro- she had left Marshall alone in the parble, whom I liked exceedingly. A few minutes after the steps which

suddonly remembered that the General had asked me to confor with him upon On the afternoon of that day I had a matter of business that afternoon. I called, an apartment extending the fuil length of one side of the house.

At one end was the General's desk, ly. When we searched the desk, under indications that Margaret often kept her father company in the long room.

It was under his direction that we at last began to make an investigation of the tragedy. We had alreay telephoned the police of West Point.

Evidently the extraordinary circumstance-the seemingly impossible detail which distinguished the case from all other mysteries-was the presence of Margaret when the shot was fired. She told us that she had come to the long room immediately after luncheon. Herfather had come in, very soon afterward, and had gone at once to his desk. She must have fallen asleep immediately, and she remembered nothing more till the moment she saw me standing before her.

"This is beyond bellef." said Hilton. "It is utterly incredible that Margaret should not have been awakened by the report of the weapon, but it is even more preposterous to suppose that any human creature could have had the hardthood to commit this crime right before the girl's face, even though she slept.'

"He might have felt sure that she I noticed that his cold gray eyes scanned Hilton's face narrowly.

The suggestion seemed to escape the offysician, but it came like a blow to me. Margaret's sudden and deep sleep. in plain sight was all that money. drugged her food. But Margaret's sleep might have been

natural in the beginning. Then some one might have come noiselessly to her side, as I had done, without disturbing run for it." her slumbers. He might have caused her to inhale some soporiferous vapor which would have dulled her senses while the murderous deed was done.

"They make powders nowadays." said Marshall, "which develop extraordinary energy but very little noise. I think it possible that a weapon so charged might have been fired in this heard by anybody but the murderer. It others seemed equally at a loss, end of the room and not have been is extremely improbable, but we must

not forget the fact." "Where yere you?" I asked, with unintentional rudeness.

"I was in the parlor with Mrs. Holliday," he said. "And your question reminds me of one that may be pertinent. the body, should you think it likely that place where it came in." General Holliday was shot after Margaret left this room ?"

"Gentleman," I said, "we waste time with suspicions. Let us confine ourselves to the facts in the case."

There is a police officer in West Point n detective. His name is Bernard Kelwas sent out from Sunnyside Kelly arrived.

First, we questioned the servants. Three of them believed that they had your laboratory on the other side of the heard a sound like a pistol shot about the time when the crime must have been committed. The other three were sure they had not.

Hanley, the butler, was nearer to the long room during the critical period than any other person not actually he had seen something of consequence, walking away from the bouse,
