The Altoona Tribune, has such an unutterable feeling toward the Turk for his treatment of Christians who are so unfortunate as to be under Turkish rule, that it is about ready to consent to send the American fleet over to Turkey after we have finished with the Spaniards. If the Tribune keeps on it will not be many moons till it has placed a chip on its hat, defying all the oppressors in the world.

Philadelphia North American—"Madam," said the British Consul to the Philippines to a Spanish woman who had expressed to him her fears with regard to Americans, "honor and virtue are safer in Manila to-day than they have been for three hundred years."

Shall this safety be definitely assured, or shall we suffer a return to the old conditions by relinquishing a control of the islands?

The new woman is coming to the front not only on the farms, in schools, stores, in the pulpit, at the bar, and as doctors but she is engaging in the trades. Philadelphia has a woman brick layer. If the men don't soon quit their ways of wasting time and money, lounging round, gambling, playing ball, pool and billiards during work hours, the women will gather up all the places.

Mr. Kurtz Kauffman, residing near this town had to have a horse killed on Saturday. Handling hay was going on when a strong wind load was hurried into the barn, the horses were hurried off the floor, and in the confusion incidental to the occasion, one fell over the side of the wall of the barn bridge, and was so hurt that it became necessary to kill the animal.

They are hunting for Andree in the North Pole region. It is the old story, of a man going to hunt the North Pole, and after that some one goes to hunt the man. A certain way of solving the pole question can be found in establishing a line of cabins a quarter or half mile apart and each cabin well supplied with fuel and provision. A good deal of money would be required for such an enterprise. A line of 1200 cabins would settle the question.

George H. Stevens, a former professor in Lafayette college, was caught in the act of smashing eggs in Lafayette hall the other night. He confessed to a number of outrages committed about the school since his services were dispensed with, among them was the firing of Pardee Hall. He says he was inspired by the spirit of revenge to commit the acts. A new inspiration has been given him, that is the inspiration of the law, and under the law he has been sent to jail for his outrageous work.

On the evening of the 18th, Willis Bingham a nine year old son of Mr. and Mrs. J. Irvin Bingham, of Sanbury, in attempting to cross the railroad, was run over by a train of cars, and had his left limb so badly mangled that amputation was necessary, above the knee. The little fellow got his foot fast at the rail and that is how he came to be caught. It appears no one noticed the railway to the child and the little fellow, unaided worked his way off the road to a switch and was there discovered by W. H. Zimmerman, foreman of the Sanbury item. Mr. Bingham, the child's father, is a relative of Mr. William Luck and Mrs. James McCauley, of Mifflintown.

William J. Dennis, died at the home of his son-in-law, Professor W. E. Auman, last Monday morning aged 81 years, 7 days. Mr. Dennis was born in Maryland in 1817, and came to Juniata some time in the forties and engaged in the falling business at Evans Mills in Delaware township, many years. He was twice married, his wives preceded him many years into the great beyond. No children were born to the first wife. Two children blessed the second marriage. Emma C. wife of Professor Auman, of this town, and Cornelia J. wife of Mr. Wood, of Los Angeles, California. He was a member of the Methodist church many years. He lived the past ten years with Professor Auman and family. He has one brother that survives him, Augustus Dennis, a citizen of Wilmington, Delaware. Augustus is two years younger than his deceased brother, William J., and came to Mifflintown on Monday morning, two hours too late to see his brother alive. The funeral takes place at 2 p. m., this Wednesday. Interment in the Presbyterian cemetery.

An Indian from Carlisle school lost his life on the railroad about 7 o'clock last Saturday morning. He attempted to board a west bound freight train at a point between Mechanicsburg and Thompsons. He attempted to get on the car next to the last one. He caught hold of the iron hand bar, but missed the foot step and his hand grip was not strong enough to hold the weight of his body. In the jerk that followed the rail of the foot step, his hand bar was broken and his body was swung between the cars, fell upon the rail. The car wheels of the hand car passed over his abdomen, cutting him in two pieces, not a thread of flesh, or muscle, or bone was left intact. His left arm at the shoulder was severed as completely as was his body. There was a large hole in his forehead. Death, doubtless came instantaneously. He was clean and well dressed, and had a blanket with him. His shoes were good, calf skin shoes, and appeared as if they had just been worn on a long distance.

Undertaker Rable, of this town had made arrangements to have the body placed in Union cemetery, when he received a despatch from Captain R. H. Pratt, of Carlisle Indian School, to send the body to Carlisle. It was an ugly job for the undertaker to put the body of the dead lone Indian in presentable shape but he did it, and shipped it by the 4:45 p. m. train, and it probably reached Carlisle about 9 p. m. It is not known how the Indian came to be at that place on the railroad. Some conjecture that he walked across the country from Carlisle, on Friday night and Saturday morning striking the railroad where he attempted to board the freight train and was killed.

This is the time of the year that the average boy robs birds nests. Some one writing on the Prehistoric Man, says, when a boy robs a bird's nest he is following an instinct inherited from his ancestor the pre-historic man. So when your boy robs a bird's nest, think about what you are doing. Doubtless, long ago, the pre-historic man did such things. Your son gets the feeling to rob the nest from no stranger. Don't whip the boy, but teach him that it is not the thing to do in this day and generation. Perhaps your pre-historic mother, spent a part of almost every day among the reeds and bushes for a nest of eggs upon which to make a meal for herself and your pre-historic father, however, as the proclivity to rob birds nests is confined almost exclusively to boys, the probability is, the pre-historic mother was not habitually engaged at that work. Possibly she was making a fire to cook the eggs on.

FOR HUMANITY ON CUBAN SOIL.

On the 27th of June 3000 of General Sufier's United States troops landed at Daiquiri, 17 miles east of Santiago, under a pre-war fire of the guns of San Juan.

The harbor at Daiquiri is deep and clear. One thousand of General Cervera's Cuban troops kept up a rifle fire on the Spaniards that were opposing the landing. There is a good road from Daiquiri to Santiago, by which the Americans expect to get in the rear of Santiago, and compel the surrender of the city and the fleet of Cervera that lies in the front of the city. On the 22nd 3000 more troops were landed and pushed forward. By day light on the morning of the 23rd, the last man of the array of 16,000 American troops under General Shafter had landed. Sampson's war ships were strung along the coast a distance of 20 miles, and like the Irishman, wherever he saw a Spanish head he banged it. The army advanced at the first landing point—Daiquiri—expecting a flank movement on the Spanish left, driving the Spanish troops from the field. They fired the town when they left, but most of the buildings, which are not of much account were saved. Several houses such as the North American soldiers are used to are not built there. The people, negroes, and mixed races came out of their hiding places when the Americans occupied the place. In the first battle at Daiquiri in which the Spaniards had about 500 men engaged, and the Americans about 200 and the Cubans about 50, the Spaniards had 60 killed including two officers, 16 wounded, 18 prisoners. The Americans had 2 killed and 3 wounded. The first movement on the flank to turn Santiago was a success and the Spanish troops fled for fortified places nearer Santiago. On Friday June 24 our advance line, less than 10 miles away from Santiago encountered the Spanish line 2000 strong. The American line was composed of troops from the first cavalry, tenth cavalry, and Roosevelt's rough riders, in all about 1000 dismounted cavalrymen. The battle was in the bushes. The Americans drove the enemy back in to the city, but with the loss of 16 killed and some 60 wounded, among them several officers. General Young was in command. The loss of the Spanish found dead is 37, and scouts from Santiago tell that five wagon loads of wounded were brought into the town. The first American to fall in the fight was Sergeant Hamilton Fish, Jr., of New York, one of Roosevelt's rough riders. He had shot a Spaniard who was firing Indian style from behind a bush. A bullet struck and passed through his breast. He was conscious, and in the 20 minutes that intervened between the time he was shot and the time he died he preserved his watch to a soldier friend. The wounded were gathered into the hospital, and the dead were all laid in one long grave, each one wrapped in a blanket. Among the wounded are Major J. M. Bell, of the First Cavalry, of Blair county, Pa.

Dr. David Kennedy's Favorite Remedy CURES ALL KIDNEY, STOMACH AND LIVER TROUBLES.

Some Pointed Questions

Does your urine contain any sediment? Is the lower part of your back sore, weak and lame? Does your urine have a whitish, milky color? Is there a smarting or scalding sensation in passing it? Does it pain you to hold it? Do you desire to urinate often, especially at night?

If you have any of these symptoms, your kidneys are diseased and your life is in danger. More people die of such disorders than are killed in wars.

Dr. David Kennedy's Favorite Remedy is a direct and sure cure. It goes straight to the seat of diseases in the Kidneys, Bladder and Blood. It hunts out and drives from the system all the impurities that cause pain in the back, Stone in the Bladder, Bright's Disease, Urinary Troubles, and diseases of the Stomach and Liver. It acts at once. There is no long waiting to see if it will help.

"For years I suffered with my kidneys," writes THOMAS QUACKENBUSH, of Pittsfield, Mass. "The pain in my back was so severe at times that I was obliged to keep to my bed. I suffered awfully when passing water, which was often discolored with blood. I tried almost everything in the shape of medicine, but nothing seemed to help me. One day I got a bottle of Dr. David Kennedy's Favorite Remedy and used it but a little while when it braced me right up. My back became all right, no pain at all; my water cleared up and passed from me without pain, and I grew better in every way. I consider it a great medicine, as it has done wonders for me. My wife uses it for female complaint, and thinks it's the finest medicine in the world."
