Mantock, of Coolanum, Juniata county, has almost cured her husband, who is in the hospital at Santiago, by sending him word that he is the father of three new boy babies, and that she has named them Dewey, Schley and Sampson. Where else in the world, than in the United States of America, are the soldiers that can and will fight, 90 hours without sleep or rest, as did the American troops fight before Santiago. After that it was no wonder the Spanish soldiers were ready to surrender. "Papa," said little 4-year-old Margie, "I think you are just the nicest man in the whole world." "And I think you are the nicest little girl in the world," replied her father. "Course I am," said Margie. "Ain't it queer how such nice people happen to get into the same family?" When the neighborhood heard of the transaction, it became excited and wanted to find out who did the act. Clara had been told that babies were made from the dust of the earth. One day when the rain was falling in torrents she stood gazing sadly out of the window. "Why, Clara, what makes you look so sad?" asked her mother. "Cause," she replied, "I've been wanting for a little brother to play with and now there won't be any dust left to make one." Diseases, social movements, religious movements, political movements, wars, appear in waves. Just now it is the straw ride wave that is sweeping over the country. Exchange papers straw all points of the compass report straw rides indulged in by boys and girls of 12 to 18 years old. So then the straw ride that have been indulged in by young people in and about Mifflintown, are but an impulse of that kind of social wave movement that is rolling over the country.

On the 20th of July, Jno. C. Coulter, of Wayne township, Mifflin county, had a valuable cow and a heifer two years old both struck and killed by lightning. Kinch, of McAlisterville, fell off a freight train of cars on which he was a brakeman, on the Union Pacific Railroad, at Rocksprings, Wyoming station, on the 21st of July. He fell in such a way that both his legs were run over and cut off by the train. He was taken to the hospital at Rocksprings, where he died. His remains were received at this station by Undertaker Snyder, on the 27th of July, and taken to McAlisterville where the funeral took place on the 28th of July. Interment in the McAlisterville cemetery, by funeral director Snyder. The average school teacher allows his pupils to grow into the belief, that when they acquire an intellectual training they are fitting themselves for a position in life where work is not required of them. Such training is misleading. To secure an education requires hard work, and every occupation after education requires work. There are only three ways for a young man or woman to secure a position that is free from work. First, work hard and save all money made while young, to live a life of ease when old. Second, by inheriting a fortune. Third, by marrying a fortune. About midnight on the 22nd inst., three masked robbers broke into the house of Peter Kantz, aged 77, living a mile north of Selingsgrove, and demanded money. Mr. Kantz refused to give his money. They bound him to the bed with ropes made of the sheets of the bed. Afterward they went upstairs and bound his sister-in-law, a lady who is about 60 years old and an invalid. They also bound his grandson, a boy 10 years old. Then they ransacked the bureau drawers and other receptacles finally finding a pocket book containing about \$100. This they took and some clothes, and left the house, leaving no trace of their identity. Tact is a great quality and to a certain degree may be cultivated. With some people it is natural, and they can employ it to their satisfaction, and good of others, as in the case of a woman in a neighboring town. Her husband had contracted the habit of staying out late at night. Without cause he was jealous of his wife. She was a tactful woman and determined to take advantage of his jealousy to cure him of his staying out so late. The first night when he had hit upon that plan of curing, when he knocked at the door, she whispered through the key hole, "Is that you, Willie?" Her husband's name is John, and he stays at home every night now and sleeps with one eye open and a revolver under his pillow. Bloomfield Times July 29.—The reports that reach us from various parts of the county indicate that the peach crop will not be one quarter of what it was last year, while the apple crop is generally nearly an entire failure. An important decision and of general interest, has been rendered by Judge Lyons of this district, who was on the bench in the Columbia court, at Bloomsburg, when the now celebrated case of John H. Eisenhower, the deposed principal of the Centralia public schools, was tried. Eisenhower was elected principal for a term of three years, and when he had served one year he was ousted without any charges being brought against him. The court awarded him nine months' salary, \$785, with interest and costs, and under the decision he can recover pay for the full term of three years. DELIGHTFUL VACATION TRIP. In the matter of the exception to the report of reviewers appointed to vacate a road laid out in Tuscarora and Lack townships, beginning at or near the upper railroad station in East Waterford and ending at or near the residence of Samuel Smith in Lack township, the Court handed down an opinion dismissing the exceptions to the report of the reviewers. In the assigned estate of Michael Shelley, of Delaware township, the report of the Auditor making distribution of balance in hands of Assignee confirmed as is. In the matter of the estate of George Waldsmith, who from long absence is supposed to be dead, letters of administration having been ordered by the Court it was also ordered that the money in the hands of the Court be paid to the Administrator. When the Kidneys, Bladder and Urinary Organs are in a healthy state, a person is practically disease-proof. Sickness can hardly find a foothold when these organs are well and strong. The Kidneys sift and strain from the blood poisonous and waste matter. When they are weak and diseased, the poisonous particles do not pass off, but remain in the system. They cause pain in the small of the back, Stone in the Bladder, and Bright's Disease. It is easy to tell if your Kidneys are disordered. Put some urine in a bottle or glass for 24 hours. If there is a sediment, you have Kidney disease. Other signs are a desire to urinate often, particularly at night, and a smarting, scalding sensation in passing water. Nothing is so good for curing diseases of the Kidneys, Bladder and Urinary Organs as Dr. David Kennedy's Favorite Remedy, that grand medicine which has been before the public for over 30 years.
