Gamblers' Jonaha Every follower of the races firmly believes in a Jouah. Every man has his particular Jonah, and there is great dodging about to avoid meeting the unlucky man, who is generally a good fellow, but whose tips, while well meant, and given with the best intention in the world, invariably go wrong. Any reader who follows the horses can name his Jonah off-hand, and will tell you now, nine times out of ten, an apparently sure-money bet is lost through

Writing a Well-Known Song. Sir Arthur Sullivan says that he wrote his "Lost Chord" while watching at the bedside of a sick brother. One night the patient had for a time fallen into a peaceful sleep, and as Sir Arthur was sitting as usual by the bedside, he chanced to come across some verses of Adelaide Proctor's with which he had once before been very much impressed. Now, in the stillness of the night, he read them over again, and almost as he did so he conceived their musical equivalent. A stray sheet of music paper was at hand, and he began to write. Slowly the music grew and took shape, until, becoming quite absorbed in it, he determined to finish the song. In a short time it was complete, and not long afterwards in the publisher's hands. It is estimated that not less than a quarter-million copies of this song have been published.
