They had an election in Seneca, sometime since; the people who were voted down said they were cheated and forthwith began to drive their opponents out of office. The German consul at Seneca took sides with those that took arms. An American was Judge of the Supreme Court. He was compelled to flee for his life, and that is how trouble between Germany and the United States at Seneca began. The men at arms also antagonized the English at Seneca.

One of the incidents of the United States Senatorial contest at Harrisburg, last week, was Representative Skinner, of Fulton, rising in his place to explain that it was not he, as reported that had invited or called upon Senator Quay at night. Representative Skinner seemed to be laboring under the impression that to call on Senator Quay implied something improper. It must be a queer state of affairs at Harrisburg when men of different politics cannot call upon each other. Why can't democrats call on Senator Quay, and why can't republicans call on honorable Mr. Jenks, or any other reputable men of different political views. Harrisburg must be a queer place if it forbids men of different political views calling upon each other, or talking to each other. If Mr. Skinner did not like the report that had been circulated about him, certainly no one should find fault with him for explaining. But how much good he might have done other weaker men, who have not the courage of their conviction as he has, if he had added, I deem it my right, and I shall exercise that right to call on Senator Quay or any other citizen at such time and place as courtesy or business or social affairs may seem to dictate.

CALIFORNIA.  
Extraordinary Tour via Pennsylvania Railroad.  
America is a great country. In variety and grandeur of natural scenery it is unrivaled. To traverse it, to behold its diversities and its wonders, is a liberal education, a revelation to the immature metropolitan citizen. The Personally Conducted Tour to California under the direction of the Pennsylvania Railroad Company, which leaves on February 9, affords a most excellent opportunity to view the vast variety of a boundless beauty of this marvelous land. The party will traverse the entire route in the model Pullman train of smoking, dining, sleeping, and observation cars exhibited at the World's Fair, Chicago, and subsequently at Atlanta, Nashville, and Omaha. This train will be placed in service for the first time on this occasion, and will be in charge of a Tourist Agent and Chaplain, who will look after all details of the trip, as well as the individual welfare of members of the party. Stops will be made at Mammoth Cave, New Orleans during Mardi Gras Carnival, El Paso, La Argelle, San Diego, Redlands, Riverside, Pasadena, Santa Barbara, Monterey, Del Monte, Santa Cruz, Mount Hamilton, Menlo Park, San Francisco, Salt Lake City, Glenwood Springs, Colorado Springs, Manitou and Garden of the Gods, Denver, and Chicago. Nine days will be spent in California, a round-trip rate, including all necessary expenses during entire trip, \$400 from all points on the Pennsylvania Railroad System east of Pittsburgh; \$395 from Pittsburgh. For itinerary and full information apply to ticket agents; Tourist Agent, 1196 Broadway, New York; or address Geo. W. Boyd, Assistant General Passenger Agent, Broad Street Station, Philadelphia. 3 w.

SOMETHING FOR NOTHING.  
We have heard of the boy who wanted to eat his cake and keep it too, but never before of a business man who sold his goods and then gave the purchaser credit for the amount paid. To learn about this send to JAMES VICKS BROS., of Rochester, N. Y., who agree to do this in their Guide. The Golden Wedding edition of Vicks' Garden and Floral Guide is certainly an artistic work, with its twenty-four pages lithographed in colors, and nearly one hundred more pages filled with handsome half-tone illustrations, photographed from Flowers, Fruits, Vegetables and homes.

While this Guide is really too expensive to give away, they give it with a Dne Bill for 25 cents worth of seeds for only 15 cents. Another new feature is the doing away with the old packet of Vegetable Seeds and stating the quantity in each case, the buyer getting more for his money.

A FENCE BETWEEN LAND HOLDERS.  
Thomas J. Edge, State Secretary of Agriculture, in reply to a question in reference to line fences in this State, says: "The act of March 11th, 1842, is very clear in its provisions to maintaining line fences. In all cases where the land is or has been 'improved' they must be erected and maintained at the joint expense of the adjacent land owners. If one owns improved land adjoining the woodland of a neighbor then that neighbor cannot be compelled to maintain any share of the fence because the land (woodland) is not 'improved' land within the meaning of the act.

Dr. David Kennedy's Favorite Remedy.  
CURES ALL RHEUMATISM, GOUT AND BRUISES.  
It takes all kinds of people to make a world," is a common saying, and it has been proven beyond doubt that there are many people in thickly settled countries like in cities that make sickness a trade to secure a lazy living. How many such people live in country districts, investigation has not revealed. Playing "old soldier" in the army was a well known trick, but until recently it was not generally known that city hospitals have a good many inmates that make pretended sickness a trade and by it get a lazy living in the hospitals. Here is a number of cases. Here is a case of HEART DISEASE.

Dr. David Kennedy's Favorite Remedy frequently cures several members of a family. While it is considered by many to be a Kidney and Bladder Medicine, it is just as certain to cure Dyspepsia, Constipation, Rheumatism, Scrofula and Eczema. This is because it first puts the Kidneys in a healthy condition, so they can sift all impurities from the blood. Healthy blood practically means a completely healthy body.

Here is a letter from Mrs. Capt. PERRY RAZA, of New York: "My husband was troubled with his kidneys, and I was so troubled with Dyspepsia that it was painful for me to walk. My food did me no good, as my stomach could not digest it. Somebody recommended Favorite Remedy to me, and after taking two bottles of it I was completely cured, and am feeling splendid now. We both attribute our good health to Favorite Remedy."

It is prescribed with unflinching success for Nerve Troubles, and for the Liver and Blood it is a specific. It has cured many that were beyond the aid of other medicine. Ask your druggist for it, and insist upon getting it. Don't take a substitute. It will cost you \$1.00 for a regular full-sized bottle.

Sample Bottle Free  
If you want to try Favorite Remedy before buying, send your full post-office address to the Dr. DAVID KENNEDY CORPORATION, Rondout, N. Y., and mention this paper. They will send you a free trial bottle, all charges prepaid. This genuine offer is made to prove to everybody what a wonderful medicine it is.

HEART DISEASE.  
He was a middle aged man, and he made his living out of his trick. When he is hungry or cold, needs a hair cut, or simply has an attack and falls in a heap on some street corner. A policeman sends in a hurry call, and an ambulance dashes up, and Dowling is soon lying in a cool hospital cot and sucking broth through a straw.

A MANUFACTURED TUMOR.  
A doctor in another hospital tells of a woman who was able to raise what is known as a phantom tumor. She was admitted to the institution suffering, apparently, from a small swelling which was diagnosed as a tumor. She occupied a bed in a ward for some time, while various means for the reduction of the lump were practiced. Finally it was decided to operate, and the patient was put under ether. When the doctors leaned forward to make the first incision, lo and behold the tumor was gone.

They thought this rather curious and decided to postpone the operation. When the woman was allowed to revive and was questioned she stoutly maintained that she had the tumor and pointed to it in proof. Sure enough, it was there. She was put under the influence of ether again, but this time the swelling was watched, and as the drug began to take effect it was seen slowly to recede. The patient was, therefore, put back to bed, and the hospital authorities at tempted to look up her antecedents. After some research it was found that she was known in nearly every hospital in London and a few in New York. She could raise the lump at will merely by exercising certain muscles, and she got her living by the imposition on hospital authorities. Here is one who

FEIGNED LAME LEGS.  
At another hospital the doctors tell how they got rid of a man who feigned paralysis of the legs. The man affirmed that he could not walk, and lay apparently helpless, at the mercy of a tremendous appetite. One summer's day when the man had to be wheeled out on a veranda, the physicians rigged up a hose at the foot of the paralytic's bed, fixing the nozzle in such a manner that a stream of water would strike the man near the neck. That night, while the patient was asleep, the faucet connecting with the hose was turned on. Several doctors were in the office awaiting developments. Almost instantly the yells of the man awakened nearly every one in the hospital, and in a moment he was jumping down stairs three steps at a time. He made a great outcry, but the authorities did not have to persuade him to leave. He went on his own accord, and nothing but a padded cell could have held him back. Here is one who

WANTED TO LIVE IN A HOSPITAL.  
"There was another fellow who was admitted to this hospital suffering with stomach trouble, so he said, and his description of the general symptoms of a certain disease was so accurate that it was decided to operate on him. He was put under ether and cut open and examined, only to be found quite healthy. It took him some time to get well, and things went easily with him meanwhile. When the cut had almost healed he began complaining again, and in the end a second operation was performed, with no other result than to insure him a bed and board for a month or more. We found that man had a record. He was well read in the symptoms of diseases. He knew just how to act in order to give the impression of suffering. He had been operated on a number of times, and always in a manner to lay him up for various periods of time. Did it hurt him? No. The anaesthetics deadened the pain. He knew that as well as we did. He simply wanted to live in a hospital and be waited upon. In fact, it is curious to find how many people there are who have a mania for being operated upon. We have some women who almost beg us to cut them open, when really there is no necessity for it. Some of them doubtless believe they need the cutting. I believe many of these ill digested readings of medical works."

Winter Suits and Overcoats  
—THAT WE MUST CLOSE OUT—  
Spring will soon be here and we prefer to lose our profits now. Rather than carry our heavy goods over and lose later.

GOODS AT COST.  
Any Overcoat in our line can now be bought at cost. Any Winter Suit can now be had at cost. Why! Because we would sooner have the money the goods cost us and invest it than have it tied up in Goods on our shelves, particularly when we need the room for our spring stock. The successful clothier of today is the one who starts each season with a new line.—For this reason we offer you Goods at Cost. Now is the time to take advantage of Cost Prices.
