Dr. King's New Discovery.

The evening of the first of June closed with another grandly starting electric storm. The lightning was hard upon the nerves of people, who are susceptible to fright when lightning flashes and thunder bangs, crashes and roars.

Some one says the reason parrots and children are so apt at learning profane language is owing to the fact that profane people are excitable people and their profanity is uttered with great emphasis. It is the emphasis that stamps the profanity on the mind and tongue of the child.

The flag pole at Oakland Mills, was struck by lightning during the electric storm on the evening of May 1st. The pole was splintered and sent flying in every direction. A number of splinters landed on top of the mill. There was a rattling time on the telephone line between this place and Richfield. Eleven poles were struck.

Dr. King's New Discovery.

Some one says storms are part of the process of nature for the wearing away of the hills, and for the washing of them down into lower levels as a preparatory step to the change of the earth's surface; that the sea may be filled with earth, so that the balance may be destroyed, and the water rushed out where the land now is, and where the sea is shall be dry land.

The Commissioners of Blair county and the age to who insured the Court House at Hollidaysburg, do not agree as to the damage by storm to the temple of justice. The Commissioners say the Court House was damaged by lightning and that the insurance companies are liable for the damage, having insured among other things against damage from lightning. The insurance companies declare that the house was damaged by wind and not by lightning, and as they did not insure against wind they are not liable.

Dr. King's New Discovery.

A writer for the Perry County Freeman says:—Last fall we saw in an agricultural journal that Paris green was a sure exterminator for peach tree borers, so we had our application of the green. We cleaned the ground away from the roots of the trees and dusted about one-half table-spoonful around the stumps. Well, I can say that it is a sure remedy for the borers, for I don't think I have one dozen of trees that are not dead. I see that several other parties have done the

same thing and with the same result.

Dr. King's New Life Pills.

The Lewistown newspapers were careful to note every report that the railroad property was to be dismantled at this place by the removal of the working force on coal ward in the yard, and that a consequent depreciation of property must needs follow, but the same papers are not now saying a word about the fact that the railroad company does not propose to take its coal wharf from this town. The aforesaid papers are quiet as mice on that point. The railroad company does not propose to engage in the wrecking of one place to build up another.

HOW TO STOP IT.

"There is a cat sits every night on our back fence," he explained to the lawyer, "and yowls and yowls. Now, I don't want to get into any trouble with my neighbors, but I would like to know if I am not justified in putting a stop to it."

"Certainly," replied the lawyer. "I am well within my rights if I shoot the cat, then?" he inquired gleefully.

"I'm well, I would hardly say that," answered the lawyer. "The cat does not belong to you as I understand it."

"No."

"And the fence does?"

"Yes!"

"Well, then, I think I may safely say that you have a perfect right to tear down the fence," Chicago Post.

EXPENSIVE CIGAR LIGHTER.

The story is told of General William Ludlow, now military Governor of Havana, that when he was stationed at Detroit some years ago, in charge of river and harbor work, he was visited by a contractor who wanted to do some government work. With his visitation came by way of further introduction the contractor put down on the table a crisp \$50 bill. Ludlow made no sign as to whether he had noticed this or not, but saying they had better smoke while talking drew forth two cigars and gave the contractor one of them. They turning to the table and not seeing a match, he took the \$50 note, twisted it in to a lighter, set it aflame at the open grate fire, and lit his cigar with it slowly and carefully. Then he handed the burning stump of the bill to the contractor.

Some Pointed Questions

Does your urine contain any sediment? Is the lower part of your back sore, weak and lame? Does your urine have a whitish, milky color? Is there a smarting or scalding sensation in passing it? Does it pain you to hold it? Do you desire to urinate often, especially at night?

If you have any of these symptoms, your kidneys are diseased and your life is in danger. More people die of such disorders than are killed in wars.

Dr. David Kennedy's Favorite Remedy is a direct and sure cure. It goes straight to the seat of disease in the kidneys, bladder and blood. It hunts out and drives from the system all the impurities that cause pain in the back, Stone in the bladder, Bright's Disease, Urinary Troubles, and diseases of the Stomach and Liver. It acts at once. There is no long waiting to see if it will help.

"For years I suffered with my kidneys," writes THOMAS QUACKENBUSH, of Pittsfield, Mass. "The pain in my back was so severe at times that I was obliged to keep to my bed. I suffered awfully when passing water, which was often discolored with blood. I tried almost everything in the shape of medicine, but nothing seemed to help me. One day I got a bottle of Dr. David Kennedy's Favorite Remedy and used it but a little while when it braced me right up. My back became all right, no pain at all; my water cleared up and passed from me without pain, and I grew better in every way. I consider it a great medicine, as it has done wonders for me. My wife uses it for female complaint, and thinks it's the finest medicine in the world."

Sample Bottle Free.
