

B. F. SCHWEIER, EDITOR AND PROPRIETOR.

The 10th Pennsylvania is coming home from the war in the Philippine Islands.

A number of French politicians want the United States to withdraw from the Philippine Islands.

Talking about trusts, it would be a blessing to the property holding taxpayers of some of the townships in Juniata county, if the townships could be handed over to a trust for management.

The Standard Oil Trust and the Sugar Trust are not protected by a customs tariff, and that proves that Sugar Trust citizen Havemeyer is not correct in his statement when he says the customs tariff is the mother of trusts.

The European universal peace conference is a failure. It was a roaring success from the beginning in the light of the fact that the European governments are all engaged in the face work of dividing China, and the United States is at war with the Philippines.

The trusts, sometimes, are a good thing when a man wants to sell out, but they are not a good thing for a man who is running his own business to run against. If a man running his own business does not suit the trusts, they may put a trust business alongside of him and drive him to the wall by doing business at lower prices.

The violet is here. The rose is red. Sugar is sweet. And so are you.

Havemeyer is not the only man that is sweet with sugar. Another sweet sugar man named Oxnard—best sugar man—says Havemeyer is not correct in his statement that the tariff builds up the trusts. He says that sugar in a modern refinery with the best machinery, well located, can be refined at a cost of a quarter of a cent a pound.

The trusts don't seem to have many friends except among their friends, but that is the case with everyone. A trust generally speaking is an organization of moneyed men, who lay all the business plants of a certain kind and run them all as one business concern, and by that combination small capitalists are prevented from competing in the same business, but what the tariff has to do with such business is not explained by sugar man Havemeyer, who says "the tariff is the mother of trusts."

The Kansas City Star says: "That during the last term a Centennial school boy, Lewin Tomlinson, aged 16 years, was never tardy and never missed a day. His home is seven miles from the school house, coming and going he traveled fourteen miles each day, which during the school term makes 2,300 miles traveled. During the winter he arose at 3.30 every morning, fed the stock and performed the chores, and then started for school. He made a grade of 100 in deportment, which means perfect, and a grade of 98 in mathematics."

NEVER SUCH BIG HAIL. With the heavy rain last Saturday evening came the biggest hail ever seen in this community. Hail six inches in circumference were common sized ones. Many were larger. A number measured seven and a half inches in circumference. Where you saw such nice solid pieces of ice formed was a common inquiry. They were formed above the diploids in answer. It was the salvation of the wheat crop and corn crop and other vegetation that the hail was not thick or numerous. The supply of hail was not large and consequently the damage was of no account. But there was never such big hail in this community, before last Saturday evening. Many are afraid that the next installment may be as big as the present, for if as big as hen eggs they can be easily as big as hen eggs and as big as hen eggs.

DR. H. PETERSON. Aaron Burr at one time attended a church in Albany where all the aristocracy of the town was to be found on each Sunday. Soon he fell into the practice of being late, and finally the members of the church asked the minister to reprimand him openly. On the next Sunday, when Burr entered late as usual, the minister stopped in the middle of his sermon and said, "Sir, I shall appear at the judgment seat against you."

ALL SPOON CALAMITY. A gentleman invited some friends to dinner, and as the colored servant entered the room he accidentally dropped a platter which held a turkey.

THE HULLING SPIRIT. Mr. Hilland—Poor Scribbles kept up for the very last the fiction that he was a man of letters.
