Register and Recorder George B. Cramer; who was to California with the state committee to receive the 10th Pennsylvania Volunteer regiment on its return from Manila, brought with him a Spanish sword case that was given him by his brother James Mr. Cramer, who was all through the war with the 10th in the Philippine Islands. The case was taken from a Spaniard in Manila by an American soldier. The soldiers captured a good many canes of the same kind on the ground that the Spaniards had no right to carry concealed deadly weapons. The disk or rather a narrow sword in the handle of the cane is about 18 inches long and looks formidable enough to run half way through an ox or bear. The handle of the cane and the stalk or sheath of the cane is a genteel appearing stick and one not acquainted with its contents would not suspect what a formidable weapon it carried. The 10th Pennsylvania regiment left California on the 22nd inst., for Pittsburg Pa., where it will arrive on the 28th inst. A great ovation awaits its arrival at Pittsburg.

Beattie is the name of a town in Kansas that is governed by women. The mayor is a woman and five members of the town council are women; the town clerk is a woman. The town had been run by the bad men element and that induced the better men citizens to nominate a woman's ticket and elect it. The street black guards and toughs have fled from the town to escape the enforcement of the law against their crimes and vulgarity.

The Indian Mound harvest home was attended by many people last Saturday. Whole families were there from the oldest to the youngest. There were never so many babies on the ground before. The refreshment stands were under the management of the church and Sabbath schools of the neighborhood, and the revenues drawn from the stands must have been considerable. The speech making was by preachers, the only exception being that of a speech by Hon. L. E. Atkinson. The day was intensely warm, but with all that the people enjoyed themselves and the best of order prevailed. The roadway from Mifflintown to the ground by way of Johnstown was a highway of dust about three inches deep. In the evening when the carriages on their way to town stirred the dust, it hung over the valley like a veil of thin fog. The McAlisterville band furnished music for the occasion and interspersed the horn music with songs.

LETTER FROM NORTHLAND.

DEAR MR. SCHWEYER.—I intended to write a letter to you upon arriving at Sault St. Marie, but so many things occupied our time and attention that we did not do it.

Our previous letters gave account of our journey as far as Mackinac Island. Leaving that beautiful and historical spot replete in tragic events, we steamed up the beautiful St. Mary's River. We had an eight hour run on this river. In this stream are over 5,000 islands of various sizes and forms. At the head of the river is located the thriving city of Sault St. Marie, commonly called the "Soo." Here are what we boast of as the "largest canal locks in the world." But this is not true. Our largest waterway is called the Suez Canal, but could not get through these locks. Still these locks are wonderful. There is 50 per cent more tonnage passing through these locks than through any other in the world, by actual figures. We made the acquaintance of the superintendent of the locks, a genial fellow, who gave us much information. Just try to grasp this: On Saturday afternoon there were four lake steamers in the lock at one time. They were bringing iron ore east. The combined cargoes made 2,382 tons. Now ten tons is a carload, hence there were in this one lock at one time 2,382 carloads of iron ore. Last year 2,300 vessel loads of ore passed through this lock. The cargo is monstrous, some of them reaching a length of 475 feet, and they are now building some over 500 feet long. These locks are built with a view to such a year, and day and night, rain or shine, there is the one constant stream of traffic. The government support this canal, no tonnage is charged a piece, class legislation to help the Carnegie and Rockefeller.

Not far to the right of the canal are the "shooting" rapids. There is being constructed around the city a waterway of vast dimensions, which will furnish a waterpower of great value, somewhat like that at Niagara Falls. The enterprise is costing \$4,000,000.

Across the river is a Canadian town, a town of 3,000. Here is a large pulp mill employing 300 men. We were all through this, and saw the process of making pulp from logging to end. We spent a day and night in this town. The Canadians are slow.

We journeyed from Soo St. Marie to Bay Mills to visit friends. Here we had a fine time resting, rowing and fishing. In a small yacht we sailed some 25 miles up Lake Superior into White Fish Bay. It was dark when we reached the point of destination. We had to walk about two miles to find the mouth of the creek in which we intended to fish. It was ten o'clock at night when we pitched our tent and lay down upon the naked earth to sleep. "Job" Sawyer, a young man, the owner of our sailing craft, took the lantern and started the camp to get some drinking water. He had not gone far before he yelled: "Raven! bring the gun quick!" I was in my stockings, but was soon by his side. The raven sat in the shadow. Our shot was too small for bruin and he made his escape.

At 4 the following morning we were ready for a short time at fishing. At 6 a. m. we sat down to breakfast and had seventeen fine trout. Ah! but they were good. We fished until Saturday p. m., and after eating a fine Lake Superior trout and lay down upon the ground to sleep. We were accompanied home across the bay in a moderate breeze, but soon a terrific gale was blowing, our boat began to fill with water, and we were compelled to make for shore, set up our tent and remain until the following morning at 4 o'clock, when we set out for home, reaching there in time for morning church. It was a most enjoyable trip.

Lake Superior is the largest body of fresh water on the earth, its water is clear, cool and pure. We hope some day to traverse it.

Bay Mills is situated on Wataika Bay. A few miles from it is an Indian settlement where is a government Indian school. The Indians are Chippewa. The old chief is called "Bill Whiskey." I suppose this is a corruption of Wataika. I saw a fine Lake Superior agate which I got from his grand-daughter.

We are now rapidly steaming homeward, but as we have some stops to make yet, we are not sure of the time of our arrival.

We hope to find the people all well and happy.

A. N. RAVEN.

Some Pointed Questions

Does your urine contain any sediment? Is the lower part of your back sore, weak and lame? Does your urine have a whitish, milky color? Is there a smarting or scalding sensation in passing it? Does it pain you to hold it? Do you desire to urinate often, especially at night? If you have any of these symptoms, your kidneys are diseased and your life is in danger. More people die of such disorders than are killed in wars.

Dr. David Kennedy's Favorite Remedy is a direct and sure cure. It goes straight to the seat of disease in the Kidneys, Bladder and Blood. It hunts out and drives from the system all the impurities that cause pain in the back, Stone in the Bladder, Bright's Disease, Urinary Troubles, and diseases of the Stomach and Liver. It acts at once. There is no long waiting to see if it will help.

"For years I suffered with my Kidneys," writes THOMAS QUACKENBUSH, of Pittsfield, Mass. "The pain in my back was so severe at times that I was obliged to keep to my bed. I suffered awfully when passing water, which was often discolored with blood. I tried almost everything in the shape of medicine, but nothing seemed to help me. One day I got a bottle of Dr. David Kennedy's Favorite Remedy and used it but a little while when it braced me right up. My back became all right, no pain at all; my water cleared up and passed from me without pain, and I grew better in every way. I consider it a great medicine, as it has done wonders for me. My wife uses it for female complaint, and thinks it's the finest medicine in the world."

Every man and woman who reads this paper and is in need of medicine, is invited to send full postoffice address for a free trial bottle of Favorite Remedy to the Dr. DAVID KENNEDY CORPORATION, Rondont, N. Y. Our offer is genuine, and the fact that it appears in this paper is a guarantee that the trial bottle will be sent prepaid. Don't delay in writing, and mention this paper.

A large bottle costs \$1.00 at all drug stores.
