

BETWEEN TWO LOVES. BY CHARLOTTE M. BRAEME.

CHAPTER II--(Continued). "How can I teach them when I know nothing?" she asked. "You have plenty of knowledge, and when it falls in your way you may as well use it as not. It is not long enough for me. The grace and beauty of the woman teacher will do more for them than the fame and skill of the man. Leah, try to appreciate, to understand, the grandeur of the mission I give to you."

Science and Invention.

It is said that in the case of heavy vehicles, such as motor carriages, the principal source of wear and destruction of the pneumatic tires is not puncturing or breaking, but internal strain and friction. In some tires the exterior fibers of the rubber have been found reduced to a fine powder by the constant wear.

COMED CARVING. Brief Description of the Tools and the Method Employed.

All the tools used in the cameo carver would make but handful. The worker sits before a wheel turned by a pedal; tools occupy a small corner of the table surface on which the worker's hands rest while he holds the shaped stone or shell beneath the foot of the drill. The little pointed instruments which are used to drill resemble those employed by a dentist, and indeed, it was from the cameo carver's kit that the dentist got many of their ideas when the tools now in use by them came to be manufactured.

SEARCHING FOR THE DAY.

Washington, D. C.--In this discourse Dr. Talmage speaks of a man who all men, young and old, will be glad to see in the back office, every opportunity of mental culture, spiritual culture; every inclination to work, yet a Christian man, whose whole life is a sacrifice to his whole life to usefulness, has nothing to do. If you have not any business for this world, my Christian friend, then you ought to be doing business for eternity.

"Give him this," said the same voice.

To know yourself and others too, is the right of human knowledge.

It was a chief of patriarchal figure--

But you say: "A great many people are"
