When you dance a square dance you travel a half mile; when you dance a polka you travel a half mile; when you dance a gallop you travel a mile; when you wait you travel three-quarters of a mile. One day last week children playing in the barn-yard of John P. Zook, Belleville, Mifflin county, set fire to the straw stack. It was 4 o'clock in the afternoon. 400 bushels of wheat; 100 bushels of oats; traction engine and other farm machinery and two calves were burnt with the barn, and more distressing than all, Mattie Zook the four year old daughter of the proprietor was caught by the flames and burned to a crisp. The barn was insured for \$1,800.

The Mifflintown High School graduated a class of twelve last Friday, May 18, ten girls and two boys. The following is the class roll: Edna Mary Harley, Jennie Mabel Hackenberger, Rorie Mae Kaufman, Karl Hattenman Berry, Bessie Florence Berry, Fanny Mae Ellis, Orpha Mae Gushard, Isabelle Kirk McClellan, Dora Mel-dron Noble, Cora Minerva Reiz, Isabelle McKennan Robison, Elmer S. Schott. A large audience was present to witness the graduation ceremony of the class and see them down from the "climbing" though the rocks be rugged, for a rest. The audience, the school and orchestra had been seated quite a while. The class came at 8 o'clock keeping step to first rate music. They had with them the preacher for invocation and benediction service; the professor master of ceremonies; the directors who directed and teachers who piloted them through the curriculum of the school course. It was a pretty picture, panoramic in its appearance as they filed in and seated themselves in front of the elaborate and artistic decoration on the wall side of the room. Everyone of the class did well and the keenest critic could not pick a place to pin a criticism, except in the fact that their speeches were all keyed a note to low for the sound scattering quality of the room. It is a hard room to speak in. All the lower intonations of the voice are caught and scattered before they get six feet away from the lips of the speaker. Edythe Malenda Pickens responded for the class of 1901. The audience was highly delighted with speech and song and instrumental music. Director B. F. Burchfield made a speech, presented the diplomas and bade the class farewell. W. C. Donnelly, principal of the schools made the closing speech. Rev. W. H. Fahs pronounced the benediction. Many of the audience went forward and shook hands and expressed congratulations with the class, and all were played out and went home with the finest strains of music sounding in their ears by the Lutheran Orchestra to the tune "Belle of New York."

Mrs. George McPherson nee Miss Marian Settle of Lewistown, died in a Cincinnati hospital on Wednesday of last week. Mrs. McPherson had been operated upon for a tumor, but formed and death resulted. She was the second daughter of W. S. Settle, Esq. of Lewistown, and was well and favorably known to many of our young people here. On March 1st her marriage took place and she had been to house keeping but one week ere her death occurred.

The Boers started well in the fight against the British, but the end is humiliating. They boasted of Lady-smith, Kimberly and Mafeking, which many people interpreted as ominous of success. The British have raised the siege of the three places Mafeking was the last to be relieved. The siege was raised last week and all England has gone wild with delight over their success over the Boers. The British generals did not storm the places. They executed skilful movements and that compelled the Boers to move their armies from the places.

IS NOT A SNAKE CHARMER. Lewistown Sentinel, May 16.—Charles Castell, who lives at the extreme west end of town, has a fondness for snakes and it is said that on Sunday a week he amused himself with some rattlers he discovered down in Lewistown narrow. Last Sunday he again took a trip to the Narrows and his prize on this occasion was a copperhead snake which he captured and was bringing home. Just below town the snake got its head far enough away from Castell's hand to turn and bite him on the finger. Castell dropped the snake when it fastened its fangs into his hand. The bitten man went to Dr. Parcells for treatment, who cut out the wound, and from this and the previously taken "antidote" little trouble resulted. He neglected to

tell the doctor, however, of the snake wound and this has given considerable trouble, although he is recovering.

BARN AND MAN BURNED. Lewistown Free Press, May 16.—Tuesday of last week the barn on the farm belonging to Frank Fields' heirs near Newton Hamilton caught fire and was burned to the ground. Also all the surrounding out-buildings and there being a high wind the fire was carried to the adjacent ridge which was soon a mass of flames and had it not been for the prompt action of our citizens and a little shower of rain quite likely the buildings on the camp ground and a number of other barns and dwellings would have shared the same fate. Harry Brown and the tenant on Fields' farm in trying to get some stock out of the barn was so badly burned that he died last Saturday. Funeral services were held in the M. E. Church last Tuesday afternoon at 2:30 and were conducted by Rev. N. E. Cleaver after which his remains were interred in the Presbyterian cemetery. He leaves a wife and family of children to mourn his departure. The bereaved family have the sympathy of the entire community in their sad bereavement.

There are honest business men, but there is not a phase of life so diseased as business life and the exposures in the coloring of butter and the exposures in dealing in oleo are only specimen bricks of the general frauds that are going on. In the Philadelphia Times of May 21, "Merganser in his 'Seen and Heard in Many Places,'" makes mention of the adulteration of food and drink material thus:—

At one time when the sugar duty depended upon the color of the article, being lowest upon the raw, dark brown and highest upon pure white, the officials noticed a sudden falling off in the imports of the latter, and an immense increase of the former. To the eye and judged by ordinary standards, the stuff seemed the poorest and impurest raw sugar imported.

The chemist in a short time demonstrated that the raw sugar had been refined in the West Indies, and then, to make the tariff light, had been mixed with fine clay until it looked like mud. It only needed to be dissolved in water, filtered, boiled down and then it was as pure and white a sugar as can be produced.

In examining what was sold all through New England as powdered cinnamon, Massachusetts chemists were amazed to find that it did not contain a particle of that bark, and they could not discover a trace of the substance with which powdered cinnamon is usually adulterated. Finally in the red powder they found something green, which turned out to be a fragment of an internal revenue stamp such as is used for tobacco.

This gave the clue and enabled them to show that the mysterious stuff was old cigar boxes, dried and ground up and favored with a few drops of essential oil. The author lites not only published the discovery forthwith, but attacked the brand so vigorously that in the next month all that there was in the market had been confiscated or destroyed.

In Boston a man has a machine which takes the favorite food of that city, spits each bean into two grains, chews and finishes those so minute like coffee that when roasted they deceive the average grocer. In Chicago another commercial crook has a machine which makes a roast coffee bean out of coarse and damaged wheat flour. The dies which cut the grains are so well contrived that that out of two hundred no two are alike.

After serving his apprenticeship he settled in this town where he followed his trade almost uninterrupted for a period of 63 years. Five children, twenty-one grand-children and sixteen great grand-children survive him. At the time of his death he was the oldest citizen in town.

A Word of Warning

The trouble with thousands of women is not "female weakness," although many physicians suppose it is. The real trouble lies in the Kidneys, Liver and Bladder. Doctors often fail to effect a cure, simply because they don't give the right remedy. Women as well as men can ascertain for themselves if their Kidneys are diseased.

Ladies can take Dr. David Kennedy's Favorite Remedy with perfect assurance of relief. It will cure them of Kidney, Liver and Bladder disorders just as certainly as it cures men.

Mrs. G. W. DAVENPORT, of West Troy, N. Y., says: "I was troubled with my Kidneys, and suffered intense pain in my back and loins. The wife of Dr. Robinson, pastor of the First Avenue Methodist Church, recommended Dr. David Kennedy's Favorite Remedy. I got some, and have used it ever since, with the result that I am greatly benefited. All pains have left me, and I am like another person."

Dr. David Kennedy's Favorite Remedy is a perfect blood and nerve medicine. It restores the liver to a healthy condition and cures the worst cases of constipation. It is a certain cure for all diseases peculiar to females.
