THE British troops are about 77 miles from Pretoria the Capital of Boerland. The Boers must soon strike a strong blow for themselves or their cause will be lost.

THE men who are against expansion were among the foremost Spanish war shouters. If they were right then they are wrong now. All that they complain of came through the war they advocated.

THE State Supreme Court has set aside Governor Stone's veto of the proposed amendments to the State constitution-ballot reform. - The court says the question shall be submitted to a vote of the people at the election in November 1900.

DEMOCRATIC leaders are bard-pushed for an issue on which to run the coming campaign. The silver issue for the present is not to the front. The tariff issue was proven a mistake by the failure of Cleveland to manage the government under a low tar-iff. So then, the leaders will raise the cry against the occupancy of the Phillipine islands. They will shout against expansion unless they can find some other issue that will suit their purpose better. They are hard up for an issue.

THE administration has been unfortunate in its appointment of some officers for Cubs, if reports from that island be true. A number of the appointees have been profligate in the expenditure of government appropriation for Cuban affairs. The profligacy seems to be as now understood in the construction of a six mile long railroad. An investigation will follow. Without excusing the appointees in Cuba for their profigacy, it is not necessary to go to Cuba to find profligate expenditure of money in the organization of railroads and their management.

of Modern Times.

Although by no means the most terrible, the last siege of Gibraltar, when the Rock was held by a British garrison under General Elliot against the com-French from July 5, 1779, to Nov. 26, 1781, holds the record as the longest important siege of modern times. The fact that every now and again the garfrom succumbing to hunger, but

scurvy claimed nearly 1,000 victims.
For weeks together over 6,000 shells were thrown into the town daily. A curious point about this siege is that the governor of Gibraltar, after having done everything he could think of to strengthen the fortifications, issued a proclamation calling on any of the garrison who had any schemes to propose to call on him with them, as he did not wish the Rock to fall when by listening but a few minutes to a private individual it might be saved.

By holding the fortress of Plevna during the Russo-Turkish war from Sept. 7, 1877, to Dec. 10 against the pick of the Russian army the Turkish garrison, under Osman Pasha, accom plished the impossible, according to both military and medical experts; for not only did they defy the besieging force when it numbered nearly 50 to 1 against them, but they lived for 12 weeks practically without food. The Model Clothing Store. HOLLOBAUGH & SON

have moved into the PENNELL BUILDING, No 120 Main Street. Patterson, Pa., and when we state that we have the Model Clothing 8:ore of Central Pennsylvania we state but the fact. We have been compelled to keep up with many inconveniences for the reason the reem we have occupied for 10 years was too small for our increasing trade besides the room was not adapted for a modern clothing room, as we had to keep most of our clothing on shelves, now we have tables and presty of room and light. We have our

now ready for inspection, and we can candidly say we have one of the most attractive up to date lines to be found anywhere. Clothiers of to day must be up to the times or he will be left.
