

REPUBLICAN STATE TICKET.
FOR AUDITOR GENERAL,
Edmund B. Hardenbaugh,
of Wayne.
CONGRESSMAN-AT-LARGE,
Galeus A. Grov, of Susquehanna,
Robert S. Forrester, of Philadelphia.

THE PRESIDENTIAL TICKET.
The big Republican National Convention of 926 delegates sat three days in Philadelphia last week in the presence of an audience of 15 to 20 thousand people and nominated a presidential ticket: William McKinley for President, Theodore Roosevelt for Vice President.

No other names were before the convention. McKinley was nominated on first ballot and received every vote 926 votes.
Roosevelt was nominated on first ballot without a dissenting vote, 925 votes. He did not vote for himself. The pressing events of the day made the ticket and the pressing events of the day will elect them. The ticket is a statesman and soldier ticket.

The platform of the Republican National Convention at Philadelphia last week sun up the great change for the better since the Cleveland administration in the business affairs of the nation. During McKinley's administration the change from business ruin to business prosperity is almost beyond belief. The amount of money received on products sent to foreign countries over what was received from abroad during McKinley's administration was \$1,483,837,094. The platform endorses the McKinley administration and tells of the wonderful deliverance of ten millions of people. It declares for the gold standard and announces that the Democratic party must be convinced that the American people will never tolerate principles as laid down by the late platforms. It denounces the conspiracies of trusts. It expresses faith in the policy of protection to American labor. It expresses encouragement for the free schools. It favors reciprocity in trade with foreign nations in such things that Americans do not themselves produce. It favors more restrictive laws on foreign immigration. It favors legislation to restore American shipping trade on American ships. It is for a liberal pensioning of soldiers, widows and orphans of soldiers. It commends civil service. It expresses itself as against discrimination of race or color. It favors improvements of roads and highways. It favors free mail delivery in the country where extension is justified. It favors the homestead legislation on public lands. It is congratulatory over the fact that the tariff laws of the republican party have provided sufficient revenue to conduct the government, conduct the Spanish war and pay \$40,000,000 of the war debt. It favors the construction and ownership of the Nicaragua canal by government, because of the short route to the Orient where commerce and trade will redound to mutual benefits. It expresses a desire for a reorganization of the United States consular system. It congratulates the women of America for their services as nurses in camp and hospital of the army. It approves of President McKinley's management of foreign affairs. It expresses adherence to the Monroe doctrine. It expresses satisfaction with the administration of President McKinley in its acceptance of the treaty of Paris and the responsibilities of our victories in the Spanish war.

ME SAVED THE GIRL.
An Adventure With the Confiners of the Submarine Islands.
One day, on a Solomon beach, a little girl ran to me and before I was aware of it, placed my foot on her neck. One knows what this means well enough. In hot water it means that if a chief allows his foot to rest on the defeated one's neck the man's life is safe, but he is a slave forever, rescue or no rescue. I was puzzled at the child's action. It was soon explained. Shortly afterward dawn came. A lot of villagers and insisted on taking the youngster. I told them what she had done. They said they did not care. Her mother was being cooked in the town, and the child should go to the ovens with her.

BLIND AS A BAT.
But That Fact Wasn't Mentioned When the Horse Was Sold.
David Haruun was a good horse trader, but a recent transaction in horse-flesh which was made by a well known Memphis shaver, had given him a headache. He knew how to get the long end of a horse trade. Several weeks ago this Memphis man saw a fine buggy horse, which he thought he wanted. He located the owner and asked the price. "One fifty," was the reply. After looking the animal over and trying her speed he concluded it was a good trade and without more ado wrote a check for the amount. The next day he found that the mare was as blind as a bat, but this did not hinder her speed or detract from her general appearance. He drove the animal for several weeks and succeeded in attracting the admiration of another lover of horse-flesh, who made a proposal to purchase.

Called Her Son.
By Mistake She Communicated With
A Pittsburgh woman tells this story on herself: She had a son attending a preparatory school near Sing Sing. She went to New York not long ago to pay him a visit. She stopped at the Fifth Avenue hotel on her arrival, and she was in the dining room when she selected a telephone to inform him that she would be up the following day. She asked the young man in charge of the hotel exchange to call up Sing Sing for her and get telephone No. 71. He did so, and she sat down to talk.

WAR IN CHINA.
The war in China goes on to get rid of the foreigners. Russians, Germans, French and British have been trying to hold the railroad and other property along the railroad from the coast to Tien Tsin, a city of a million people. Starting reports came by despatch on last Friday, June 22 to the effect that all European and American missionaries at Tien Tsin were murdered and their houses destroyed. It is reported that one thousand missionaries have been killed. There were 110 American missionaries at Tien Tsin. They are all reported murdered.

WAR IN CHINA.
There is war in China. The United States is in it. Last Thursday, June 21, 1900, a battle was fought in which four United States warships were killed and seven were wounded. The United States has got into the foreign mix and from McKinley's administration will date a new era. United States troops and war ships have been sent from Manila. Those who claim to see the hand of Providence in everything are now saying that it can now read the hand-writing of Providence in the Spanish war. It was to give Manila to the United States as a basis of supplies for the war that the United States is going to take a part in it. China at this time and in the days to come. He that so it may, it is true that the United States has fifty thousand troops in the Philippine islands and a large fleet of war ships and now that she is at war with China, the island are indeed a basis of supplies for the United States. The war in China was started by the Chinese murdering missionaries and destroying property of Europeans and Americans in the vicinity of the city of Tien Tsin and Pekin. European troops and American troops were ordered to take possession of the disturbed districts and restore order and safety to life and property. The Chinese Army was ordered to resist the interference and now the war is on. The city of Tien Tsin is on the banks of the Peiho river 34 miles from the sea. It is the port city of Pekin, which is 80 miles inland from the sea. It was a heavy battle that was fought on Friday near the city of Tien Tsin, which place the allied Army was marching to. A despatch broadcast on Monday says 60,000 Chinese were in the battle. They had improved arms. Four thousand Chinese are reported killed. The allies had three hundred killed and wounded. As far as can be learned, Americans living in China number between two and three thousand.

The Model Clothing Store.
HOLLOBAUGH & SON
have moved into the PENNELL BUILDING, No. 120 Main Street, Patterson, Pa., and when we state that we have the Model Clothing Store of Central Pennsylvania we state the fact. We have been compelled to keep up with many inconveniences for the reason the room we have occupied for 10 years was too small for our increasing trade. Besides the room was not adapted for a modern clothing store, as we had to keep most of our clothing on shelves, now we have tables and plenty of room and light. We have our
