LONDON and Paris across the sea never experienced such weather as that of last week. The thermometer was up to 102, just as high as at Miffintown.

By the time the Chinese Boxers get through with the regular Chinese government and with the Americans and the Europeans, they'll wish they had never joined the boxers.

DEMOCRATIC speakers and orators are now hunting clash stoff to talk about in the coming campaign. They have struck the chemically treated beef-bad meat-sent to the army They don't tell that there were as many and more democrats that chested the government in fucnishing the bad stuff for the soldiers than republicans. They don't tell that it was republicans that discovered the chesting work. They don't tell that it was republicans who brought the rascally contractors to an account. Who ever heard of the democracy when they were in power bringing anyone to answer."

Pasting. Personal experience is the best teach-er. I have fasted 48 hours at a time without the slightest discomfort, but drank in that period many gallons of water of the balance drank in that period many gallons of water, of the plainest, most Croton kind. I once had acquaintance of a pig that fasted 160 days. A dog can fast two months without being much the worse. Rabbits live three weeks without food, while cold blooded ani-mals can go for years without eating. The bear in a state of hibernation

mais can go for years without eating. The bear in a state of hibernation passes into a kind of trance, so we shall not count him. The alligator like-wise "dies" in the long months of win-ter, craving no food. There is a fish called the father lasher that can live a month out of water. That is fasting. We have beard the tradition about the tood that was sealed in a rock for 5,000 years and hopped about in lively fashion when released from his archar-onomous prison. A horse has been known to fast for a month.—Exchange. 10 00 p m. Philadelphia Express leaves Pitts-burg at 4 30 p. m. Altoons 9 05 p. m. Tyrone 9 33 p. m. Huntingdon 10 12 p. m.
