DELAWARE and Maryland peach growers it is said will put on the market four million baskets peaches.

The great boss of the country is Bryan. When the Convention that nominated him made the platform, he said, thus and so it shall be or I'll not run.

A jury in Batavia, Ohio, has awarded damages of one cent to a man, who sued another for the alienation of his wife's affections, but a Judge has granted a motion for a new trial on the ground that if there was any damage at all it was more than a cent's worth.

PITTSBURGH has a sensation. A tunnel has been found leading from a house at 28 Sterling street, Allegheny into the penitentiary yard. Who dug the tunnel and who it was intended to liberate is not known. The tunnel is over 100 feet long and large enough to admit a large man on hands and knees.

Negroes were mobbed in New Orleans last Thursday. The barbarities perpetrated were of the most revolting kind. A number of whites were killed and wounded in the riots that took place. The police of the city were not able to cope successfully with the state of anarchy that prevailed. The militia was called out to quell the rioting. It is said the trouble was caused by whites driving negroes from work.

The withdrawal of the United States troops from Cuba takes the starch out of Bryan's talk of imperialism. The Cubans are believed to be sufficiently Americanized to govern themselves. It is believed they can govern themselves without having an army at hand to quell disturbances. They are capable of self government and they will naturally drift in the direction of the United States. They cannot drift back to Spain or any other kingly form of government. The withdrawal of the army from Cuba shows how deluded Mr. Bryan and his followers are on the point of what they call imperialism.

Shen is the name of the Chinese man, who has been sending the despatches from China to the outside world. He is the Chinese government telegraph director at Shanghai. To him must go every scrap of official information intended for the world outside of China. The director is child like and bland and has mystified all Christendom as to the true state of affairs in the interior of China. It is a long distance to China. It is on the outside of the globe and the information people on this side of the world get from there comes over wires that run to Shanghai. A few men control the wires and Shen directs the information from China, so we are told. The truth will come by and by, if it has not already been told.

THE WAR IN CHINA. The war in China goes on, and the interior of China is closely sealed against foreigners as ever. All the information received from Missionaries, Business People, Government Officials, Ministers and so forth comes through Chinese channels. If the Chinese would allow word from the Ministers to be received the urgency of the situation would be greatly relieved. But no direct word is received, all the information obtained is from Chinese, and they insist on it, the Ministers are safe, excepting the German Minister, who all say was killed.

The King of Germany is reported as having in a recent speech declared his avenging of the murder of his Minister to the extermination of the Chinese, men, women and children, where ever found on his march into the Chinese Empire. The probability is, the German King did not express himself in that way. The situation in China is peculiar and in one sense reminds the statement of history of the efforts of the crusaders of middle ages, to rescue Palestine from the Turks. Every European nation sent an army to drive the Turks out of Palestine. It was a war of almost two centuries and the Turk occupies Palestine this 31st day of July in the year of our Lord 1900.

All the strong nations of Europe have armies in China today. The United States has an army there and the door of China is so tightly closed that a message from the United States cannot be gotten into Perkin to hear from the American Ministers there, and the question yet remains, are the foreign Ministers dead or alive. The proposal of China to President McKinley to mediate in a peaceful state. The Chinese have not taken up the President's answers as quickly as it was believed they would. His offer was that the first condition looking to mediation on the part of the United States is that the United States

must be put in direct communication with its Ministers. That has not been done, and the whole question is a Chinese puzzle.

The news from China, July 30th, indicates the purpose to prevent the 2500 Europeans in China from leaving the country. The hint of the Chinese is, to hold the Europeans to prevent the march of European armies into China. The men who have charge of the telegraph stations in China are sending dispatches of the most confusing and contradicting character. The dispatches are of the most horrifying nature; that the Europeans have been wrapped in cotton and the cotton set on fire, Europeans have committed suicide to prevent torture when they fall into the hands of the Chinese—Can such things be true?—The very latest dispatch is the Ministers are all safe with an army of Chinese insurgents surrounding them in Pekin, excepting the German Minister who is dead and buried.

If the Ministers are safe it does not seem reasonable that the war with China should continue. If the Ministers are safe they should be gotten out of that country and the questions that have led up to the present unfortunate state of affairs should be settled without resort to murderous warfare.

Despatches on Wednesday say the American minister and family are safe at Pekin. The number of Europeans killed at Pekin is sixty.

Some Juniata cattle on the free pasture range along Shade mountain north of town have been penned in Mifflin county. The owners of the cattle and others living along the mountain express the belief that the cattle were driven from the Juniata county side of the mountain to the Mifflin county side for a purpose best known to the driver. It is reported that a steer or two belonging to a Juniata county citizen has been sold by a cattle thief to a Mifflin county party. Cattle thieves in the west are hung to a limb of the nearest tree. It has been learned to a certainty that a steer belonging to P. S. Mumma, of Juniata county, found its way with other cattle to the farm of Mr. Arnold in Mifflin Co., and were penned by him for trespass, and while the cattle were there, a man appeared, claiming to be from Juniata county, he said he was on a search for cattle of his that had gone astray from his pasture along the Juniata side of the mountain. He was not long in pointing out a steer as belonging to him. He proposed to sell the steer, saying, it would be too much trouble to take the animal back home. After a good deal of talk he succeeded in selling the steer, said to have been worth \$25 to Mr. Arnold for \$5. Arnold sold the steer to Mr. Miller, at butcher in Lewistown, for \$18. Ex-County Commissioner, Francis Hower, of Juniata county has a meat market in Lewistown, and Miller told him about his purchase of a steer from Arnold, also that Arnold had a lot of Juniata county cattle penned for trespass. Hower and Miller putting all the facts as they had them, together, believed that there was something not right about the steer transaction and that caused Hower to quickly inform the Juniata county people of the facts in the case. Of course all interested looked up their cattle. A steer belonging to P. S. Mumma was missing, and it was rightly conjectured that the steer was the one sold to Arnold then to Miller and by him slaughtered in Lewistown. Miller had wisely kept the hide, and when P. S. Mumma, C. E. Hower and Ed. Pannebaker went to Lewistown last Monday and identified the hide by a private mark that Mumma had on it, that settled what had become of Mumma's steer. Mr. Miller had delayed payment of the animal to Arnold. He paid the \$18 to the rightful owner of the steer, Mr. Mumma, and Arnold is out \$5. All parties are on the look-out for the false cattle owner who sold Mr. Mumma's steer.

NOT ON ACCOUNT OF SIGN. There are people who honestly believe in signs. They are surely right that certain times and certain appearances mean certain results. It is the certain conditions that produce the results. If they can see and understand the conditions by sight, by appearance, then they can call such appearance signs. For example cutting wood at a certain time will cause worms to develop in the wood. Say, wood is worth two to four times as much, if cut between July 15 and August 15, as the same wood cut in January to April. If a tree is cut after the starch which enters into its chemical composition has changed to sugar, say in March, the worms, being very fond of this sweet, become destructive to the wood, but if cut in July, after the completion of the spring growth, there is no sugar in the sap or wood, and they seek some more savory wood. Another reason is, because if cut when the sap is rich, the fermenting process changes the sugar into an acid, which is the very first stage of decay.

Timber land cut off in from January to April will sprout and grow again because the sap at this season of the year is rich in sugar to reproduce the leaves, which are the lungs as well as digestive organs of vegetation, but if cut the last of July or the first half of August dies because deprived of both. A southern exchange gives this advice as valuable to those who wish to destroy certain kinds of trees or to clean up brush land.

MARQUETTE ON LAKE SUPERIOR. One of the most charming summer resorts reached via the Chicago, Milwaukee & St. Paul Railway. Its healthful location, beautiful scenery, good hotels and complete immunity from hay fever, make a summer outing at Marquette, Mich., very attractive from the standpoint of health, rest and comfort.

The world moves. Think of it. An arbitrary, kingly government like China that has stood the rousing revolutions of ages, to come to a republican nation that elects a President by a popular vote every four years and asks the popular government to step in and settle the dispute between China and other kingly governments.

King Humbert of Italy was shot last Saturday evening. He had distributed prizes at a gymnastic contest at Monza, Italy. He had entered his carriage when an assassin came forward and fired three revolver shots into the body of the king. One bullet pierced the king's heart and he fell dead. The assassin was arrested. The mob came near taking him from the officers.

Wu the Chinese minister at Washington when confronted with the mysterious action of the Chinese government in China declaring that the foreign ministers are alive and releasing them to communicate with their governments, explained that the Chinese people are so different from other people that the tests of character and veracity that apply to other people do not apply to the Chinese.

Bryan was a practical imperialist when he was a colonel in the army against Spain. He was not called to go to Cuba or Manila, but all the same he was in the army for that purpose and if he did not get there it was because he was not needed. He did not get there because he thinks he is not an imperialist. If he had been sent there he would have been an imperialist from his stand point. When he enlisted and volunteered he did not expect that Spain would invade America. He knew she could not do that. If he knew that then he knew the other fact that he would have to invade Spain somewhere and defeat her and occupy the country, would follow as a consequence till such time when the people of the subjugated country could understand governing themselves without the necessity of the presence of an army to keep down disorders. Bryan's imperialist is a baby talk.

PERFUME AND DISEASE. Nature Practical, Not Poetical, in Scattering Sweet Blossoms. A French physician has decided that perfume prevents the spread of certain diseases. During an epidemic his attention was attracted to the fact that persons who constantly used perfumes escaped taking the disease. But he found that the more delicate perfumes, like violet, lavender, attar of rose, were more effective than musk and strong, rank essences.

The Model Clothing Store. HOLLOBAUGH & SON

have moved into the PENNELL BUILDING, No 120 Main Street, Patterson, Pa., and wish we state that we have the Model Clothing Store of Central Pennsylvania we state but the fact. We have been compelled to keep up with many inconveniences for the reason the room we had occupied for 10 years was too small for our increasing trade. Besides the room was not adapted for a modern clothing room, as we had to keep most of our clothing on shelves, now we have tables and plenty of room and light. We have our

SPRING LINE OF CLOTHING, HATS, CAPS, SHOES, SHIRTS, TIES, and GENT'S FURNISHING GOODS

now ready for inspection, and we can candidly say we have one of the most attractive up to date lines to be found anywhere. Clothing of to day must be up to the time or he will be left. We have been in the business for 10 years, long enough to not be an old foggy, but to know that the latest styles are the goods that sells, to the up-to-date customers. We handle the Douglas Shoe, the best in the world for the money. The Sweet Orr Overalls. The Ricker Hat, in all the latest looks. Our line of Worned goods are the finest we ever carried. In Shirts and Ties we lead all other Gent's Furnishing Houses. We will take pleasure in showing you through our line and know you will lose nothing in looking, and can save you money by purchasing from us. It is no trouble to show goods, especially when you have them to show.

Thanking our patrons for their patronage in the past and asking a continuance in the future which we will endeavor to merit by square dealing. We are respectfully,

Hollobaugh & Son, No. 120 MAIN STREET, PATTERSON, PA.
