

THE OLD AND NEW.

The old times—the old times! We sing 'em high an' low. But the new times air the brightest that we ever hope to know!

The old times had the sunshine; but 'twas all too bright to last! We're facin' of the future with thanksgiving for the past!

The old times—the old times! I know the stars twinkled down on the hillsides with a rosy round of light.

The sturdy prairie girl went out on the sod cabin on the claim and started for the great stretch of grass land that reached from the ravine between the bluffs to the farther sand creek.

FOR LITTLE FOLKS.

Something that will interest the juvenile members of every household. A COLUMN OF PARTICULAR INTEREST TO THEM.

Bert Wallace has a whole row of colored glass tumblers which he has made himself. He didn't blow them, nor mold them, according to the best-known methods of glassmaking.

Bert didn't own a diamond glass point nor a steel glass wheel and so he cut the bottles with a clay pipe stem.

Down the long slope, across the level plain below, through the tall sough grass and the sunflowers, then out on the level buffalo-grassed prairie she was off!

Could she make it in time? The chances were against it. She thought she could ride to Anna and then help her to the saddle and get out of the way before the herd was upon them.

LABOR STRIKES OF HISTORY.

Early Egyptian Laborers Were First to Inaugurate Them. It is often asserted that the labor strike as such does not date back further than Capt. Boycott, in the early part of the century.

But the same state of things recurred by the middle of the next and for some days the men struck work. Various conferences took place, but the men declined to do a stroke until they were given another supply of food.

When Isaac met Rebecca at the well she was walking with a pitcher. Ramson struck out a great many times when he beat the Philistines. Moses made his first run when he blew the Egyptian.

Abraham made a sacrifice. The prodigal son made a home run. David was a great long-distance thrower. Moses shut out the Egyptians at the Red Sea—Canton Commercial Advertiser.

Ladies Can Wear Shoes. One size smaller after using Allen's Foot-Powder. It makes tight or new shoes easy. Cures swollen, hot, sweating, aching feet.

In an article in the Homiletic Review Joseph Parker draws the line sharply between the preacher and the essayist who reads his pulpit address. According to the London clergyman the effective preacher is not the one who delivers his sermon with the most elaborate and elaborate manner.

Each of you possess a special fitness for your own special work, and no one in the universe can take your place, or do the work allotted to you.

Home is the sphere of harmony and peace—the spot where and where resting place when, bearing blessings they descend to earth.

There is one ingredient in Frey's Vermifuge that does not grow outside the State of Maryland.

Do not dare to live without some clear intention toward which your living shall be bent. Mean to do something with all your might.

Don't, Don't

Keep forever taking harsh cathartics, as salts, laxative mineral waters, and unknown mixtures. The way to cure constipation, biliousness, sick headache, dyspepsia, and other liver troubles is to take laxative doses of the best liver pill you can buy, and that's Ayer's.

Ayer's Pills will never Abuse Your Liver. They are laxative pills, purely vegetable; they act gently and promptly on the liver, producing a natural, daily movement.

25 cents a box. All druggists. For ten years I suffered terribly with stomach trouble. I never could retain all my food and had many bad hemorrhages from the stomach. I then began taking Ayer's Pills. They promptly cured me, and I feel extremely grateful to you.

Base-Ball in Biblical Times. A member of the Canton Theological School, who is interested in the great national game, has written a thesis on "Base Ball among the ancients." From this are gleaned the following interesting points which help to establish its contentions:

The devil was the first coacher—he coached Eve when she stole fruit from the garden. When Isaac met Rebecca at the well she was walking with a pitcher. Ramson struck out a great many times when he beat the Philistines. Moses made his first run when he blew the Egyptian.

Abraham made a sacrifice. The prodigal son made a home run. David was a great long-distance thrower. Moses shut out the Egyptians at the Red Sea—Canton Commercial Advertiser.

RAM'S HORN BLASTS.

Warning Note Calling the Wicked to Repentance. THE love of truth is the only way to the light of truth. There is no harm in the tongue when work keeps pace with words.

Mix all your grief with gratitude and it will taste of the latter. Life is more than a living. Righteousness usually cures rage. Conformers do not make reformers.

The blusterings of the infidel are the winds of a tempest-tossed heart. The great man has greatness in him before the occasion brings it out.

Every man deceives himself more successfully than he deceives others. It is always easier to keep your wanderer than to keep him at home.

It is not the length but the largeness of eternal life that makes it desirable. Light comes with the knowledge of God and love with the taste of His love.

Holy joys are current coin in heaven, but they will not pay church expenses on earth. Salvation is not the gathering of the salvage, but the perfection of the whole being.

The church that is frozen at heart is most likely to depend on the ice cream social for its support. Many who are very seldom solicitous that God should have the shells are eating the kernels themselves.

The early Christians worshipped in barns, but the modern Christian is not like them because he is willing to let the church look like a way.

Handshaking an Old Custom. Practice Now in Vogue Dates Back to the Beginning of Time. "It is said by ancient astrologers that shaking hands is a scientific custom which dates back to the beginning of time.

There is all the difference in the world between the various modes of shaking the hand of stranger or friend as to the resulting impression obtained by and through that operation, consciously or unconsciously.

The exchange of impression is strong the moment of contact of the palm. It makes us unhappy to touch some people, and we will not if we can help it.

The most effective handshake is not the close clasp in all cases, although it may be in many, but varies according to the steepness of the contact of the two hands which clasp each other.

That Little Book For Ladies. A little book for ladies, containing all the latest fashions and styles. It is the best book ever published for ladies.

English View of Talmage. Can Drive Home a Few Plats, Everyday. Treats in a thoroughly witty manner, Dr. T. De Witt Talmage draws a great crowd to the West London Tabernacle in Nottingham last night.

Age has not withered the man of many sermons in the least. He is still the possessor of a strong, harsh voice, which he uses instantly and rapidly, and he can still drive home a few plain every-day truths in a roughly witty manner.

As his part is that goeth down into battle, so shall his part be that tarryth by the stuff," gave the doctor a chance to say a few of those pungent things that have built up his reputation.

Following the Scriptural injunction, he slew the Analectics in pretty rigorous fashion. They were "loathsome and indecently drunk;" some were slain by David "in carousal," others went "triumphing off the field," and David himself carried off "the diamonds, the pearls, the rubies, the amethysts and the imperial crown;" to divide equally among the fighters and the wounded who stayed with the stuff.

"In similar fashion," said Dr. Talmage, "the rewards of great philanthropists and preachers will not be greater in the end than those of you people who stay at home and mind your own business."

"Oh, what rewards there are for you who are doing unappreciated work—that nine-tenths of you," he ejaculated in his curious, jerky fashion, raising a laugh.

"Get engineers—I like to ride to with them—I like to ride on the engine—you get there a bit sooner," was another Americanism which hit the humor of the congregation. "You don't know the name of the engine driver who carries you safely, but God does," was the point of the story.

Talking of the cyclonic passage across the Atlantic, he said: "All were solemized except two—one a German the other an American. The German he was drunk, the American he was a fool." Then he worked to the same point. They had thanked the captain at the end of the voyage, but they had forgotten the engineer. Still, in the end the reward of the two would be the same.

So many people wanted to get into the Tabernacle and couldn't that Dr. Talmage addressed a large number in a lecture hall next door after the service.—London Express.

Manilla's Streets. The streets of Manilla are so modern as to be quite out of keeping with the general appearance of the town. They are perfectly straight, macadamized and provided with ample granite walkways. Of these the Escala and the Rosario are the best. The Escala is an excellent shops, kept principally by Chinese merchants, most of whom come from Amoy. Tin-roofed houses line each side of both thoroughfares.

Siberian Exiles. In fifteen years Russia has sent 624,000 persons to Siberia, fully 100,000 relatives of prisoners having accompanied the exiles of their own free will. There are no defects in best efforts.
