### How to Prolong Life

No man or woman can hope to live long if the Kidneys, Bladder, or Urina Organs are diseased. Disorders of that kind should never be neglected. Don delay in finding out your condition. You can tell as well as a physician. P some urine in a glass or bottle, and let it stand a day and night. A sediment

the bottom is a sure sign that you have Kidney disease. Other certain signs are pains in the small of the back-a desire to make water often, especially at night-a scalding sensation in passing it-and if urine stains linen there is no doubt that the disease is present.

There is a cure for Kidney and Bladder Diseases. It is Dr. David Konnedy's Favorite Remedy. It has been for thirty years, and is today, the greatest and best medicine nown for these troubles.

Mr. WILLIAM W. ADAMS. cor. Jefferson Avenue and Clifton Street, Rochester, N. Y., says :--
