

Foreign News.

NEW YORK, Apr. 30.—A London special says Winslow will be released on Wednesday next, unless the United States concede the point demanded in the diplomatic correspondence on Winslow's case.

Kate Field, the well known American writer, made her debut quite unexpectedly at Gaiety Theatre, London, on Thursday last, in the role of "Volante" in the "Honey-moon." She made a complete success.

A Paris special says the government is extremely nervous about the amnesty agitation started by Victor Hugo and his friends in the National Assembly.

An old New Yorker affirms that he saw William M. Tweed in Paris on Wednesday last.

The Silvery Current Coming.

WASHINGTON, April 30.—The Treasury officials in all probability will soon make some changes regulating the issue of silver, owing to the general inclination of the people to hold on to the small fractional currency, in anticipation of its scarcity.

The Treasury Department received yesterday morning \$100,000 in silvery quarters from San Francisco. This is the first instalment of an order of \$600,000 in silver coin recently issued.

Severe Fighting in Turkey.

RAGUSA, April 30.—Muktar Pacha, in command of the Turkish forces, attempting to re-victual the surrounded garrison of Nicosie, after two days severe fighting has defeated the insurgents, and relieved the garrison.

The fighting in the Duga Pass was very hot. The insurgents declare that the Turks advanced while arrangements were being made for a fresh armistice.

Will He Go Mad.

MONTREAL, April 30.—It is stated that Mr. Hugh Holt a bookkeeper of this city has been declared heir at law of the famous Holt estate, which has been thrown out of the English Court of Chancery. The estate has been in litigation since 1709, and is valued at £16,000,000.

Navigation will practically open tomorrow, Monday.

An Almost Incredible Feat.

BOSTON, April 30.—George F. Avery, the pedestrian has accomplished the feat of walking 129 hours without rest, at the Boylston museum. He was much fatigued, and it required strenuous efforts on the part of his trainer Charles L. Cushing, to keep him up. It was a square walk and he gets \$300 for it.

General News Summary.

Ten thousand additional soldiers embarked from Spain to Cuba April 27.—More are to follow.

Two women and one colored man were elected to office at the recent municipal election in Newport, R. I.

The Arkansas republican convention which assembled April 27, did not nominate a state ticket. It declared for Morton for President.

The English have just launched a double tiered steamship called the Inflexible, which is supposed to be the most formidable war ship afloat.

There was a sudden and sharp decline in the price of pork and lard in the New York market last week. Pork was fifty cents per barrel lower.

The governor of Massachusetts has vetoed the bill legalizing the marriage of James Parton with his step-daughter on the ground that the act was beyond the constitutional power of the legislature.

The United States centennial commissioners have appointed a committee to confer with the railroad companies with a view of securing a further reduction in passenger fares, for persons visiting Philadelphia.

Mr. Blaine announces positively that he will not withdraw from the race for the presidential nomination. Also that there are several candidates to whom he would give his strength in preference to Brewster.

Attorney General Pierpont is about to move for the appointment of receiver to take possession of the Hot Springs reservation in Arkansas for the government. Threats having been made against persons who may attempt to take possession, it is probable that troops will be sent to the Hot Springs to enforce the decision of the court.

The small sum of \$403,376 represents the cost of the war waged by George A. Cowles and his associates upon the army moth. The spoils of the moth exterminator and his allies amount to \$300,000. It would have been cheaper for the government to buy several hundred thousand yards of blue cloth and invite all the moths of the habitable globe to a feast.

Down Platt made \$22,934.35 in treasure out of the moths' propensity to corrupt. Indications are multiplying that the real meaning of the "independent constitution" on the state of the country recently invited by Prof. Woolsey, Carl Switz and some other gentleman (to take place in New York at an early day) is to advance the claims of Mr. Brewster to the Presidency. Extracts from the biography of the gentleman that have been circulating in the west are beginning to appear in the east. There is also a strong disposition among the adherents of the liberal party to talk him up at the clubs.

The evidence of Rice, the "general" and army bummer, as to the amount of money he made out of the post trader stores in the west, show how shamelessly corrupt was the war department. Here was a loafer about Washington who did no work, invested no capital, but because of "influence" with Belknap was allowed to live in luxurious idleness upon money extorted from the poorly paid soldiers of the plain. These revelations make the blood boil.

In the United States district court at Baltimore Wednesday, the suit of the National Union bank of Maryland against the Parkersburg branch railroad company was decided in favor of the bank. After the verdict was rendered the jury was sworn in seven other cases, and in each gave a verdict for the plaintiff. The amount involved in the eight cases is about \$95,000. The suits grew out of the action of the treasurer of the railroad company, some years ago, who induced the president, while the latter was drunk, to sign blank shares of stock, which were afterwards filled up and negotiated by the treasurer.

This standard article is compounded with the great care. Its effects are as wonderful and satisfactory as ever. It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean. By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong. As a dressing, nothing has been found so effectual, or desirable. Dr. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it the best preparation for its intended purpose."

Buckingham's Dye,

FOR THE WHISKERS.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black at discretion. It is easily applied, being in one preparation, and quickly and effectually produces a permanent color which will neither rub nor wash off.

AYER'S SARSAPARILLA,

FOR PURIFYING THE BLOOD.

This compound of the vegetable alteratives, Sarsaparilla, Blood-purifier, and Waterbury's Compound of Potassium and Iron, makes a most effectual cure of every complaint which is very prevalent and annoying. It purifies the blood, purges out the lurking humors in the system, that undermine the health, and break up the leucoderms. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. Ayer's Sarsaparilla expels these humors from the system, and restores the blood to its normal condition. It is a most valuable medicine for the treatment of Eruptions of the Skin, St. Anthony's Fire, Rose of Erysipelas, Itches, Wounds of the Face, Tumors, Puffing and Salt Rheum Scald Head Ringworm Ulcers and Sores Rheumatism Neuralgia Pain the Bones Side and Head Female Weakness Sterility Leucorrhoea arising from internal ulceration and uterine disease Dropsy Dyspepsia and General Debility.
