-Woman's Temperance Prayer Meeting, this afternoon at 3 p. m., at Mrs. Jerre Lyon's.

-S. H. Morse, Merchant Tailor, has moved into the rooms over the Post office, just vacated by Louis Knoll, the barber. Mr. Morse's card will appear next week.

-Regular meeting of Montrose Fire Company, No. 2, on Friday evening next. A full attendance is desired as important business is to be brought before the company.

----Bome of our most fashionable young men say that Mr. J. Groves, the tailor, does give the perfect 'fits' on the clothing line. Mr. Groves has the name of being a most excellent workman.

Rough & Ready Fire Company, No. 1 will meet on Friday evening next at 61/2 o'clock to try the "machine." All having leather fire hats are requested to wear them.

-A register, county clerk, or other recorder of deeds, mortgages, &c., is liable in damages for a false certificate of search for incumbrances upon land, according to a recent decision of the Supreme Court of Pennsylvania.

-Louis Knoll, the German barber, has moved his shop from over the Post office to the new building on Searle's corner, lately occupied by E. V. Curry, as a cigar store. He has also purchased the stock of caudies, cigars, tobacco, etc. Mr. Knoll has as neat a shaving saloon as can be found in any town.

-Charles O. Graves, for twenty years conductor on the Eric Road, died at his home at Elmira, on Tucsday, May 2d, aged thirty-nine years. He has been in failing health for a year past. He leaves a wife and three children.-Deceased was very popular with the traveling public, and with his associates on the Road.

Mr. J. A. Hickox, manager of Sayre Bro.'s farm, left some of the finest potatoes at this office we have seen for a long time. Mr. H. gave the name of one variety as the Mexican and the other variety is unknown to him. He says their average yield last fall was twelve hills to the bushel.

---E. L. Bullock, superintendent of Beaver Brook colliery, Carbon county, has constructed, in plaster, for the Centennial, a heautiful model of his works, representing the breaker, slopes, gangway, breasts, with all the surface improvements, together with the geology of the mine, embracing the veins of coal and rock, and giving the pitch and angle of their formation.

—The soldiers, sailors, and marines of the late war, and all citizens interested, are requested to meet at the Court House, this Wednesday evening, at 8 o'clock, sharp, to make the necessary arrangements for the proper observance of Decoration Day. Soldiers, if you still cherish the memory of your dead comrades. come. Citizens, if you would keep the memory of your dead heroes green, come.

The benefit to the Cornet Band given at the Town Hall, in New Milford, last Wednesday evening, was a very pleasant affair, notwithstanding the attendance was diminished by the stormy weather. Every one that was present speaks of it as an exceedingly quiet and delightful social gathering. By notice elsewhere it will be seen that another, for the same purpose, will be given on Wednesday Eve., May 24th.

—The following bill passed both Houses o the Legislature and was sent to the Governor: That members of lodges of the Order of Odd Fellows, Knights of Pythias, and other organisations of a similar character, shall not be individually liable for the payment of weekly or funeral benefits or other liabilities of the lodge, but the same shall be payable out of the treaspry of the lodge; provided that the provisions of this act shall only apply to unincorporated associations.

-Notwithstanding the general dullness of the weather for the past few weeks, there have been some glorious mornings. In fact many of our gloomiest days have been ushered in by ty amounted to \$300, and of this sum he sent perfectly resplendent mornings. The birds have made the groves vocal with their songs. and the earth has looked fresh and beautiful, while the invigorating air and cheering tunshine have breathed health into our lungs and bounding warm into our frame.

From a person who has been studying how to deal effective death to the Colorado potato bug we are informed that Boneat Aloes is the best and safest means that have yet been discovered. It is reduced to a fine powder and upon being sprinkled over the ground serves as an instantaneous summons to quit, the demand is sure of the desired result. Several farmers in the western part of Chester county tried this Aloes last summer and reported it to be sure and effectual and if needs be they will rely upon it the coming season to save their crops from the devastating insect.

___From the Binghamton Republican ef Wednesday, we copy the following: About tour weeks ago, we noticed the fact that Thomas Wood, a resident of Susquehanna county, had come to this city, in an insane condition, and that after remaining in the county house for a short time, he was returned to Susquehanna Depot by Chief-of-Police Johnson. Tie Chief of Police learned, of an old lady at Susquebanne, that Wood was bitten by his wife, who died of hydrophobia about four years ago. The old lady was one of the nurses of the sick wife, and knew that she bit her husband and mother. It was noticed that the insanity was of a queer nature, and that Wood tried to bite the officers who endeavored to put him in the lock-up at Susquehanna. He was finally quieted by the Chief, and safely secured. From Susquehanna, Wood was taken to the Pennsyl-Pania Insane Asylum, at Danville, and the Chief learned to-day, by a minister who just came from Danville, that he has become raving mad, and barks like a dog. His disease appears to be a slow type of hydrophobia, which is not an uncommon feature of the malady, or an uncommon type of it. His wife was bitten by a lent attack of billous colic attended with high dog when she was a girl, and lived fifteen years inflamation. Almost simultaneously with the without any symptons of the terrible disease announcement of Mr. Frazier's death came the which finally caused her death.

still more when it can be added, "and payeth also." The prayer meeting is called the pulse of the church, the treasury is the test of its loyalty. We are commanded to honor, that is, to worship God with our substance, to bring tithes into his house, to give liberally; to lay aside of our money on the first day of the week, as God has blessed us, and devote it to the service of the gospel. This is the most trying part of religion. Many are delighted with the whole of religion except its cost. That they dislike. They like free salvation, free preaching, free seats, free fires and free lights, and hate agents and all collectos of money.

-If any of the young readers of the DEMOCRAT, who are just starting out in life, feel disposed to go in debt for anything they may think they need, we tell them don't do it. Do without what you cannot pay the cash for, and you will always be independent, if not so comfortably fixed. But once begin the habit of buying on trust and there will be no end to it. Debt is the hardest kind of a task master and the poor maa who is a debtor is the most miserable of slaves. Read this from Dr. Hall and tremble:

Debt is a fire which will consume your substance, a viper which will posson your life, a hyena which will eat out your very entrails; it is a heart without a joy, a face without a smile, a world without a sun."

The work of changing the track of the Pelaware, Lackawanna & Western railroad to harrow guage was to have been done on Sunday, the 28th inst. President Sloan and the New York directors of the road are opposed to Sunday work where not actually necessary, and hence direction to the Superintendent to that effect. Saturday, the 27th is the day now fixed on for the change, and if not completed on that day it will go over to Monday. This applies to the road in general. But between Binghamton and Scranton the work of change has already begun, where one track is abandoned and trains run only on the other, the time card being temporarily changed to meet the

-Persons who desire to make their own flags for the coming Fourth of July must remember that certain proportions should be observed in their manufacture. Any one can find the proper proportions from the following data. The United States garrison flag is thirty-six teet "fly" (long) and twenty feet hoist (wide.) or in that proportion, the width being five-ninths of the length. The recruiting flag is nine feet. being lour-ninths of the length. The "union," or blue field, is in length one-third the length of the flag, and extends in width to the lower edge of the fourth red stripe from the top. There are thirteen stripes, beginning and ending with red. The garrison flag is the one usually taken as the standard for making flags for private use or decoration.

-The freight trains on the Pennsylvania railroad transport much that does not contribute to the coffers of the company. Daily scores of tramps steal rides on the cars. Recently two or three of these nomadic individuals stole into a freight car which was loaded with bulk grain at Chicago for New York. It proved as most the doom of the unfortunates. Two days and a half after starting the distance was accomplished as far as Altoona and during a temporary stoppage there they managed to make it known that they were imprisoned. When taken out these unfortunates were more dead than alive, as in taking the precaution to have something to eat with them they forgot all about the necessity of water. These tramps now favor "walking" partly for exercise and partly because of the "sealing" process.

___A few days ago Judge Handley, of Luzerne county, rendered a decision which will be of general interest it it stands. It seems that Fred House, a minor, enlisted and went to war during the late rebellion. His local bounhome \$245. Upon the return of the young man his father refused to give him the sum, on the ground that, as he was aminor, he had no right to it. The court ruled that bounty was not wages, but a gratuity, and as such the father had no control over it. It also ruled that where a minor makes a contract for his services on his own account, and his father is cognizant of the fact, and makes no objection, there is an implied assent that the son shall have his earnings, and unless there is a design to defraud the father's creditors, the earnings will belong to the son.

___Lancaster county is particularly rich in Indian antiquities, which are constantly being brought to light by the upturning of the soil. especially in the vicinity of the Susquehanna. Along its banks and on some of its, islands great numbers of stone implements, fragmentary pottery of primitive workmanship and entire vessels have from time to time been discovered, but no one locality has produced a greater abundance of these relics than Witmer's farm. situated a few miles from Columbia. From here liave been taken thousands of arrowheads. much pottery (including several wonderfully preserved urns) and myriads of beads of European make. The latter possess an antiquity. probably, of two hundred years, and were undoubtedly obtained from the early white set tlers They are of glass, from one-lourth to an inch in length, cylindrical or four sided, and frequently slightly twisted. The interior color

is usually a dingy-reddish brown. Our community were startled by the annonncement of the death of H. H. Frazier, edi tor of the Montrose Republican, which took place about four o'clock yesterday morning.-He was first violently attacked by sickness on Sunday afternoon last, while at his farm a little way out of town, but got easier and was conveyed to his residence. But few knew of his sickness until the announcement of his demise As near as we can learn he died of a vionews of the death of old Mrs. Sayre, relic of

It requires considerable religion to pray, Benjamin Sayre deceased, and mother of the but still more to pay. There is hope for a man Sayre Brothers of our town. She was quite when it is reported, "Behold, he prayeth," but aged, but on Sunday last attended the funeral of Mrs. Simon M. Sayre, at St. Paul's church, hence, her sudden departure was very unexpected at this time. Truly "In the midst of life are we in death."

> DECORATION DAY ORDER.—The following: general order for the observance of Decoration Day has been issued by Governor Hartranft:

In accordance with the rules and regulations of the Grant Army of the Republic, Tuesday, May 30th, will be observed as a memorial day, o decorate with fitting ceremonies the graves of our fallen comrades. In this Centennial year, when each true patriot hopes to see the proofs of peace and good will, and we meet as united people to commemorate the events connected with the birth of our nation, the memories of dead comrades, whose lives were required for the establishment of that peace, should be very near to our hearts and command our choicest offerings. The mode in which these ceremonies may be conducted is left to the judgement of posts, but it is suggested that they invite the co-operation of other organizations and of the public generally. It is hoped the custom of preceeding years of planting flowers at the graves will be generally observed. Where no posts of the Grand Army are established, citizens are earnestly requested to arrange for the proper observance of the day, that the grave of each dead soldier and sailor may be appropriately honored. By order of JOHN F. HARTRANFT,

Commander-in-Chief. Rob't B. BEATH, Adjutant-General.

MARRIAGES.

Drugs and Medicine.

WHAT IS

It is a liquid Linament for House and stable use. A valuable combination, discovered by a celebrated Englishchemist and horse-farrier. Was introduced in the United Sates in the year 1856, and since that time, by its great success, in the cure of diseases, it has won for itself that world wide reputation it so richly deserves, and now stands at the head of all linaments us-

AS A FAMILY/MEDICINE.

It has already gained the confidence and admiration of thousands of households for its many cures of discases were external applications are of ar much importance. It is especially admired as a family remedy for its peculiar chemical combination. possesing no harsh ingredients, [like tincture of Cayenne or red pepper, of which cheap and valuless Liniments are largely composed.] which increase instead of diminish the inflamation, making it oy nature a speedy cure for
