----The notorious burglar, John Hayden, otherwise known as "Tip," who was recently sentenced to fifteen years in Auburn prison for the burglary at Mr. Kent's house in this city, is again at large, having escaped from that institution on Thursday night. The following telegram in relation to the affair was received in communications, in relation to martial music this city yesterday morning by Chief Johnson : AUBURN, N. Y., June 16, 1875. To Chief of Police :

Hayden will not probably be seen in these parts or in Owego-his former home. It is conjectured that he will probably go to Rochester, where he has a sister living, and from that point will go to Uanada.-Binghamton Times.

-Montrose Rough & Ready Band and Hose Company visited Scranton on Monday, June 12th, as invited guests of Nay-Aug Hose Company of that city. The Scranton Times pays them the following compliment : "We pass to that very fine body of gentlemen from

on organization, and a model one in every particular. The leader of this band is Theodore Smith, and Nelson A. Warner is the company foreman. They brought here fifty men. strapping tellows in feet and inches, and every inch other public places, there is nothing so effective is an inch of manhood. With them was J. R. Raynslord, Chief of the Montrose Department. They were Nay-Aug's guests, and Nay-Aug knew what it was about when it invited this company here. Their hose carriage is something a good deal finer than our folks are accustomed to see, a graceful, lithe, artistically constructed beauty, their "silver wedding gift;" for it was presented to them by their appreciative townsmen on their twenty-fifth anniversary, in June, 1873. The company is twentyeight years old, and has improved with age."

-The Graphic states that "after having kept an army of workmen on wages so low that saving was impossible it now deprives them of work altogether." The Graphic does not understand, it would seem, that there has been partial or total suspension in all the mines in this region, during all the present year, with the single exception of those of the Pennsylvania Coal Company. The men at work for the D. L. & W. Company have not had an opportunity to earn over eight dollars a month for the past six months, and the present suspension -that of working only every alternate weekis in reality no worse than has been the case all along. The real cause of complaint, at the late action of the monopolists is, that the miners, laboring, business men-everybody, in fact -had been encouraged to believe that early in June, all the mines would be in working order. and that all the men would be at work. And now, to have still further suspension announced, and that when the patience of the community was well nigh exhausted—a community that has been living from hand to mouth, on hope so long deferred-is altogether too much. for both the laboring and business community. What the result will be, and especially if the suspension is prolonged until August, we do not pretend to predict. But we may safely predict that there will be trouble.--Fress Press. -A singular phenomenon can now be seen in Clarion county, Pa., within fifty miles of Oil City, on a small stream known as Calfish Ran. For a long time the inhabitants of that locality have noticed a commotion on the surface, like that made by gas bubbling to the surface.-These bubbles have been seen for many years, but no particular notice was taken of them until recently, when the quantity of escaping gas increased, and the surface of the stream for several rods was covered with bubbles. A strong smell of gas also impregnated the air in the vicinity. Last month the place was visited by several gentlemen who had heard of the phenomenon. They become convinced that it was gas, and determined to test its burning qualities. A bunch of rags was obtained at a farm house, and thoroughly saturated with kerosene. To this a match was applied, and the burning ball thrown into the stream. Before it reached the surface of the water, the gas ignited and a slight explosion followed. In a few moments the body of gas burned steadily, and in every portion of the stream small flames sprang up where the gas escaped in moderate quantities. Since that day the gas continues to burn, and the area of the stream covered by it has increased, until now the fire extends a quarter of a mile up and down the run. Calfish Run is a sluggish stream bounded on either side by steep wooded bluffs. At night the scene along the burning stream is magnificent. The fires light | Fancy plaid + up the dark forests, and sparkle on the water. making a spectacle rarely witnessed. He lived only a FIRST RATIONAL BANK short time.....A gloom seems to rest upon our place, this week, caused by the announcement of the sudden death of Mr. Isaac Comstock .-Thursday he labored as usual in the field and at night went out alter his cows, but had not gone far when the angel of death overtook him. There was no appearance of the last struggle. He died with his staff in his hand a fit emulem of his long pilgrimage, being eightythree years of age. He is to be buried today in the Bailey cemptery. While we mourn with the sorrowing ones we should yet be grateful that the deceased was kindly released without pain and suffering. The sympathies of many personal friends are with the bereaved ones. -----The mad-dog unpleasantness, with which Binghamton was recently afflicted, has now broken out in Rochester. Several were killed by the police in that city, Tuesday, but not un til one of the Spitz variety, had bitten a little girl in a terrible manner. The above kind and the Esquimaux are the more frequent cases of hydrophobia reported this summer. χ

----On Sunday morning, June 11th, Thomas Shannon was drowned while bathing in a millpond near Middletown Centre. It is supposed he was taken with cramps as no other theory can be given for the sad accident. Benj. Glidden, J. P., of Friendsville, held an inquest with the requisite number of jurymen and a verdict was rendered in accordance with the above facts. Mr. Shannon was about twenty-five years of age.

-The Susquehanna Journal says that much has been said about the county "jail appropriation," but it appears that there has not yet been enough appropriated or applied, to destroy them very rapidly. These chickens make the jail secure enough to detain half a dozen prisoners at a time. There has been two deliveries of the atoresaid jail within the last three months, and if this thing continues, the rewards paid for the apprehension of escaped prisoners will knock Sheriff White's salary higher than a kite.

-The telegram which conveyed the news of the nomination of General Hayes for President fell like a wet blanket upon the fragments of the Court House Ring, in this county, and | ed: they are still unable to rally from the painful depression. They had their mouths all rounded to howl for Blain and the tar barrel secured for a grand ratification, when the telegraphic news, from Cincinnati, came upon them like a paralytic stroke and made things look Hayes-y indeed, and they quietly folded their tents about them and stole away into silence.

----- A western exchange tells its readers how to mind their "P's" in the following paragraph: "Persons who patronize papers should pay promptly for the pecuniary prospects of the press have a peculiar power in pushing forward public prosperity. ----Nine members of the family of Martin Laros residing near Easton, were last week poisoned by arsenic placed in their coffee. Mr. and Mrs. Laros, a son, and a young man named Schug died from the effects of the poison, and the others are in a critical condition. The coroner's jury rendered a verdict that the pois on was administered by Allen C. Laros. The accused is a school teacher and the son of Martin and Mary Ann Laros, two of the victims -

Since he was arrested he has confessed the crime, giving as a reason that he wanted to obtain from his parents money amounting to some \$300 or \$400, to help him in his study of the law. He manifests great remorse that he committed the almost unparalleled crime.

-----Albany and Susquehanna Railroad men are deeply interested in a new variety of chickens which has been introduced into Oneonta by Mr. Al. Devoe, an employe of the company. The chickens bear the uot particularly poetic name of "potato-bug eaters," but it is said that they bear a great antipathy to the vermin, and will be found of particular value by farmers, from the fact that they are unable to scratch. on account of the difference in the length of their legs. While standing on the long limb the fowl is unable to reach the ground with the other, and on the short one he is equally at a loss, from being too close. So say the railway

It is a peculiar black worm which can scarcely be crushed on the loose earth, as it is encased in a suit of armol difficult to break. They operate in the corn hills by eating off the young plants. As many as ten or twelve worms are sometimes found in one hill. The cut worm has hitherto been great annoyance, but this new pest is said to be even more destructive. In some townships farmers are busy replanting corn fields that have been thus devastated. Paris green has been found to be as efficacious in exterminating
