CHANGE IS ABSOLUTELY NECESSARY.

Change is absolutely necessary for the promotion of the welfare of everything in nature either animate or inanimate, both in the animal and vegetable kingdom. This proposition no one will oppose for the evidence is conclusive from personal observation. The same rule bears away in all human mechanism whether of the arts and sciences or of political economy and national government.

It has been absolutely demonstrated from the Patriarchal governments down to our Republic, from Moses to Grant, that a long continuation of power, either in the hands of individuals or parties, universally has engendered corruption, and that change has been the inevitable remedy.

From these general propositions which are axioms in themselves, hence are self-evident and need no demonstration, we will come down to our national affairs and to a time within the personal knowledge of the greater portion of our readers.

General George Washington, the first President of the United States, was inaugurated in 1789 and from that time until 1861, a period of seventy-two years, the Democratic party ruled this nation, with the exception of a few years. In 1860 and for a few years before the belief obtained among the majority of the people that the government was being administered corruptly and more for the benefit of party politicians, or rather sectional advantage, than for the welfare of the nation and enough of those who had formerly acted with the Democratic party united with the opposition and placed the control of the nation in the hands of the Republican party, and that party has held uninterrupted sway from that time until the present. Right here we desire to ask all those who have the welfare of our country at heart, to decide for themselves whether the evidence of party corruption is not stronger against the party in power to-day than it was against the old Democratic party? Is not the inevitable demand for a change as important, if not more so, as it was in 1860? Was there a hundredth part of the high-handed official corruption and ring stealing then, as now makes every true American, be he Republican or Democrat, hang his head with shame for the honor of his country and with apprehension for its future? The facts say no, and most emphatically so. If change was needed in 1861 is it not needed now? There were no Belknap, Babcock nor any of the long line of convicted felons to disgrace the Democratic party.

We can hardly find a man, even in the Republican party, who is not ready to admit that we charge against it, but the politicians attempt to further enslave the masses with the cry that they should be allowed to continue their power to plunder and oppress the people with sinecure and taxation, "because they saved the country in time of rebellion." Is there a man who dares to insult the history and intelligence of the people by asserting that the Republican party which elected its President in 1860 saved the country from rebellion? Such a man may be written down as either a knave or a fool. It was the patriotic people of the country irrespective of party, north, south, east and west, that saved the nation and it is the most infamous of all robbery for any political party to claim the honor exclusively to itself.—We might, with greater propriety and truth, claim that the Democratic party

is entitled to all the credit of the Revolution in throwing off British tyranny, and giving us an independent nation.—We can claim that under its fostering care this nation grew with unequalled prosperity for about sixty years. All this cry from Radical office holders and their subsidized press, is but the cry of political hypocrisy for partisan purposes, and can only be foud for fanaticism and party bigotry.

The simple unvarnished fact is this.—The Republican Administration of national affairs has fallen into the hands of the most corrupt ring of "machine" politicians, that has ever disgraced any country and the whole party management, from President to post-master, is under their control, and the only remedy is a complete cleansing of the "Augean stables," a change, absolute and complete.

Men often read of national affairs and hear them discussed but they seem so far off that they are inclined to think that they are not so much interested and quiet their apprehensions by the false doctrine that they can escape the penalties. This is not so, but that we may the more emphatically bring the matter home to our readers we will come right down to our own county affairs. It will be remembered that during the latter part of Democratic rule in this county a "Fire Proof Clique" sprang up in it, and a portion of the party united with the opposition to overthrow it and this result was finally accomplished. But we ask the people if the "Fire Proof Clique" during its worst history, can be charged with one tenth part of the corrupt transactions of the "Court House Ring" of the Republican party of to-day? Did they pass ring laws doubling official fees, levying "jail taxes" etc. etc., enveloping themselves in such a cloud of corruption as was exposed through the columns of the DEMOCRAT last fall? Was there one half the necessity for a change at that time that there is now?

We say that a complete change is demanded. The people of this county, as we demonstrated last week, are reaping great benefits from the partial change inaugurated last fall, yet it is impossible for any party to institute full reform or even do itself justice without full control. This was plainly demonstrated in the employment of commissioners clerk, when a \$700 one was employed instead of one for \$500. The Democracy cannot be held responsible for what they are unable to do. It is the merest folly to destroy much of the good effects of reform by retaining a neutralizing element of the old Rings. When a new hand is employed give him full control and then demand faithful action at his hands. Is there any one ready to say that change is not demanded in our county affairs? Has not every promised reform been carried out by the Reform party that they have been able to bring about? You have no untried experiment as you had at the last election. We can see plainly that honest men of the opposition may have deemed it best not to surrender full power to the reform party until they had had an earnest of its being administered in good faith. That evidence is now before you and we believe that what was left incomplete will be fully completed on the seventh day of November next.

THE SADDLE ON THE WRONG HORSE.

The Pottsville *Miners Journal* (Rep.) in correcting a statement of the New York *Herald* ascribing credit to the Republican state authorities for breaking up the murderous organization known as Molly Maguires, makes the following extraordinary statement:

"From all accounts the state authorities have been more disposed to profit politically by the existence of this murderous organization. There are some scandalous stories afloat around here, which may come to a head before this society is uprooted. In that event somebody at Harrisburg will have some powerful explaining away to do. The credit of what has been done in the way of destroying the Mollie gang belongs to Mr. Gowen and the Schuylkill county authorities.

The Pittsburg *Post* says: "Tilden made a world wide reputation and won the Democratic nomination by achieving a victory in a five years war upon the thieves of his own party. Hayes won the Republican nomination by siding his party to fill the public service with official thieves, against whose elevation he never once protested during the ten years while they were plundering the country before his eyes."

Gold closed in New York on Monday last at 111 1/2.

Hon. F. B. Gowen, in his great speech before the jury in the Munley case, at Pottsville, used the following language:

"I have seen this organization wield a political power in the state which has controlled the election of a great commonwealth; I have received the information of meetings between some of the highest officers of the state, and the chief of the murderers, at which large sums of money were paid to secure the votes of this infernal association to turn the tide of a state election. God knows, never since the world began was there a revelation as deep and damning as that now laid open to the people of the commonwealth for the first time."

Then we could say to Pat Conroy, commissioner of this county: The time has ceased when a Governor of this state dares to pardon a Mollie Maguire; you have had your last pardon."

The Mauch Chunk *Democrat*, in commenting on this bold and startling declaration, asks: "What does this mean? Will the *Gazette* please inform us if the report is true that Jack Kehoe, the leader of the Mollie Maguires received about \$1,100 from M. S. Quay, and several others in the order sums ranging from \$500 upward to influence their votes against Judge Pershing last fall? Why did Gov. Hartranft pardon the Mollie Maguire Commissioner of Schuylkill county?—Was that part of the contract?"

A fortnight has not elapsed since Tilden was notified of his nomination, yet Republican journals are concerned about his reply. Hayes required a month and Wheeler six weeks to make up their minds on the matter. Nobody cared for their letters or felt concerned about the time they required, but there is anxiety in relation to the utterances of the Democratic nominees. What they may have to declare will have a positive meaning and influence, and for that reason there is real concern felt in the public mind, to hear from them. No one doubts their acceptance, that much is settled, and we presume Gov. Tilden will await the final action of Congress before he frames his reply. He will have the advantage of accomplished facts before him. He will not require the assistance of a lot of political gamblers to put it in shape, he will not be in the leading string of the Morton's Cameron's or Logans, or swerve a hair's breadth from his oft-repeated and practiced principles. His pledges will be straightforward and easily understood, and he will when elected, carry out every promise he makes. Who will be his advisers we know not but one thing we are certain, no thief need apply.

The Republican organs say that Tilden has stolen thirteen different railroads and has got them all secreted under his horse barn. That he went back after the telegraph posts and Grant, Belknap, Babcock & Co. were there ahead of him and got away with them or he would have had them. Did you ever? No I never! Mercy on us, what a smell!

The Democratic party never entered into a Presidential campaign with a surer certainty of success. Tilden and Hendricks mean reform. The people know it. Hayes and Wheeler mean a continuation of Grantism. And the people know that too.
